Esther Dining Table Brown

A slab-style trestle base with architectural nerve, stretched to dining length. Solid oak legs give the Esther dining table a substantial, grounded presence that turns a long table into the room's anchor. A subtle bevelled edge slims the thick oak top for visual lightness, while the stretcher between the two base panels adds structural craftsmanship you can see. Warm mid-tone brown runs consistent top to base, open grain and all — a table made for the long sit.

- Grounded Silhouette: The slab-style trestle base gives this dining table a bold, architectural footprint that anchors the room with substantial, considered weight.
- Open-Grain Oak: Solid oak legs and a thick oak top wear a warm mid-tone brown finish, open grain coming through evenly from surface to base.
- Tied Together: A stretcher spanning the two base panels locks the form into one stable structure, adding the steadiness and craftsmanship long dining tables rely on.
- Lightened Edge: A subtle bevel runs the perimeter of the top, slimming its visual weight so a generous dining table still feels easy in the room.
