MX-FS9000 Mini System

KEY FEATURE

Lightning Effect
LED pattern lighting effects on the main unit and the woofers will pulse to the beat of the music for a party atmosphere.

DJ Effect
Wth dual jog dials can add realistic club sounds to the music playing including Chorus, Flanger, Wah Wah and Panning.

Bluetooth®:
The Samsung Audio System is equipped with Bluetooth®, so you can sync up quickly and easily to compatible devices – including Smartphones and media players.

EZ MP3 Maker (CD 4x, MIC, Radio, Aux):
Enjoy fast and flexible MP3 creation from a variety of sound sources. The built-in EZ MP3 Maker lets you use your audio system to make high-quality MP3 files via CD ripping or recording from FM radio and auxiliary input signals. You can even connect a turntable and transfer your vinyl records – so virtually any music collection can be digitized.

Giga Sound Blast:
Upgrade your sound system to Samsung's Giga Sound Blast, and experience superior performance and sound quality that stands out. The enhanced low-frequency bass and crystal-clear treble make it the life of the party.

Crystal Amplifier Plus:
Samsung's Crystal Amplifier Plus filters sound sources twice to minimize distortion and produce clear audio that sounds exactly the way it was meant to be heard.

Radio Recording Feature:
Catch all your favorite radio programs. It's simple: just set the start and stop times, and your Samsung Audio System automatically captures the audio recording, which you can enjoy at your leisure.

CD Ripping:
Lets you take your favorite tracks with you on your MP3 player. In just minutes, you can convert your CDs to MP3s – simply insert your CD and press the 'rip' button.

AUDIO

MP3, WMA, CD DA / CD-R / CD-RW

CONNECTIONS

USB Host:
The range of music sources that you can enjoy is limitlessly widened to those of USB memory, external hard disk, MP3 Player and PMP. (supporting music file formats: MP3, WMA).
