Category: Casual Dining

Collection: Lawson's Creek

Number of Leaves: 1

Style: Transitional

Finish: Medium Wood

Brand: SLF

Product Description: The Lawson's Creek Trestle Table is a beautiful, versatile piece that blends farmhouse charm with timeless elegance. An 18-inch leaf that allows you to extend the table and create a larger dining surface when needed for practical everyday use and special occasions. Heavy pilasters offer a striking and sturdy foundation, adding an architectural element and visual interest to the design. The rubberwood solids provide durability and stability, while split heart oak veneers with a weathered oak finish enhance the overall aesthetic. This piece combines transitional and farmhouse styles, providing a timeless appeal to your dining area.

Collection Features: Farmhouse style and elements of transitional design effortlessly combine to create a welcoming atmosphere with the Lawson's Creek dining room collection. The weathered oak finish and aged pewter accents add timeless charm and warmth to the overall look. Heavy crown molding creates depth and shadow, enhancing the overall appearance of this group.

Status: Active

Finish: A weathered oak finish gives a muted, worn look, capturing the essence of time

Features: Transitional farmhouse style combines warmth and simplicity with a timeless appeal

This 78" table includes an 18" leaf for accommodating additional guests during gatherings

Heavy pilasters showcase an ornate design, while the trestle base provides a reliable foundation

Traditional detailing exude a sense of elegance and refinement

Material: Oak Wood Veneers

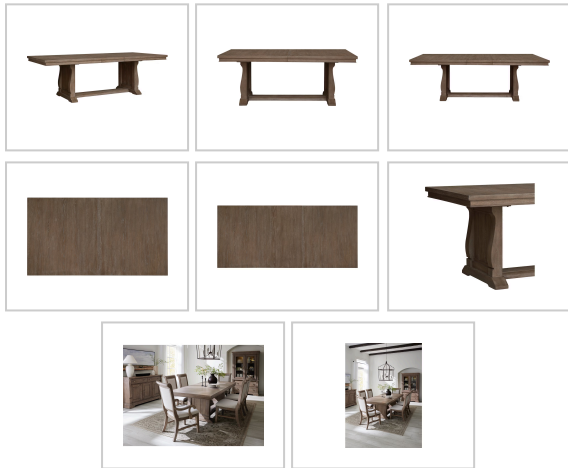

Frame Construction: Samuel Lawrence Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
