DARBY DISPLAY CABINET - COMPLETE

Few dining room or living room furniture pieces have the personality and character found in the Darby Display Cabinet. Maybe that is why it is so difficult to find unique, well-made vertical pieces. Rather than build the expected china cabinet for this collection, we chose instead to make a vertical piece that would not only display its contents well, but also itself be a beautiful part of the display. The Darby Cabinet features seeded glass for a vintage/antique look, interior lighting above framed glass shelves, and sliding doors to access it all.
