

MODENA island

Modena island's low-profile, stainless steel and airy glass canopy resembles a floating island over your cooktop or range. A perfect blend of architecture and performance, Modena island is sure to add the muscle your kitchen requires without the cluttered sight lines typical with more cumbersome range hood models. Equipped with DCBL Suppression System® technology, Modena island performs whisper-quiet air removal, while flaunting its technologically-advanced Bloom™ HD LED light bulbs and electronic LCD controls that rest subtly on its one-inch canopy.
