#### **FCC Compliance Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference and
- (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC RF Radiation Exposure Statement :** This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with minimum distance 20 cm (7.8 inches) between the antenna and your body. Users must follow the specific operating instructions for satisfying RF exposure compliance.

#### **Precautions on handling a battery**

- This unit has a built-in valve regulated lead-acid rechargeable battery. (12 V/7.0 Ah)
- Do not use the battery in a closed room or near fire.
- Charge the battery under the charging condition specified.
- If any corrosion of the terminals, leakage or deformation of the case of the battery is found, do not use the battery.
- If the battery leaks, while protecting your hands or clothing, remove the battery from the device and should be extremely careful not to infect the skin or eyes.
- If the battery leaks and the liquid inside spills on the skin or clothing, immediately wash it off with plenty of clean water. If the liquid splashes into eyes, immediately flush the eyes with plenty of clean water and consult a doctor.
- Avoid mixed usage of batteries differing in type, manufacturer or history of use.
- Do not throw the battery in fire nor heat the battery.
- Do not short of battery terminals.
- Do not attempt to disassemble, remodel or destroy the battery.
- Do not place the battery near a child.
- The battery can be replaced. If you need to charge your battery more and more frequently, it might be time to replace it. The battery should be serviced by LG Electronics customer care center.
- Charge fully before storing a battery which has not been in use for a long period and turn ON/OFF switch off (OFF). Store the battery in a cool, dry place.
- During storage of the battery, charge it at least once every three months. If the battery is stored for a long period without being charged, its battery life may be shortened.
- The used battery must be recycled or disposed of separately from household waste.

## Top Panel

**1 MIC VOL. ▼**  
Adjusts microphone volume level.

**2** Port cover

### Note

When you don't use the unit, close the port cover securely.

**3 MIC IN.**  
Connects a microphone.
