

Satin Black Oak finish on select hardwoods and veneers.

This bar cabinet features doors with linear grooved glass panels and elongated antique brass door pulls. A simple plinth base completes the design ensemble.

Doors hinges allow the doors to open wide for easy access to storage.

A glass mirrored back is provided in the upper cabinet.

Upper wooden stemware racks hold 12 large wine glasses.

An upper fixed shelf may hold glasses and tumblers.

Auto-On light switch turns the light on automatically when the left cabinet door is opened and off when it is closed.

Two wooden drawers with smooth-running metal slides provide storage for utensils.

A wooden lift-up shelf is located inside each of the two drawers for additional work surface area for mixing or prep.

Six wooden reversible/removable wine bottle shelves are provided below the drawers for additional storage. Each shelf can hold up to five bottles.

The shelves can be reversed and used for alternate storage.

Adjustable floor levelers under all corners.
