Signature Features

SLEEK, BUILT-IN LOOK

- Stylish, counter-depth design allows for more work space in the kitchen.
- Sleek, built-in look enhances overall kitchen design.

REFRESHING SPARKLING WATER ANYTIME

- Features convenience of built-in, chilled sparkling or still water dispenser powered by **sodastream**.
- Save money and space, and create less waste than when buying bottled sparkling water.
- SodaStream 60L CO₂ carbonators are available for easy exchange at 10,000 locations.

TWIN COOLING PLUS®

- Keeps food fresher longer – Twin Cooling Plus humidity levels up to 3.6x higher than single cooling.
- Refrigerator air is kept at higher, near commercial grade humidity levels to keep perishable fruits and vegetables fresher longer.
- Drier freezer air means less freezer burn for better-tasting frozen foods.

SAMSUNG

22.6 cu. ft. Counter-Depth French Door Refrigerator with Sparkling Water Dispenser

1. Measure the height, width and depth of the opening, making sure to include baseboards, molding tile, countertop overhang, etc. Check to be sure there is enough room to open the door (consider walls, islands or other obstacles when measuring).
2. Refer to illustration below to determine dimensions.
3. Allow 2" of clearance on hinge side of refrigerator when installing next to a wall where handle may make contact.
4. Allow 1" minimum clearance at rear for proper air circulation and water/electrical connections. Allow a 3/8" minimum clearance at sides and top for ease of installation.
5. Ensure each door and entry way in the home is wide enough for the refrigerator to be moved through easily.

Measure height including flooring. Be sure to allow for hinge clearance height if needed.

Measure width including countertop overhang.

Measure depth including molding or trim.
