SONY

SRS-XB32/B
XB32 EXTRA BASS™ Portable BLUETOOTH® Speaker

Level-up your party with the waterproof, dustproof, shockproof XB32 with EXTRA BASS™[1]. LIVE SOUND mode, Party Booster, and multi-color lights with strobe make any occasion feel like a music festival. Keep the tunes going for up to 24 hours on a single charge[3], and connect up to 100 speakers with Wireless Party Chain.

Features

Boost your party anthems with EXTRA BASS™ and Live Sound Mode

Enhance every beat and give your party that extra boost thanks to EXTRA BASS™ and LIVE SOUND. The speakers of the XB32 are carefully designed to give you a real three-dimensional listening experience. Angled speakers with new DSP technology send your music to a wider area, creating a festival vibe, wherever you are.

Waterproof Design

With an IP67 rating, your speaker can withstand being in and around water[1].

Dustproof Design

With an IP67 rating, you can take your speaker to the trail, the forest, the city, or wherever you like - the XB32 will keep on playing, no matter how dusty the surface. [1]

Shockproof, built to last

The SRS-XB32 has undergone extensive shock testing to make sure it can withstand the inevitable knocks, bumps and scrapes that come with everyday use. Even if you drop it, the SRS-XB32 will keep on working.[1]

Light up the party

There's no fun without party lights. The SRS-XB32 has multi-colored flashing lights that sync to the beat and a flashing strobe. You can change the color of the line light that goes around the speaker to suit your mood.

Lasts all day long

Up to a 24-hour battery life[3] means the SRS-XB32 can party even longer than you can.

USB charging port

Smartphone running low on power? Plug into the USB port on the rear of the SRS-XB32 to charge up the battery.

Get things booming with Wireless Party Chain

Enjoy the same song, multiplied, with Wireless Party Chain. Connect up to 100 wireless speakers[2] with BLUETOOTH® technology[4] and the music and lights sync-up so everyone dances to the same beat. Set a random pattern or set the lights to blink in a circle.

Control the party with the Sony | Music Center app

Control the party from the dancefloor, with the Sony | Music Center app[5] - select your favorite playlists, cue the next song, change lighting patterns and sound modes.

Fiestable app

Download the Fiestable app[6] and you'll be able to control the lighting on the SRS-XB32, and also you can use motion control gestures on your smartphone screen.

Wireless with BLUETOOTH® technology and NFC™

Near Field Communication (NFC) and Bluetooth® technology[4] remove the need for wired connections and complex set-up sequences. Simply touch your NFC-enabled device to the speaker for a quick, seamless connection, then start streaming your music collection. No NFC? No problem. Connect via Bluetooth and you're ready to go.

Stand it on its side

Wherever and however you want to place the SRS-XB32 - horizontal or vertical - it will sit securely, making it perfect for small spaces.

Give your party an extra boost with Party Booster

When activated, you can simply tap your speaker in different places to make different sounds - like a scratch, snare, kick drum and cowbell. Control the volume with force, tap gently for a soft sound or give it a good hit for a loud output.

Dual 48mm speaker unit

SONY

A 48mm speaker means powerful sound and bass.

Mica Reinforced Cellular speaker cone

The rigid and lightweight Mica Reinforced Cellular (MRC) speaker cone contributes to the sound quality.
