Getting started with Skype

Make calls and video calls with Skype on your TV.

Made possible by SMARTHUB - bringing useful and entertaining features directly from the web to your TV.

NOTE

- Connect your SAMSUNG webcam directly to the TV, not through a USB hub.
- If the webcam isn't working properly, turn the TV off then on again, and relaunch Skype.
- Skype is disabled when the TV is turned off.
- Voice quality may be affected in a noisy environment.
- Using a wireless network can degrade call quality.
- Use of the Skype software is subject to the Skype End User License Agreement (skype.com/legal/eula), Skype Terms of Service (skype.com/legal/tos) and the Skype Privacy Policy (skype.com/legal/privacy/general).
- If Skype is deleted, saved information (History and Options) is deleted.
- For help using Skype, visit skype.com
- You need to configure your network before using Skype on your TV. See instructions in this manual.
- The ring bell rings when someone calls to you while you watch the TV or operate the Skype application.
- Buy and use the TV camera of the SAMSUNG only. The TV Camera of the other companies is incompatible with your TV.
- TV camera launched in 2010 and the SAMSUNG TV launched in 2011 are incompatible.
- Only Skype of version 4.2 or greater is supported on Windows-based PCs.
- Only Skype of version 5.0 or greater is supported on Macintosh PCs.
- Not supported on Linux-based PCs.

To sign in with an existing account:

When running Skype on your TV for the first time, enter your **Skype Name** and **Password** or **Create Account**. If you can't login, check the network connection.

The image shows the Skype TV sign-in interface. At the top, it says "Welcome to Skype!". Below this, there are two input fields: "Skype Name" with the text "samsung_skype1" and a dropdown arrow, and "Password" with masked characters "*****" and a question mark icon. Below the fields are two buttons: a green "Sign In" button and a blue "Create Account" button. At the bottom, there are two checkboxes: "Sign me in when Skype starts" (checked) and "Sign me in when the TV powers on" (unchecked).

1 Enter your **Skype Name**.

2 Enter your **Password**.

3 Press the **Sign In**.

The image shows the Skype TV sign-in interface with a virtual keypad. The "Skype Name" field is highlighted with a green border. The keypad has numbers 1-9, 0, and function keys like "Shift", "ABC", "ab", "Ab", "AB", "1", and "Star". At the bottom, it says "Input Method" and "Language: English".

Use the keypad to enter the **Skype Name** and **Password**.

Creating new account

skype

Welcome to Skype!

Skype Name

Password

☒ Sign me in when Skype starts
☐ Sign me in when the TV powers on

1 Press **Create Account**.

skype

Create a new Skype account

Screen display

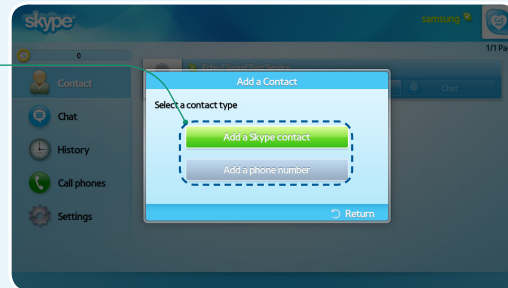

Adding a contact

1 Press  **Add a Contact.**

2 Select one.

- **Add a Skype contact** : Enter the person's Skype name, full name or e-mail.
- **Add a phone number** : Enter the name and phone number.

To call a contact

1 Press **Video Call** or **Voice Call**.

◦ The display may differ depending on models.

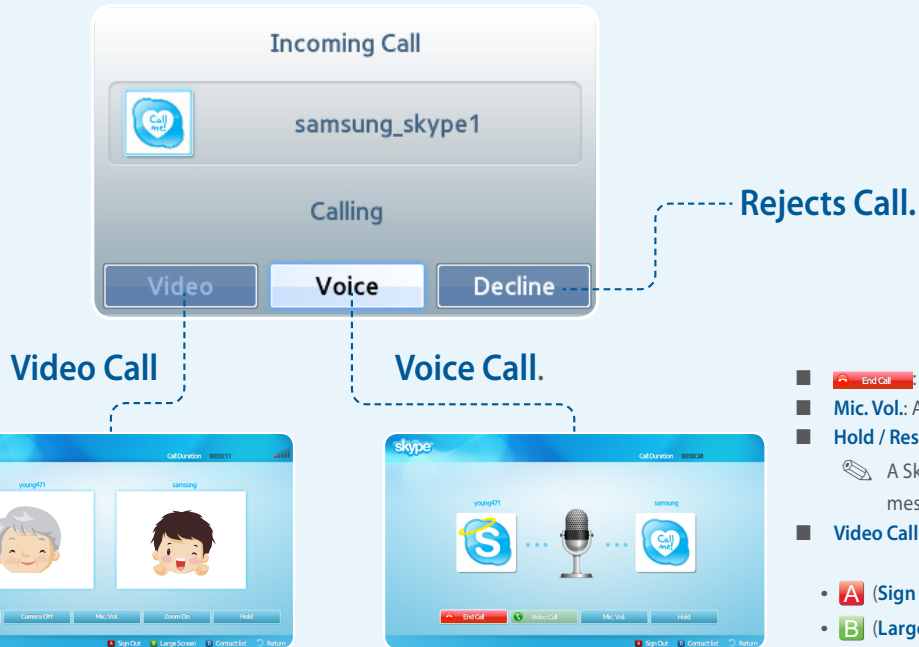

Video Call

Voice Call

Receiving

When in a video or voice call.

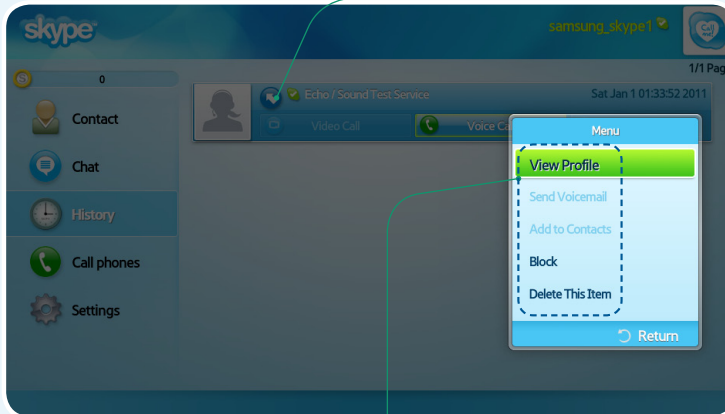

- **End Call**: Hang up the call.
- **Mic. Vol.:** Adjusts the microphone volume.
- **Hold / Resume:** Hold/ Resume the call.
 - ✎ A Skype contact will see a notification message when they are put on hold.
- **Video Call:** Switches to a video call.
- **A (Sign out):** Signs out.
- **B (Large Screen):** Switch to full screen
- **D (Contact list):** Displays the contact list.

◦ If a conference call comes in, the Video option is disabled.

History

Shows the history of calls you've made, listed from most recent to oldest, top to bottom respectively.

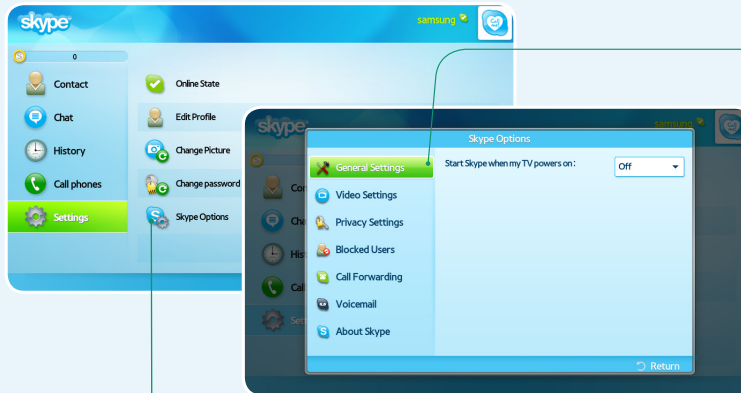

Each call has an icon next to it:

Icons	Meaning
	Incoming call
	Outgoing call
	Missed call
	Incoming voicemail
	Missed voicemail
	Incoming conference call
	Missed conference call

- **View Profile:** View the selected contact's profile.
- **Send Voicemail:** Send a voicemail message to the selected contact.
- **Add to Contacts:** Add this person as a contact. This option is available when you don't have this person saved in your Contact list.
- **Block:** Block this person from contacting you.
- **Delete This Item:** Remove this item from your History.
- History can be limited by memory capacity.
- The time set on the TV is applied to the History.

Skype Options

1 Select **Skype Options**.

2 Change the each option(s).

- **General settings:** Select whether you want Skype to launch automatically when you turn on the TV.
- **Video settings:** Adjust the privacy settings for video. Choose who you will receive video from by selecting **Anyone**, **Only people in my Contact list** or **No one**.
- **Privacy Settings:** Choose who you will receive calls from. Select **Allow anyone to contact me** or **Only allow people in my Contact list**.
- **Blocked Users:** If you don't want to hear from someone, block them by entering their Skype Name or phone number. Any blocked persons will be listed in this window.
You can also block a person in the Contact and History lists by selecting the contact and pressing the **TOOLS** button.
- **Call forwarding (diverting calls):** To forward calls from your Skype account when you're not on Skype, add the phone numbers you want calls directed to. Select the country and enter the number with the area code. Enter the divert time to specify the delay before the call is diverted. You need to buy Skype Credit from skype.com to use this feature.
- **Voicemail:** This feature allows people to leave audio messages when you are away. You can listen to the messages wherever you are signed into Skype. For more information or to get voicemail, go to skype.com and click on Account.
- **About Skype:** View the Skype copyright information.
