

LADDER BACK ARM CHAIR

When we think of timeless dining chair styles, a traditional ladder back design is always at the top of the list. And the Selwyn ladder back is possibly the most stylish and timeless of them all! With its antique white finish, it not only matches the Selwyn collection, it also works great when paired with a broad range of traditional styles for an updated, acquired look. Shown here in the arm chair format, it is also available as a side chair.
