Han Dynasty Jade Symbol

1200-0862

In Stock | Sale

Overall: 13.75"h x 6.75"w x 3.75"d

Finish: Bronze / Black

Materials: Jade / Metal

Item Weight: 4 lbs.

The Han Dynasty Jade Symbol, which is made of a bronze-colored stoneware, emulates a famed jade carving and sits atop a metal stand in a black finish. The profile is called a "Bi" because the hole in the center represents the sky and the heavens beyond it. The name of this rich brown sculpture reflects that it is made in a Han Dynasty style, and it is carved on the front and the back.
