Materials: Marble / Metal

Item Weight: 375 lbs.

Madame's Cocktail Dress is a limited-edition sculpture with a nod to couture. The carved marble creation was inspired by one of the most famous gowns of a leading French courtier and costume designer. The flowing lines that intersect with the veining in the marble infuse the piece with a marvelous textural quality and a sense of movement. The showtopping blue sculptures, which are mounted on black bases, will have variations on their surfaces due to the natural veining of marble.
