Top Materials: Maple, Walnut, Cloudburst Quartz, Acid-Etched White Backpaint Glass • Approx. Shi...
Made in America

The Oslo Collection is a recent introduction and continues our design focus on super-clean lines with a keen attention to the way materials work together. The bases are made with 3-inch wide solid steel flat bar creating a look that is simultaneously powerful yet elegant. The collection is available with a variety of tops. We offer two wood species — maple and walnut, as well as a white quartz top or a white back-painted, acid-etched glass. The steel is available in a wide range of powder coat paint finishes and the maple is also available in a wide range of finishes. Walnut is available with a clear coat only.
