Product Description: The Kalamazoo Table Desk combines industrial design with practical function. Crafted from oak veneers with an aged finish, this desk evokes the aesthetic of a classic workshop drafting table. Its sturdy construction and fixed height make it perfect for any home office or creative workspace, providing ample surface area for writing, drawing, or working on a computer.

Collection Features: The four-piece Kalamazoo Home Office Collection evokes the look of furniture salvaged from workshops or industrial settings, featuring oak veneers in an aged finish that adds to the authenticity of each piece.

Status: New
Finish: An aged finish on oak veneers that adds to the authenticity of the piece.
Features: Desk features a drafting table aesthetic with a fixed height Counter height Metal supports
Material: White Oak Veneers
Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
