Esther Coffee Table Brown

Slab panels and a stretcher — architecture, scaled for the sofa. Solid oak legs lend the Esther coffee table a substantial, grounded presence that anchors the center of a seating area. A subtle bevelled edge slims the thick oak top for visual lightness, and the stretcher between the two base panels adds structural craftsmanship you can see. Warm mid-tone brown runs consistent top to base, open grain and all — a piece that earns its footing.

- Grounded Silhouette: The slab-style trestle base gives this coffee table a bold, architectural footprint that anchors a seating area with substantial, considered weight.
- Open-Grain Oak: Solid oak legs and a thick oak top wear a warm mid-tone brown finish, open grain coming through evenly from surface to base.
- Tied Together: A stretcher spanning the two base panels locks the form into one stable structure, adding the steadiness and craftsmanship that long-lasting tables rely on.
- Lightened Edge: A subtle bevel runs the perimeter of the top, slimming its visual weight so a substantial table still feels easy in the room.
