BLUETOOTH OPERATION

PAIRING & DISCOVERING A NEW BLUETOOTH CONNECTION

- 1) Power on the **BM40AMPBT** by pressing and holding down the **Play/Pause** multifunction button for 3 seconds, the **3** blue LEDs will start to flash, signalling that the BM40AMPBT is now ready for Bluetooth pairing.

NOTE: You have 30 Seconds before you must restart this procedure over again.

- 2) Now that the **BM40AMPBT** is in pairing mode:

ANDROID users:

- a. Go into the **Settings Menu** of your device
- b. Enter the **Bluetooth Menu**
- c. **TURN ON Bluetooth** and press **SCAN**
- d. **"BOSS BM40AMPBT"** will now be displayed under **AVAILABLE DEVICES**
- e. Press **"BOSS BM40AMPBT"** to get **Bluetooth connected**

iOS users:

- a. Go into the **Settings Menu** of your iOS device
- b. Enter the **Bluetooth Menu**
- c. **TURN ON Bluetooth**
- d. **"BOSS BM40AMPBT"** will now be displayed
- e. Press **"BOSS BM40AMPBT"** to get **Bluetooth connected**

- 3) If the **BOSS BM40AMPBT** is not seen, repeat the above steps to refresh the "Device List"

- 4) When the connection is successful, you are now ready to stream music from your favorite media player to the **BM40AMPBT**

9

BEFORE INSTALLING THIS PRODUCT

To avoid potential shorts in the electrical system, be sure to disconnect the (-) battery cable before installation. Use this unit with a 12-volt battery and negative grounding only. Failure to do so may result in a fire or malfunction.

When replacing the fuse, be sure to only use a fuse of the rating specified on this product. To avoid short-circuiting, cover any disconnected leads with insulating tape. It is especially important to insulate any unused wires, which if left uncovered may cause a short circuit. When connecting other devices to this product, refer to the manual for the product to be connected. The black cable is ground, make sure to connect the ground wire first. Ensure that the ground wire is properly connected to metal parts of the vehicles body frame or direct to the battery if your vehicle does not have a grounded chassis frame. The ground wire of this unit power amp and a second powered system must be connected to the frame separately with different screws. If the screw for the ground wire loosens or falls out, it could result in fire or malfunction.

SPEAKER MOUNTING SUGGESTIONS

TOOLS NEEDED:
- 12mm Socket, Wrench or Pliers
- 6mm Allen Wrench

2

INFORMATION TO THE USER

FCC COMPLIANCE STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of this device.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter. The Bluetooth antenna cannot be removed (or replaced) by user. This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure (MPE) evaluation. But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person's body (excluding extremities: hands, wrists, feet and ankles). Alteration or modifications carried out without appropriate authorization may invalidate the user's right to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate or reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION!!
ADJUSTMENT OR ALTERATIONS OF THIS DEVICE MAY RESULT
IN HAZARDOUS RADIATION EXPOSURE.

6

BLUETOOTH / OPERATION

Diagram showing the Bluetooth connection process. A smartphone is connected to the BM40AMPBT via Bluetooth. The multi-function controller (MFC) is shown with the Bluetooth icon lit up.

RECONNECTION

- 1) Power on the **BM40AMPBT** and your last paired device Bluetooth.
- 2) The unit will now automatically reconnect
- 3) If your device was previously paired with the **BM40AMPBT**, but it wasn't the last paired device:
 - a. Ensure no other devices are currently paired
 - b. Enter the **Bluetooth Menu** on your device being paired
 - c. **"BOSS BM40AMPBT"** will display under **AVAILABLE DEVICES**
 - d. Choose the **"BOSS BM40AMPBT"** to reconnect
- 4) If the device is out of range from the **BM40AMPBT**, it will disconnect automatically:
 - a. To reconnect once device is back in range, press the **Play/Pause** button once
 - b. The **BM40AMPBT** will now reconnect to the device

Tips: To avoid battery exhaustion, be sure to occasionally run the vehicles engine while using this product.
Using this product without running the engine can drain the battery.

10

INSTALLATION INSTRUCTIONS

Diagram showing the installation steps:

STEP1: Remove Both Screws

STEP2: Remove backing From Rubber Pad & Push Down

STEP3: Mounting Bracket

STEP4: Mounting Bar

3

BEFORE YOU START

IMPORTANT SAFETY PRECAUTIONS

- Do not operate mobile equipment while driving a motorized vehicle – safe driving and safety consideration of others should always be your highest priority
- In the event you should notice smoke, strange noises or odor from this product, or any other abnormal signs, immediately turn off the power and consult your dealer or the nearest authorized **BOSS AUDIO** Service Center. Using this product in this condition may result in permanent damage to the system.
- Set your volume control at a low setting, then slowly increase the sound until you can hear it comfortably without distortion, or ear discomfort.
- **BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:**
 - Do not turn up the volume so high that you can't hear what's around you.
 - Use caution or temporarily discontinue use in potentially hazardous situations.

CAUTION!! Always consult a professional installer

WARNING - Always consult a professional installer

■ Do not attempt to install or service this product by yourself. Installation or servicing of this product by persons without professional training and experience in electronic equipment and motorized vehicle accessories may be dangerous and could expose you to the risk of electric shock, injury or other hazards

■ Refer any repairs to a qualified **BOSS AUDIO SYSTEMS** Service Center

■ The **BM40AMPBT** can be powered from a vehicles cigarette lighter / auxiliary power port, or hard wired directly to the battery through an optional relay / accessory switch

■ When wiring directly to the vehicles battery, be sure to disconnect the battery negative terminal wire before starting any wiring procedures. It is suggested that an optional fuse and fuse holder (not included) with minimum rating of **20 Amps** be in line with the positive battery terminal

■ The ground cable length should not exceed 18 inches (See wiring diagram)

■ The **BM40AMPBT** has a weather resistant design, it should not be submerged in or under water under any circumstances

■ Use only the installation parts provided with the **BM40AMPBT**

CAUTION!! Using other mounting methods may void this warranty

Diagram showing the wire diagram for the BM40AMPBT. The diagram includes the 12V WIRE HARNESS CONNECTION, the MFC, the SPEAKERS, and the AMPLIFIER. The diagram shows the connection of the power, ground, and signal wires.

CAUTION!! Make sure your device Bluetooth volume is set at 75% level before stowing in to the carry pouch

CAUTION!! Make sure your device Bluetooth volume is set at 75% level before stowing in to the carry pouch

SPECIFICATIONS

BLUETOOTH

- Version: 4.0 w/ EDR
- A2DP
- Range: 33ft (10m)

SPEAKERS

- Impedance: 4Ω
- Magnet: Ferrite
- Core Type: Internal Polypropylene Core with Butyl Rubber Surround
- Tweeter Size: 1" PEI DOME

AMPLIFIER

- Maximum Output Power: 500 Watts
- Input Impedance: 15KΩ
- Frequency Response: 45Hz-20KHz

GENERAL

- Operational Power: 12VDC (15-18V allowable)
- MAX Current Draw: 7.5 A
- Replacement Fuse: 15A-AGC TYPE
- Color: Black
- Weight: 5.5lbs / 2.5kg
- Dimensions on WtHxD: 13.83 x 18.2 x 18.86
- Dimensions Inches WtHxD: 5.44 x 7.17 x 7.43

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE
