BLUETOOTH

The LG NP8540 40W 2CH speaker works either alone or as a part of LG's multi-room speaker system. With Smart Music Play, your compatible mobile device is recognized when you get home and seamlessly syncs to your LG Smart Hi-Fi system. This lets you listen to music without interruption from your earphones to your home speakers. Compatible with many streaming services and Bluetooth® all without those pesky interruptions in service. The Mesh network combined with dual band technology minimizes disconnections for a seamless listening experience. With, multi-room mode, you can synchronize your speakers to play the same music throughout or set different music for every room in the house.

*Internet connection required.

SEAMLESS NETWORK

LG Music Flow is designed to minimize those pesky drops in connection that interrupt your music. The Mesh Network combined with Dual band technology lets you play high definition music files on a more stable and seamless connection.

MULTI-ROOM MODE

With Multi-room Mode, you can customize your home audio experience. Either synchronize your speakers to play the same music with the help of a bridge or let family members choose their own music in separate rooms.

LG MUSIC *flow*

LG MUSIC FLOW PLAYER

LG's Music Flow Player application lets you easily access your music either streamed or stored on compatible devices and control them on your LG wireless speaker.
