Finish: Dark Wood

Brand: Hooker Furniture

Product Description: In a swanky inverted quadrangle shape, the casual modern Terra Credenza combines Pine Veneers with metal. The outside and top of the case has a dark wood finish, contrasting with white painted doors and a metal base. The three doors have soft-close hinges and magnetic door catches, with one adjustable shelf behind each door. There's a ventilated back panel and 3-plug electrical outlet located behind the center door, making this credenza media-friendly. Rounded corners.

Collection Features: Come closer to Melange, and you will discover something unexpected, an eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces.

Status: Active

Finish: Dark wood finish over pine veneers on exterior with white painted doors and metal base

Features: Three doors with soft-close hinges and magnetic door catches
One adjustable shelf behind each door
Ventilated back panel
Metal base
Rounded corners

Levelers

Power supply located behind center door

Material: Pine Veneers and Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
