Godet White Vase

1200-0934

New

Overall: 14"h x 14.25"w x 11"d

Finish: White

Materials: Porcelain

Item Weight: 9 lbs.

The Godet White Vase is a technological feat. The deep furrows that wrinkle around the form to create waves of movement are achieved with such a uniformity they can only be machine-made. The most surprising thing about this handsome vessel is that it is made of 3D-printed porcelain, an ancient material you might not expect to be so amenable to such a modern process.
