Height	8 5/16"
Width	29 7/8"

Features & Benefits

Perfect heat
Sealed Dual Flow Burners™ deliver cooktop power up to 22,500 BTU (NG models) for seriously fast boiling right down to a precise 140°F full surface simmer with the gentlest of flames.

Precise control
From the highest to the lowest temperatures you get total control with halo-illuminated cooktop dials. A precise full surface simmer is delivered across all burners.

Easy cleaning
These cooktops have sealed burners and a single sheet cooking surface which, combined with a commercial-style stainless steel finish and dishwasher-safe grates, allow easy cleaning.

Information at a glance
LED halo control dials provide information at a glance and assist in alerting you if any burners are accidentally left on.

Cooking flexibility
The continuous surface grates are designed for pots and pans to move safely across the cooktop. Full coverage, deep-platform style grates are designed so heat goes directly onto the pot rather than the grates themselves, for a faster boil and energy efficiency.

Designed to match
Built to last with distinctive, bold styling, this cooktop is designed to match the Fisher & Paykel Professional style family of appliances.
