Enya Sideboard Red Oak

Storage, but make it a conversation piece. The Enya Sideboard takes its cues from the Arts and Crafts movement, then sharpens the silhouette into something clean and modern. Carved front detailing adds depth without visual clutter, while a craftsman-style frame keeps the profile grounded and intentional. Push-to-open doors skip the hardware so the wood grain stays in charge—right where it belongs.

- Craft-Forward Profile: A modern frame with Arts and Crafts roots, finished with carved door fronts that add quiet pattern and presence across the room.
- Wood Mix, Warm Tone: Crafted with red oak wood, mango wood, and an MDF core with oak and mango veneer for a consistent, well-made finish.
- Grounded Construction: A craftsman-style frame gives the piece a solid, balanced feel, letting the rectangular silhouette read clean from every angle.
- Clean-Front Access: Push-to-open doors keep hardware out of sight, so the carved detailing and wood grain stay front and center.
