The Verona Black Large Desk is made of mahogany that has been covered in a black lacquered linen. It has a touch of gold on the champagne-finished metal detailing. This is one of our pieces that proves the brilliance of our design team, as the stretchers that clasp each leg are beautifully rendered to create a continuous design detail from leg to leg. Other features are adjustable glides and solid mahogany dovetail drawers. There are a number of pieces in several finishes in the Verona family of furnishings.
