Overall Mattress Height — 16.25"

### TECHNOLOGY

- Our quilted Hybrid NXT begins with Ultra-Premium components engineered with advanced ion technologies.
- We added phase-change (PCM) technology to our luxurious 4-way stretch knit fabric. PCM uses micro capsules that absorb or reflect heat as needed, producing a more constant sleep environment.
- Our EvoWC<sup>5</sup> (Evo Wrapped Coil) is a 5-zoned wrapped coil system with over 1130 (queen) coil sensors. This evolutionary support system responds to each movement providing the ultimate in comfort and support.
- Ultra-premium latex and memory foams are infused with Copper Ion Technology and engineered to perform perfectly with the EvoWC<sup>5</sup> for a cooler, cleaner and healthier night's sleep.
- The next generation in Hybrid technology adds quilting to the top layer for the luxurious comfort you deserve.
- Copper ion technology offers, circulatory, anti-inflammatory and antioxidant properties.
