Virginal Medium Jar

1200-0884

In Stock

Overall: 23.5"h x 12.5"dia.

Finish: Antique White

Materials: Terracotta

Item Weight: 25 lbs.

Mimicking the shapes of the terracotta jars that have historically been used for preserving olives in oil, the Virginal Medium Jar is made of terracotta with an antique-white, hand-applied glazing that is so thick and rich it has a crackle surface. The fact that this piece is hand-thrown means the shapes will vary slightly, as will the finish, which will make each of these vessels unique. Anyone who spies them in an interior will be convinced they are timeless antiques.
