

**24 INCH FREESTANDING ELECTRIC RANGE****BERC24102SS / BERU24102SS****True European Convection**

Blomberg's advanced convection system features an additional dedicated heating element around the cooking fan to circulate warm air evenly, creating a three-dimensional cooking effect that works consistently on every rack. Roasts and casseroles cook faster and more uniformly. Baked goods are evenly browned and beautiful. Multiple dishes cook to perfection at the same time with no mixing of flavors or aromas.

Large Oven Capacity

Blomberg knows you can never have too much room in your oven, even if there's not a lot of room in your kitchen. That's why we engineered a generous 2.51 cu. ft. oven capacity into our 24-inch range.

Programmable Electronic Timer

Blomberg ovens feature electronic timers that show the time of day and allow you to preset the start time, duration, or end of cooking. When the set cooking time ends, the oven switches itself off automatically.

Easy Clean Gray Enamel

Blomberg 24-inch oven cavities are coated with a long-lasting, nonporous, gray enamel finish that is not only attractive but also extremely easy to clean. Just a simple wipe with a damp cloth is all it takes to remove fresh spills and keep your oven looking like new.

Interior Lighting

For full visibility while baking, braising, and roasting, Blomberg ovens feature bright interior lighting, including cylindrical lamps placed on the rear wall, and a non-reflective enamel surface that reduces glare on the glass oven door.

**GENERAL**

Type	Freestanding
Size	24"
Finish	Stainless Steel
Side Walls	Black
Control Type	LED Display with Knob & Touch Control
Burner Color	Black
Knob Color	Stainless Steel
Fuel Type	Electric

FUNCTIONS

True European Convection	Yes
Bake	Yes
