BUTTON DINING TABLE

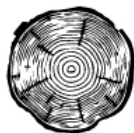

Great furniture design doesn't have to fit into a handful of predetermined style categories. In fact, our favorite approach is to let inspiration from unexpected sources guide us to new ideas. The solid New Zealand pine Button table is a classic example. In this case, the beauty is in the details. Rather than using typical wood dimensions, much of the final look can be traced back to the heavier thickness on the top and the legs. This sturdy look is in keeping with the Plank Road personality while maintaining clean lines. The Button round dining table comes with a 20 inch leaf to create an oval dining table. It also features our Kinguard Performance finish which adds a little extra protection should a spill happen.

- Adjustable levelers
- New Zealand Pine

Kinguard
Performance Finish
- Featuring
exclusive Kinguard
Performance Finish
for added
protection against
watermarks and
spills
