JBL SYNTHESIS

WB64SCL

SPECIFICATION SHEET

Pre-construction bracket for JBL Synthesis SCL-6XL

Instructions

- Determine location of bracket.
- Snap the two flat wing sections onto the frame.
- Install directly to the structural framing prior to the installation of wallboard.
- Use the wire tabs to hold pre-routed speaker wires in place.
- After the wallboard is installed, cut out the hole for the speaker using the inside cut-out of the frame as a guide.
- Mount the JBL Synthesis SCL-6XL according to the instructions provided with the speaker

Features

- For use as part of the installation process for the JBL Synthesis SCL-6XL into new construction.
- Designed to be installed during pre-wire and reserve the proper speaker placement as the wallboard is installed over them.
- Specifically sized for JBL Synthesis SCL-6XL.
- Wire tabs to hold pre-routed speaker wires in-place.
- Packaged and sold individually
