

## PRODUCT HIGHLIGHTS

- Wireless connectivity using Bluetooth® 3.0
- Vacuum-tube and digital amp technology
- 100 watts
- 20W x 2 + 60 watt woofer
- iPod®/iPhone®/iPad®/Galaxy docking

**Experience the warmth of vacuum-tube and digital amp technology for an immersive listening experience.**

The warmest, clearest audio breathes new life into your music with the Samsung DA-E751 Wireless Audio System with Dual Docking Capability. Vacuum-tube and digital amp technology combines the best of both, creating an unparalleled experience for your ears. A full 100 watts of power ensure plenty of deep bass and crystalline highs. Also, you have the freedom to stream your favorite music from any enabled smartphone, computer, tablet and MP3 player using AllShare™ or Bluetooth® 3.0. Activate the Soundshare Mode and wirelessly connect to select Samsung TVs and hear your programs in rich powerful sound. The woven glass fiber speakers combined with the down-firing woofer bring improved depth and clarity to your music. And compatibility with iPhone®, iPod®, iPad® and Galaxy S2 and newer devices means your listening choices are virtually limitless.

## DA-E751 Audio Dock

### FEATURES

**Vacuum-tube and digital amp technology:** Brings music to life with sounds of deeper bass and richer vocals. Samsung now brings the latest technology with the precision of digital reproduction and the natural warmth of analog tubes.

**Dual docking system:** Dual docking provides maximum usability with your devices - docks Galaxy SII smartphone, iPhone, iPad and most iPods.

**Woven glass fiber speakers:** The heat resistant and anti-vibration capabilities provide greater clarity with minimal distortion at higher volumes.

**Down-firing woofer:** For a richer and increased bass sound, the built-in woofer will fulfill almost any of your audio needs. The woofer has been cleverly integrated underneath the cabinet to deliver a deep, rich sound without the bulky size or need to purchase additional components.

**Bluetooth® 3.0 with aptX technology:** Connect wirelessly using Bluetooth 3.0 +HS which supports High Speed data transfer up to 24mbps. Adding aptX audio coding provides lossless sound quality as if you were "directly wired" to the system.

**AirPlay® and AllShare™:** Now you can enjoy the freedom of enhanced connectivity with Airplay® and AllShare™ on your audio dock. For the first time, the Samsung Audio Wireless Audio System with Dual Dock allows you to wirelessly stream music from both Apple and Samsung mobile devices. That means you can enjoy the freedom listening to your favorite music while moving around in your home.

**USB Direct Play**

**Hidden docking system**

**Black wood finish**
