TWIN

Twin's brilliantly glossy finish reflects the world around it like a kaleidoscope, and provides a powerful visual impact, while the modern, clean-lined definition makes it easily adaptable to a variety of styles and environments. Many are misled by Twin's pendent light appearance and are pleased to find its decorative qualities are equally balanced by a high functioning range hood hidden within. All possible due to Elica's patented Evolution system.

Think Outside the Kitchen and consider Twin for an "Air Cleansing" role in other rooms of the home, such as a smoky billiard room or den.

TWIN

PLUS FEATURES

AMBIENT LIGHT - Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is quite unique, and represents one extraordinary point of strength for us.

LONG LIFE FILTER - One-of-a-kind odour filter, capable of regenerating itself and of lasting up to 3 years, while standard filters have an average life between 3 to 6 months. To maintain these characteristics, the filter only requires simple maintenance: wash every 2 or 3 months with hot water and mild soap (also in the dishwasher at 65 degrees) and dry in the oven for 10 minutes at 100 degrees.
