

Albert Console Table

F227

Availability: In Stock

DESCRIPTION

Just as the early masters of modernism weren't afraid to experiment with forms, we're showing our adventurous spirit by producing our Albert console table. Made of irregular strips of wood cunningly arranged on a wood frame, we've taken its unpredictability a step further by treating the surface to a distressed gray finish. This added patina gives it a painterly appeal that will make it a dynamic choice for any wall that holds a bold piece of modern art. Place it below the masterpiece and watch it hold its own!
