DELRAY

LINEAR

The perfect companion to today's design trends of minimalism & clean lines

DelRay Linear

Framing depth

The DelRay 36, 48, and 60 fit easily into a 14 $\frac{1}{4}$ " framing depth

Combustible facing

Our unique firebox design allows for installing a combustible wood facing right down to the glass opening.

Trim kits

For uneven and ledgestone finishing, a slim finishing kit connects directly to the fireplace frame to conceal the finished edge. These kits are adjustable and can cover finishing depths up to 2".

DELRAY FULL LOAD LINEAR

Standard

- Concealed burner with Ice fireglass
- Multi-function remote control
- Remote controlled fans
- Micro mesh safety screen
- Black reflective glass
- Halogen downlighting
- Battery backup
- Cement board

Options

- Propane conversion kit
- Adjustable trim kits
- Speckled stones, driftwood, glass media
- Heat management
- WiFi phone app control

DELRAY BASIC LINEAR

Standard

- Concealed burner with Ice fireglass
- Cement board

Options

- Remote control
- Fans
- Micro mesh safety screen
- Black reflective glass
- Propane conversion kit
- Adjustable trim kits
- Battery backup
- Speckled stones, driftwood, glass media
- Heat management

DELRAY FINISHING

TRADITIONAL FINISHING • COOL WALL RELEASE / COOL WALL ADVANTAGE

The finishing options for the DelRay Linear are as diverse as the unit itself. Create a surface safe for combustibles with the Cool Wall Release or Cool Wall Advantage kit, or keep it simple with traditional finishing. It's all up to you.

Traditional Finishing

DRL3613 NON-VENTED CHASE SURFACE TEMPERATURES

Requires included cement board.

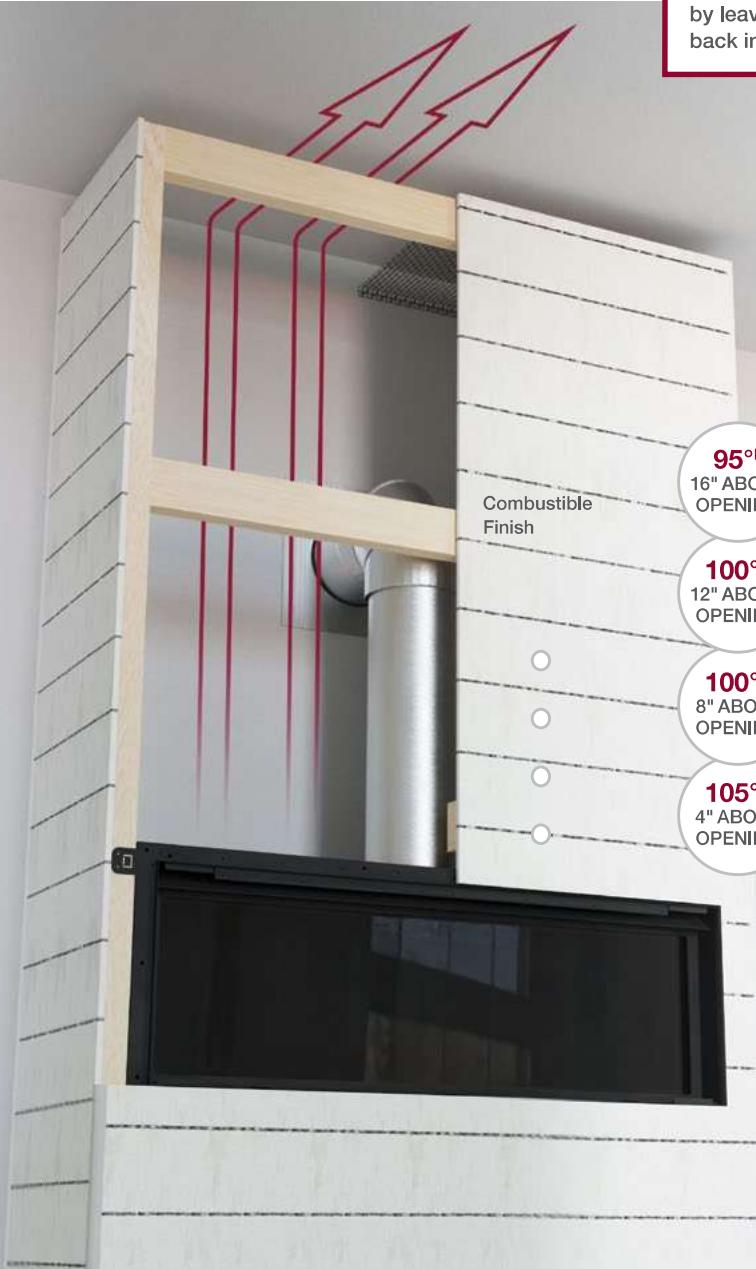

- 130°F 16" ABOVE OPENING
- 140°F 12" ABOVE OPENING
- 160°F 8" ABOVE OPENING
- 180°F 4" ABOVE OPENING

Trim Kits

For uneven and ledgestone finishing, we developed a slim finishing kit that fits directly to the fireplace frame to conceal the finished edge.

These kits are adjustable and cover finishing depths up to 2"

Cool Wall Release

VENTED CHASE SURFACE TEMPERATURES

DRL3613 Minimum 70° inch opening

DRL4813 Minimum 100° inch opening

DRL6013 Minimum 120° inch opening

DRL7213 Minimum 120° inch opening

Temperatures shown are based on a DRL3613NI-2 with vented chase

Minimum 6' chase
(When venting ports open or using Cool Wall Advantage kit)

Included cement board and stud heat deflector not required when using the Cool Wall Release or Cool Wall Advantage System.

VENTING PORTS

Opening the venting ports diverts heat through the chase, resulting in lower wall surface temperatures

1976: The Days Before Gas Fireplaces

In 1976, Montigo president and founder, Dan Binzer, started installing zero-clearance wood burning fireplaces for local builders in Vancouver, BC. Over the years, demand grew for a gas alternative, and Dan engineered and manufactured the first ever sandpan logset. The logset was installed in a zero-clearance wood burning fireplaces shell, resulting in one of the first zero-clearance gas fireplaces on the market.

1985: Gas Fireplace Manufacturing Begins

Demand for gas grew rapidly, especially among multi-unit developments so Dan Binzer started a company called Canadian Heating that would offer full service design, engineering and manufacturing for gas fireplaces. Under the Montigo brand, Canadian Heating began manufacturing and selling a wide selection of zero-clearance gas fireplaces throughout Canada and in 1985 development began for the latest and greatest in gas fireplace technology – direct venting.

1994: Manufacturing Excellence is Achieved

Development and advancement of the gas fireplace continued over the years with continual developments to improve the efficiency of the fireplaces and perfected manufacturing processes to deliver an optimum fireplace each and every time – even for completely custom units.

Present: Leading the Way with Modern Fireplace Design

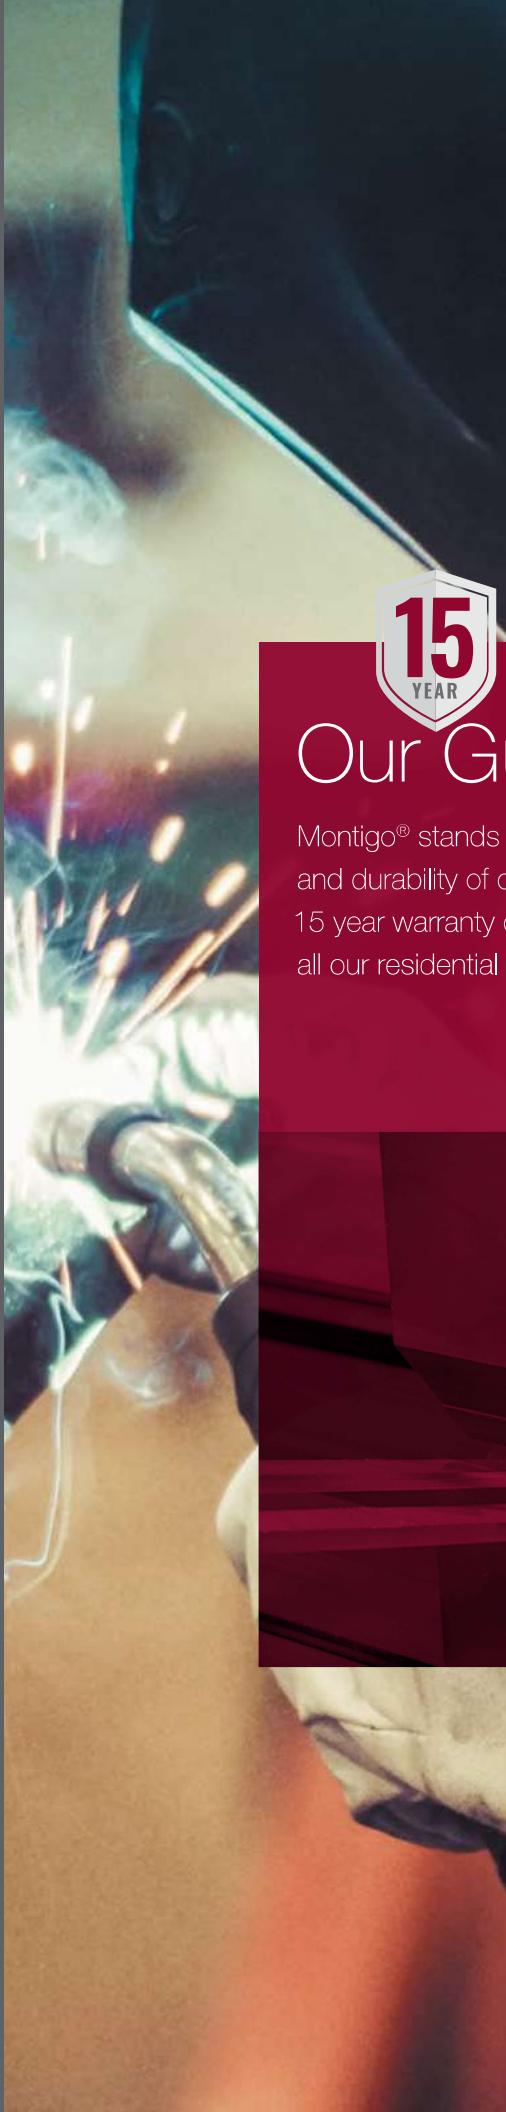

As one of the first to bring a linear designed fireplace to market, Montigo now offers the largest selection of linear fireplaces demanded by designers, architects and homeowners wanting to create a modern and contemporary space and homeowners wanting to create a modern and contemporary space.

WARNING

Some materials used in the manufacturing process of this product can expose you to Benzene which is known in the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65warnings.ca.gov
