SAMSUNG

38 dBA Smart Dishwasher with 3rd Rack Washing System

Signature Features

Intelligently Thorough

Clean dishes thoroughly* and efficiently. AI Wash uses a new high-resolution turbidity sensor and machine learning algorithm. It intelligently adjusts the washing and rinsing cycles to clean dishes and remove even stubborn leftover food and sticky residue effectively without pre-rinsing.

Upgraded 3rd Rack Washing System

Clean cutlery, utensils and drinkware easily, effectively and space efficiently. An extra-large 3rd Rack at the top provides a dedicated area to place cutlery and a detachable tray means it can also be used for large cooking utensils. In addition, there is an area to put various drinkware, including up to six 6" and six 4" cups, which has six spinning nozzles that remove residue thoroughly. It allows items to be loaded and unloaded quickly and efficiently and frees up space in the other racks*.

Extra Quiet (38dBA)

Avoid creating a disturbance at home with an ultra-quiet dishwasher. A frictionless BLDC motor reduces noise significantly and its insulation technology and stainless steel tub absorb much of the sound and vibration. At just 38 decibels* it has one of the lowest noise levels in the industry.

Smart Heat Dry with Auto Release

Dry dishes effectively* every time with heated air enabled Smart Dry with AutoRelease™. It absorbs moisture and circulates high temperature air. It also intelligently adjusts the drying temperature and time to avoid wasting energy. And, when cycles end, the door opens for faster, better drying.

Available Colours:

Fingerprint Resistant Stainless Steel
DW90F89TOUSRAA

Fingerprint Resistant Matt Black Steel

Dimensions and Installation Diagrams

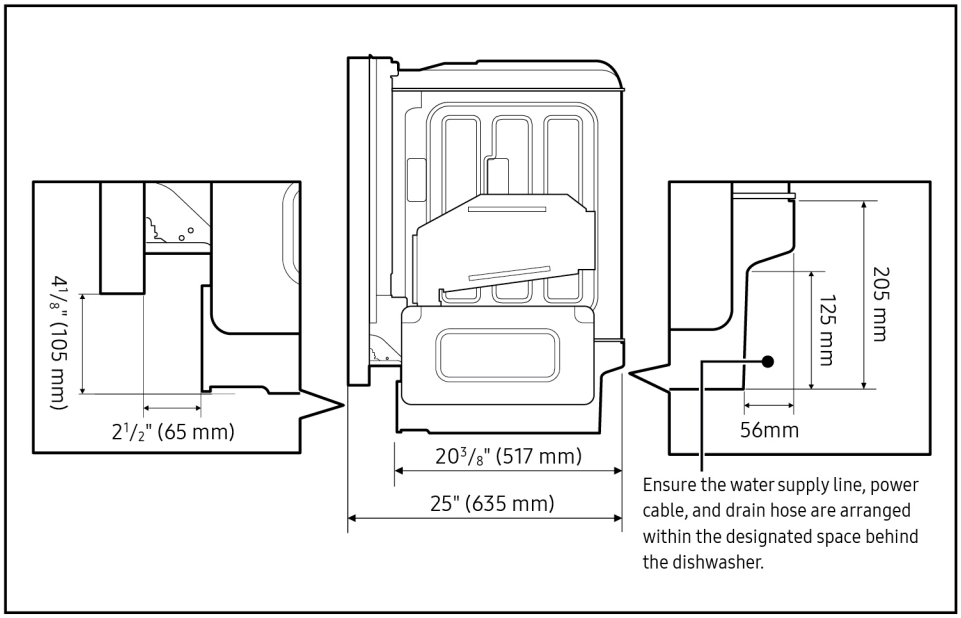

Cabinet Dimensions

This dishwasher is designed to be enclosed on the top and on both sides by a standard residential kitchen cabinet unit. The installation cabinet must be clean and free of any obstructions. The cabinet must be at least 24 inches wide, 24 inches deep, and 34 1/8 inches high. For the front door of the dishwasher to be top, the counter top must be at least flush with the leading edge of the counter 25 inches deep.

Ensure the water supply line, power cable, and drain hose are arranged within the designated space behind the dishwasher.
