Product Description: The Banyon Bay Rectangle Cocktail Table offers a stylish focal point for your living room. Crafted from white oak solids and oak veneers, it features a light Desert Oak finish, enhanced by a multi-step process with wire-brushing and cerusing for added texture. The brushed brass metal supports create a modern contrast to the wood's warmth, while the rectangle shape with rounded corners adds a soft, welcoming touch. This table offers an open area for additional décor or storage, and its plinth base provides sturdy support. With its contemporary aesthetic, this cocktail table is perfect for casual settings with a hint of sophistication.

Collection Features: Developed with an eclectic mindset, Banyon Bay is youthful and cool, combining precise geometry and gentle contours with natural textures and materials. Delivering smooth contemporary lines, this modern collection is a perfect fit for a casual lifestyle, moving effortlessly between urban, coastal, and mountain settings. Modestly scaled, this collection features white oak veneers and solids in a light Desert Oak finish, accented with an authentic mix of organic materials, creating a cohesive, casual look.

Finish: The multi-step Desert Oak finish features wire-brushing and cerusing. Stainless steel legs feature a soft Brushed Brass finish.
Features: Rectangle shape Rounded corners Soft Brushed Brass metal supports Open area for additional décor or storage Plinth base

Material: White Oak Solids, Oak Veneers and Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
