## Alden Coffee Table Cool Brown

This one's got a leg up on tradition. Alden starts with a timeless shape and carves in a twist: sculptural leg cutouts that lighten the base and sharpen the silhouette. Crafted from solid oak with a wire-brushed, cool-toned finish, its round top feels grounded and generous, while the open base keeps it lifted. With its quiet curves and clever legwork, Alden keeps tradition on its toes.

- **Cut It Out:** The rectilinear legs feature an eye-catching cutout detail that adds visual lightness and a sense of lift, counterbalancing the table's grounded base.
- **Brushed Up:** The wire-brushed, cool-tone brown finish enhances the oak's natural texture, creating a versatile backdrop for various decor styles.
