- Best-in-class call quality of any Sony wireless speaker.²
- Included charging cradle for style and convenience.
- IPX4 splash resistant.³
- Up to 25-hour battery with quick charging.¹
- Pair up to two Bluetooth® devices with multipoint connection.^{5,6}

Features

Your all-day music companion

Our LinkBuds Speaker is a seamless addition to the LinkBuds family. Auto Switch seamlessly swaps playback between LinkBuds earbuds and LinkBuds Speaker automatically.⁷ Additionally, Quick Access lets you enjoy one-touch listening, with Auto Play adapting to your routine for an even smoother experience.

Stay Connected to your music with Auto Switch

Auto Switch ensures seamless playback between your LinkBuds Speaker and LinkBuds earbuds for an uninterrupted listening experience. In wireless range, the LinkBuds Speaker can pick playback up instantly once LinkBuds earbuds are replaced in their charging case. Heading out?

Playback switches back to the earbuds when they're removed again from their case.⁷

Set the scene with Auto Play

Whether it's something uplifting when you wake up, or something soothing when you go to sleep, set the time for your daily routine and your favorite tunes will play. Program your routine with just a few simple taps, then automatically enjoy playlists like "Get Ready" or "Bedtime", to bookend every day with the perfect soundtrack.⁸

One-touch listening with Quick Access

One press of the Quick Access button on top of the speaker and you'll be listening to your favorite music services.⁹ No need to touch your smartphone.

Sound to live with

LinkBuds Speaker combines clear, well-balanced audio for a comfortable listening experience with the best-in-class call quality ever produced by a Sony wireless speaker.²

Small body, quality sound

The LinkBuds Speaker is packed with speaker drivers for clear and well-balanced sound. The two-way speaker system features a dedicated tweeter and an X-Balanced Speaker unit (woofer) for impressive bass and clear vocals with less distortion. A tweeter brings greater clarity across mid- to high ranges, passive radiators work together with the X-Balanced Speaker Unit to enhance bass.

Send the sound around with the Sound Diffusion Processor

This compact speaker packs impressive sound that spreads all around. The Sound Diffusion Processor expands sound in any

space with its DSP technology.

5-band Equalizer and CLEAR BASS setting

With a 5-band equalizer and CLEAR BASS setting, select your favorite sound setting and hear your music exactly as you like it.⁴

Clear calls keep you connected

The LinkBuds Speaker has the best-in-class call quality of any Sony wireless speaker.² The top-mounted microphone is acoustically isolated from vibrations and other interference to ensure crystal-clear pickup. It ensures clear call even if the LinkBuds Speaker is placed in any direction. Echo-cancellation also ensures conversations flow smoothly, without echo.

Take the tunes with you

The handy, detachable strap lets you take your LinkBuds Speaker wherever you go, whether that's into another room or to the kitchen. And with an IPX4 water-resistance rating, you can use it around water without worrying about splashes.³ Finally, it's dedicated charging cradle ensures convenient charging.

Convenient charging with the cradle

The supplied charging cradle makes charging a breeze. And the stylish marbled finish lets it blend into any interior.

Stylized for you

The LinkBuds Speaker offers a simple yet considered, unmistakable design that blends into any interior setting. You can select the color that best suits your style in either light grey or black.

Splash resistant

An IPX4-compatible water resistance rating means the speaker can be used in the kitchen without fear of splashes.³

More than a day's battery

Enjoy up to 25 hours of continuous playback.¹ And get up to 70 minutes of listening from just 10 minutes of charging with quick charging.

Total convenience, total customization

LinkBuds Speaker is even better with the Sound Connect app.⁸ The simple interface lets you dial in your ideal sound and shortcut settings, including Auto Switch, Quick Access, and Auto Play. It can even keep track of your recent listening history.

Multipoint Connection

For total convenience, LinkBuds Speaker can be paired with two Bluetooth® devices at the same time, automatically switching when a call is received, or playback is started on either device.^{5,6}

Add an extra speaker for rich stereo sound

Connect two LinkBuds Speakers via Bluetooth® to activate stereo sound (left and right), to experience a rich sense of presence.^{5,6}

Bluetooth® Fast Pair

In one tap, the LinkBuds Speaker enables quick effortless Bluetooth pairing with your Android™ devices.^{5,6,11}

Easy pairing with your computer

Swift Pair makes it quick and easy to pair your speaker with your Windows 11 or Windows 10 laptop, desktop PC or tablet. Pop-up pairing guidance appears on nearby Windows 11 or Windows 10 devices when pairing mode is selected.

Aiming to achieve a zero environmental footprint

Inspired by the beauty of the world, we are doing our part to help preserve the Earth while still offering superior sound quality and listening experiences. With a goal of achieving a zero environmental footprint across the entire Sony Group by the year 2050, we are accelerating numerous initiatives for the environment.

Sustainability in mind

Our products are designed not only to pursue sound quality, but also to consider the environment. Recycled plastic¹⁴ is partially used for the body of the LinkBuds Speaker. This reflects our work to reduce the environmental impact of our products.

Accessibility

We believe technology should make the world more interactive, more creative, more entertaining, and more inclusive. By incorporating human-centric, inclusive design into our audio products, we deliver our Kando experience to all our users, regardless of age, ability or environment.

Specification

Eco and Energy Saving	
Power Consumption (Standby Mode)	Approx. 0.3 W

1. Actual performance varies based on settings, environmental conditions, storage, and usage. Batteries are consumable products, and their capacity degrades over time as they age. Sony does not guarantee the life span of the battery. At volume level 23, 6 hours at continuous maximum volume.
2. Only with the models sold after April 1, 2021, (except neckband speakers). According to research by Sony Corporation, measured using ITU guidelines. (Measurement distance is based on ETSI guidelines.) Call quality excludes impediments related to the mobile device, third party service providers, Internet, network connectivity or environmental conditions.
3. With the cap securely closed, this unit has a water-resistant performance equivalent to IPX4, which is a "protection against ingress of water" rating defined by IEC 60529 "Degrees of protection provided by enclosures (IP Code)" for electrical equipment. The supplied accessories and the connectors of this unit (USB) are not water resistant. To reduce the risk of fires or electric shocks, do not expose the unit to water or droplets while using any connectors (USB).
4. The equalizer is controllable through the Sound Connect app.
5. Interoperability and compatibility among Bluetooth® devices vary.
6. Only compatible between LinkBuds Speakers.
7. Truly wireless type switches with the cases. However, the headphone type has an alternative way of switching. Operation varies and depends on the product chosen.
8. Set up with Sony | Sound Connect app. Terms and conditions for available partner services and their contents, as well as related software (including operating systems) apply. Network services, content, and operating system and software subject to terms and conditions and may be changed, interrupted or discontinued at any time and may require fees, registration and credit card information.
9. Download Spotify, Amazon Music or Endell app and set up with Sony | Sound Connect from Google Play and the App Store. Service may not be available in some countries/regions. Network services, content, and operating system and software subject to terms and conditions and may be changed, interrupted or discontinued at any time and may require fees, registration and credit card information.
10. Android phones running 6+ are required.
11. When watching movies, there may be a gap between video and audio.
