**SKU:** P021767

**Availability:** In Stock

**Type:** Cabinets, Curio Cabinets

**Category:** Living Room

**Collection:** Accents April 2021

**Number of Shelves:** 5

**Style:** Modern/Contemporary

**Finish:** Light Wood

**Brand:** PFC

**Product Description:** Give your collections the spotlight they deserve with this transitional Sliding Door Curio. Design details include picture frame molding with a parchment-colored finish on a simple, clean silhouette and a glass back panel to enhance the overall presentation of the items displayed. Five shelves, four adjustable and one stationary, with a top-mounted LED puck light, create a focal point and add an aesthetic appeal.

**Collection Features:** Whether placed in a living room, dining area, or office, our display cabinets and curios offer a versatile storage solution. With adjustable shelves and built-in lighting options, these cabinets are perfect for displaying everything from fine china and collectibles to artwork and books. Designed with meticulous attention to detail, our cabinets offer both style and durability.

**Status:** Active

**Finish:** The light wood finish contribute to a modern aesthetic

**Features:** Clean lines and a simple silhouette create a chic and modern appearance

Features four removable/adjustable glass shelves and one stationary glass shelf are perfect for showcasing fine china, glassware, collectibles, or decorative accents

An LED puck light illuminates the items in the cabinet, making them more visible and attractive

Picture frame molding adds a classic detail that enhances the overall design

**Material:** Ash Wood Veneers

**Frame Construction:** Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
