Handsome and comfortable, acacia veneers offer distinctive character, while half-cylinder panels create dimension and depth, making this bed the perfect resting place after a long day. This piece commands attention, leaving a lasting impression on anyone who enters.

**Collection Features:** Woodbury bedroom and dining room offers traditional silhouettes and scaling. The Acacia veneer is finished in a rustic Cowboy Boots Brown that is suitable for today's casual lifestyle. The raised half cylinder panels add bold dimension and are the focal point for this group.

**Status:** Active

**Finish:** Cowboy Boots Brown finish showcases a deep, earthy tone reminiscent of well-worn leather

**Features:** Traditional style combines timeless design with a rich, warm aesthetic. Half cylinder panels and intricate molding add depth and texture to the overall design.

**Material:** Acacia Veneer

**Frame Construction:** Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
