Enjoy espressos, lattes and cappuccinos, just the way you like, with the KitchenAid® Semi-Automatic Espresso Machine. This is the first residential espresso machine that features dual, smart temperature sensors, that maintain the perfect brewing temperature shot after shot. The fast-heating thermocoil technology heats water up to the ideal brewing temperature in less than 45 seconds. And, the low pressure pre-infusion and 15-bar Italian pump work together to make a deliciously rich, thick crema.

Top Features

Optimal Temperature for Authentic Tasting Espresso

Maintains Optimal Heat through Extraction

Prepare 1 or 2 Espresso Shots
