

How to Replace a Gas Cooktop on ILVE Majestic Range

Replacing the Cooktop:

Whether you're replacing a damaged cooktop or upgrading the surface, changing the gas cooktop on an ILVE Majestic range can be done with just a few tools and careful attention to assembly. This guide walks you through each step to safely and correctly complete the process.

Ideal for service technicians, home renovators, or ILVE owners performing repairs, this tutorial ensures your gas cooktop is securely reinstalled and ready for use.

Tools Required:

- Phillips screwdriver
- T10 Torx screwdriver
- Replacement gas cooktop frame
- Sponge gasket (included with replacement frame)
- Clean and stable work surface

How to Replace a Gas Cooktop on ILVE Majestic Range

Step 1: Remove the Grates and Burners
Lift off all burner grates and caps from the range.

Step 2: Unscrew the Drip Tray
Use a Phillips and T10 Torx screwdriver to remove the screws securing the drip tray.

Step 3: Unscrew the Cooktop Frame
Locate and unscrew the fasteners holding the frame in place.

Step 4: Remove the Old Frame
Lift the cooktop frame from the rear and slide it out of the housing.

Step 5: Install the New Frame
Align the replacement cooktop frame into the designated slot and lower it into position.

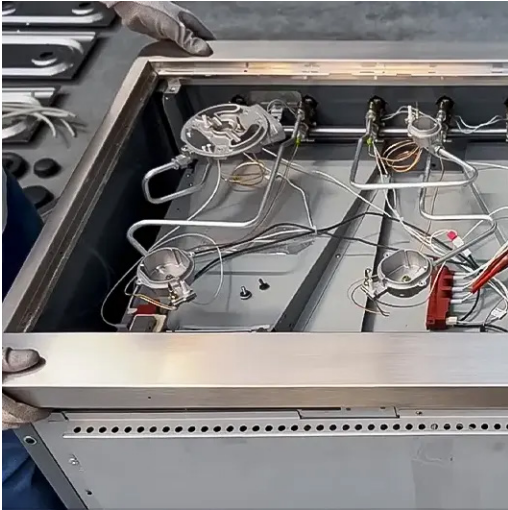

Step 6: Secure the Frame
Reinsert and tighten all frame screws to hold it securely.

Step 7: Place the Sponge Gasket
Fit the sponge gasket around the perimeter of the cooktop as needed for sealing.

Step 8: Reinstall the Drip Tray
Reattach the drip tray using the T10 Torx and Phillips screwdrivers.

Step 9: Replace the Burners and Grates

Place the burner grates back onto the cooktop in their correct locations.

Final Recommendations

- Refer to the full ILVE Installation Manual for clearance requirements and connection guidelines.
- Always hire a licensed professional for gas and electrical installations.
- Register your ILVE Range online to activate your warranty and receive product support.
