

# Introducing the **NEW EGGniter™** Blown Air Charcoal Lighter

The EGGniter ignites lump charcoal or hardwood in just minutes without striking a match ... by using only super-heated air!

- Quick, easy, convenient
- Custom design with heavy-duty aluminum heat shield
- 120V/1500W with three power settings (Off/Fan/Hot)
- Superior Performance – Patent Pending
- Switch automatically resets to OFF
- 6 foot (1.8 m) power cord
- 90 day warranty

## Easy Lighting!

- Simply hold the tip of the EGGniter on the Natural Lump Charcoal. Move the EGGniter slightly backwards when coals glow or sparks appear – usually in about 60 seconds – then hold for approximately 60 seconds to ignite the charcoal.
- Switch to the FAN mode to continue fanning the charcoal.
