

KINCAID

HAMILTON CHEST

ITEM # 75-105

The vertical chest has been a staple in bedroom collections for its ability to store a lot without taking up too much space. At Kincaid we believe that every bit of that storage space should be maximized which is why our solid wood chests don't take any shortcuts. In the case of the Hamilton, that means a 56 inch tall chest with full depth drawers to make the most of the space. We also add removable dividers in the second and third drawers from the top to help keep things organized.

- Six drawers
- second and third drawers from top have removeable dividers
- adjustable levelers
- New Zealand Pine

Solid Wood - Made using genuine solid wood construction
