BROWN JORDAN™

Strong, structured, and seamless, the Oliver Bar Stool takes the collection's design motifs to bold new heights - 44 inches to be exact - while keeping every detail in perfect proportion. (It is also available in counter height.)

A low-profile, angular aluminum frame fabricated from extruded, custom cast, and solid metal elements cradles the Bar Stool's bucket seat, suspending it as if in mid-air. In addition to highlighting Brown Jordan's unrivaled expertise in metal craftsmanship, the design showcases our innovative use of woven rope. This durable, heritage material - a modern updated look to wicker - is handwoven onto the actual frames by skilled artisans in Indonesia. Completing the look, impeccably tailored cushions hug the curves of the rope seat and

cosset the body in luxury. <br><br>Oliver comprises 10 cushioned pieces that can be floated confidently and effortlessly in any setting.
