Front Control Freestanding Range Island Trim

Fill the gap between the rear of your Frigidaire Freestanding Front Control Range and the countertop to create a more professional finish using the Frigidaire Range Island Trim. Featuring a smooth stainless steel finish, this well-constructed trim can be easily installed using included screws. For use with select Frigidaire Freestanding Front Control Ranges.

Available Colors: Stainless Steel

Version: 04/23

Consumer Benefits

Create a built-in look for your range with our Island Trim

The Island Trim fills the rear gap between your range and the countertop to create a more seamless look.

No additional hardware required for installation

Installation is simple with 3 screws, included with the range.

The island trim kit can be installed by itself. Installing the island trim kit is also required in order to install the 3-piece side trim kit.

Durable stainless steel finish

Durable stainless steel construction enhances the look of your range and holds up to normal day to day use.

Fits Select Models

For use with select Front Control Freestanding Ranges.
