OPERATION MANUAL

IMPORTANT:
To aid reporting in case of loss or theft, please record the
TV's model and serial numbers in the space provided. The
numbers are located at the rear and right side of the TV.

Model No.:

Serial No.:

IMPORTANT INFORMATION

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO
NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK,
DO NOT REMOVE COVER (OR BACK).
NO USER-SERVICEABLE PARTS INSIDE.
REFER SERVICING TO QUALIFIED SERVICE
PERSONNEL.

The lightning flash with arrow-head
symbol, within an equilateral triangle,
is intended to alert the user to the
presence of uninsulated "dangerous
voltage" within the product's
enclosure that may be of sufficient
magnitude to constitute a risk of
electric shock to persons.

The exclamation point within a
triangle is intended to alert the user
to the presence of important
operating and maintenance
(servicing) instructions in the
literature accompanying the product.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE
SLOT, FULLY INSERT.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly
approved by the manufacturer could void the user's authority to operate this equipment.

IMPORTANT INFORMATION

CAUTION:

This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

DECLARATION OF CONFORMITY:

SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-70C8470U/LC-60C8470U/LC-70C7450U/LC-60C7450U
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RESPONSIBLE PARTY:
      SHARP ELECTRONICS CORPORATION
      Sharp Plaza, Mahwah, New Jersey 07495-1163
      TEL: 1-800-BE-SHARP
For Business Customers: URL http://www.sharpusa.com

INFORMATION:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Wireless Radio

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible. This device is going to be operated in 5.15–5.25GHz frequency range, it is restricted in indoor environment only.
Important: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Wireless Radio

For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible. The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.
Important: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
IC Radiation Exposure Statement: This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

"Note to CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

This product qualifies for ENERGY STAR when "Home" is selected for "TV Location".
Setting "TV Location" to "Home" allows the TV to achieve an energy-saving status for household use.

DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

IMPORTANT SAFETY INSTRUCTIONS

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
    a) When the AC cord or plug is damaged,
    b) If liquid has been spilled, or objects have fallen into the product,
    c) If the product has been exposed to rain or water,
    d) If the product does not operate normally by following the operating instructions.
       Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
    e) If the product has been dropped or damaged in any way, and
    f) When the product exhibits a distinct change in performance - this indicates a need for service.
19) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
20) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
21) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.

IMPORTANT SAFETY INSTRUCTIONS

- Outdoor Antenna Grounding — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges.
Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

NEC — NATIONAL ELECTRICAL CODE

- Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.
- Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.
- Selecting the location — Select a place with no direct sunlight and good ventilation.
- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.
- The front panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.
- Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
- The Liquid Crystal panel is a very high technology product with 2,073,600 pixels, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green, red or yellow (LC-70C8470U/LC-60C8470U); blue, green or red (LC-70C7450U/LC-60C7450U). Please note that this does not affect the performance of your product.
- Lightning — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.
- Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
- To prevent fire, never place any type of candle or flames on the top or near the TV set.
- To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.
- Do not display a still picture for a long time, as this could cause an afterimage to remain.
- To prevent fire or shock hazard, do not expose this product to dripping or splashing.
No objects filled with liquids, such as vases, should be placed on the product.
- Do not insert foreign objects into the product. Inserting objects in the air vents or other openings may result in fire or electric shock. Exercise special caution when using the product around children.
Precautions when transporting the TV
- When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.

Caring for the cabinet
- Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the cabinet.
- Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause cracking.
- Wiping with a hard cloth or using strong force may scratch the surface of the cabinet.
- If the cabinet is very dirty, wipe with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wrung out, and then wipe with a soft dry cloth.
- Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
- Do not apply insecticides or other volatile liquids.
Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plasticizers inside the plastic may cause the cabinet to deform and cause the paint to peel off.

IMPORTANT SAFETY INSTRUCTIONS

Caring for the front panel
- Turn off the main power and unplug the AC cord from the wall outlet before handling.
- Gently wipe the surface of the front panel with a soft cloth (cotton, flannel, etc.).
  To protect the front panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the surface of the front panel.
- Wiping with a hard cloth or using strong force may scratch the surface of the front panel.
- Use a soft damp cloth to gently wipe the front panel when it is really dirty.
  (It may scratch the surface of the front panel when wiped strongly.)
- If the front panel is dusty, use an anti-static brush, which is commercially available, to clean it.
- To avoid scratching the frame or screen, please use a soft, lint free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (00Z-LCD-CLOTH) or triple (00Z-LCD-CLOTH-3) packs. Call 1-800-BE-SHARP for ordering, or VISIT http://www.sharpusa.com/SharpDirect.
CHILD SAFETY:
It Makes A Difference How and Where You Use Your Flat Panel Display

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

THE ISSUE
- The home theater entertainment experience is a growing trend and larger flat panel displays are popular purchases. However, flat panel displays are not always supported on the proper stands or installed according to the manufacturer's recommendations.
- Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts may fall over and cause injury.

THIS MANUFACTURER CARES!
- The consumer electronics industry is committed to making home entertainment enjoyable and safe.

TUNE INTO SAFETY
- One size does NOT fit all. Follow the manufacturer's recommendations for the safe installation and use of your flat panel display.
- Carefully read and understand all enclosed instructions for proper use of this product.
- Don't allow children to climb on or play with furniture and television sets.
- Don't place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.
- Remember that children can become excited while watching a program, especially on a "larger than life" flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or knocked down.
- Care should be taken to route all cords and cables connected to the flat panel display so that they cannot be pulled or grabbed by curious children.

WALL MOUNTING: IF YOU DECIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:
- Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).
- Follow all instructions supplied by the display and wall mount manufacturers.
- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about professional installation.
- Make sure that the wall where you are mounting the display is appropriate. Some wall mounts are not designed to be mounted to walls with steel studs or old cinder block construction. If you are unsure, contact a professional installer.
- A minimum of two people are required for installation. Flat panel displays can be heavy.

CEA
Consumer Electronics Association

Note: CEA is the preeminent trade association promoting growth in the $161 billion U.S. consumer electronics industry. More than 2,200 companies enjoy the benefits of CEA membership, including legislative advocacy, market research, technical training and education, industry promotion and the fostering of business and strategic relationships.

IMPORTANT SAFETY INSTRUCTIONS

3D Glasses

Prevention of accidental ingestion
- Keep the accessory out of the reach of small children. Small children can accidentally swallow these parts.
  – If a child accidentally swallows any of these parts, seek immediate medical attention.

Do not disassemble
- Do not disassemble or modify the 3D Glasses except when recycling the batteries. Do not modify the 3D Glasses.

Caution for lithium ion polymer rechargeable battery
- Do not expose the 3D Glasses to excessive heat, such as direct sunlight, fire or in an area with high humidity.

Handling the 3D Glasses
- Do not drop, exert pressure on, or step on the 3D Glasses. Doing so may damage the glass section, which may result in the risk of injury.
- Be careful not to trap your finger in the hinge section of the 3D Glasses. Doing so may result in injury.
  – Pay special attention when children are using this product.

Using the 3D Glasses
- Use of the 3D Glasses should be limited to a maximum of 3 hours, and in any case no more than one movie.
- Use only the 3D Glasses recommended for this TV.
- Use the 3D Glasses only for the specified purpose.
- Do not move around while wearing the 3D Glasses. The surrounding area may appear dark, which may result in falling or other accidents that may cause injury.

Caring for the 3D Glasses (for LC-70C8470U/LC-60C8470U)
- Use only the cloth provided with the 3D Glasses to clean the lenses. Remove dust and soil from the cloth. Any dust or other soiling on the cloth may result in scratches. Do not use solvents such as benzene or thinners as doing so may damage the coating.
- When cleaning the 3D Glasses, take care not to allow water or other fluids to come into contact with the glasses.
- Always store the 3D Glasses in the case provided when not in use.
- When storing the 3D Glasses, avoid very humid or hot locations.

Viewing 3D images
- If you experience dizziness, nausea, or other discomfort while viewing 3D images, discontinue use and rest your eyes.
- Do not use the 3D Glasses if they are cracked or broken.

Caution regarding rechargeable battery
- Use the supplied USB cable to connect to a USB terminal of a 3D compatible SHARP TV when recharging. Recharging using other devices may lead to battery damage.

Caution regarding the power supply
- Use the USB cable to connect to a USB terminal of a 3D compatible SHARP TV for supplying power. Supplying power using other devices may lead to heat generation or battery damage.
- During a thunderstorm, to avoid getting an electric shock, do not use the 3D Glasses that are power-supplied via USB, and do unplug the USB cable from both the USB terminal on the TV and the USB terminal on the 3D Glasses.
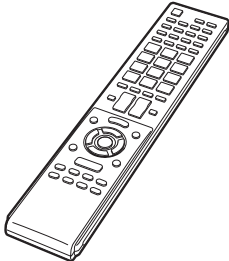

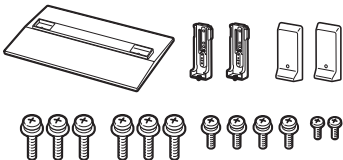

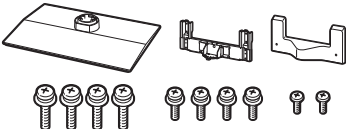

Contents

• The illustrations and on-screen displays in this operation manual are for explanation purposes and may vary slightly from
  the actual operations.
• The examples used throughout this manual are based on the LC-70C7450U model.

QUICK REFERENCE

Attaching the Stand

- Before attaching (or detaching) the stand, unplug the AC cord.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

CAUTION

- **Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.**
■ LC-70C8470U/LC-70C7450U

1 Confirm that there are 12 screws (6 long screws, 4 middle screws and 2 short screws) supplied with the stand unit.

2 ① Set the post for the stand unit onto the polystyrene foam.
 ② Attach the base to the post.
 ③ Insert and tighten the 6 screws into the 6 holes on the bottom of the base.
 - Hold the stand unit securely with one hand, and then tighten the screws.
3 Insert the stand into the openings on the rear of the TV.
 - Make sure that the stand is firmly inserted into the TV. Improper installation may result in tilting of the TV set.
4 Insert and tighten the 4 screws into the 4 holes on the rear of the stand unit.

5 ① Insert the stand cover.
 ② Insert the 2 screws to secure the stand cover.
■ LC-60C8470U/LC-60C7450U

1 Confirm that there are 10 screws (4 long screws, 4 middle screws and 2 short screws) supplied with the stand unit.

2 ① Attach the supporting post for the stand unit onto the base.
 ② Insert and tighten the 4 screws into the 4 holes on the top of the supporting post.
 - The supporting post attaches to the base at an off-centered location on the base. Be sure to attach the supporting post in the direction indicated below and attach the stand to the TV with the wider side of the base facing forward.
3 Insert the stand into the openings on the rear of the TV.
 - Make sure that the stand is firmly inserted into the TV. Improper installation may result in tilting of the TV set.
4 Insert and tighten the 4 screws into the 4 holes on the rear of the stand unit.
5 ① Insert the stand cover.
 ② Insert the 2 screws to secure the stand cover.
- In the installation procedure, be careful not to catch your fingers between the TV set and the floor.

- **Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.**
- **After attaching the stand to the TV, do not hold the stand when you put up, set up, move or lay down the TV. (For LC-70C8470U/LC-70C7450U)**
QUICK INSTALLATION TIPS

1 Attach your antenna to the back of the television. (See page 11.)

2 Connect the AC plug for the television into the AC outlet.
AC outlet

• Place the TV close to the AC outlet, and keep the power plug within reach.

NOTE

• **TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT TOUCH UN-INSULATED PARTS OF ANY CABLES WITH THE AC CORD CONNECTED.**

3 Bundle the cords properly with the cable tie.
4 When turning on the TV for the first time, press **POWER** on the television.
5 Insert the batteries into the remote control unit. (See page 11.)

NOTE

• Speakers cannot be detached from the TV.
• The TV angle cannot be adjusted. (For LC-70C8470U/LC-70C7450U)
• The TV can be rotated up to 20 degrees to right and left. (For LC-60C8470U/LC-60C7450U)

Experiencing HD Images

An HDTV without an HD source is just an ordinary TV.
To enjoy HD images on the TV, you should get HD programming from the following:
• Over-the-air broadcasting via HD quality antenna
• HD cable/satellite subscription
• HD compatible external equipment

NOTE

• For information on updating to HD programming, ask your cable/satellite service provider.

Using the Remote Control Unit

Use the remote control unit by pointing it towards the remote control sensor on the TV. Objects between the remote control unit and the remote control sensor may prevent proper operation.

17′ (5 m)   30°
30°   30°
             30°

Remote control sensor
■ **Cautions regarding the remote control unit**
• Do not expose the remote control unit to shock. In addition, do not expose the remote control unit to liquids, and do not place in an area with high humidity.
• Do not install or place the remote control unit under direct sunlight. The heat may cause deformation of the remote control unit.
• The remote control unit may not work properly if the remote control sensor on the TV is under direct sunlight or strong lighting. In such cases, change the angle of the lighting or the TV, or operate the remote control unit closer to the remote control sensor.
IMPORTANT:
IF THE UNIT DOES NOT POWER ON - UNPLUG THE TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.

IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

Preparation

Antennas

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set. For connecting the antenna cable to the TV, use commercially available cables.

Connecting Antenna Cable

• **Connect the antenna cable to the TV using one of the methods in the illustration as shown (①, ②, ③ or ④).**

① **Cable without a CATV converter**

Cable TV lead-In

Home Antenna terminal (75-ohm)

Coaxial cable

② **VHF/UHF antenna**

75-ohm coaxial cable (round)

Home Antenna terminal (75-ohm)

Coaxial cable

③ **Combination VHF/UHF antenna**

75-ohm coaxial cable (round)

or

300-ohm twin-lead cable (flat)

300/75-ohm adapter

④ **Separate VHF/UHF antenna**

VHF ANTENNA   UHF ANTENNA

300-ohm twin-lead cable

300-ohm twin-lead cable

IN   OUT

Combiner

To TV antenna terminal

or   75-ohm coaxial cable

ANT/CABLE   DIGITAL AUDIO OUTPUT
1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools.
2. A 300-ohm system is a flat "twin-lead" cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter.

F-type connector

75-ohm coaxial cable (round)

300-ohm twin-lead cable (flat)

NOTICE   **F-type connector should be finger-tightened only.**

When connecting the RF cable to the TV set, do not tighten F-type connector with tools.
If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

F-type connector

75-ohm coaxial cable
Installing Batteries in the Remote Control Unit

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1 Open the battery cover.

2 Insert two "AAA" size batteries (supplied with the product).

3 Close the battery cover.
• Place the batteries with their terminals corresponding to the $(+)$ and $(-)$ indications in the battery compartment.
CAUTION

Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.
• Do not mix batteries of different types. Different types of batteries have different characteristics.
• Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
• Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
• The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
• If you will not be using the remote control unit for an extended period of time, remove batteries from it.

  • http://www.skype.com (for details on Skype)

Remote Control Unit
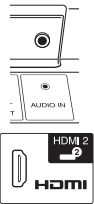

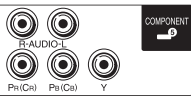

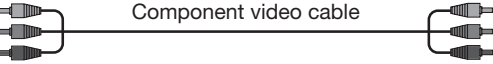

1 **POWER:** Switch the TV power on or enter standby. (See page 19.)

2 **TV**, **STB**, **DVD•VCR**, **AUDIO:** Switches the remote control for TV, STB, BD, DVD, VCR and AUDIO operation. (See pages 59 to 60 for details.)

  * To enter the code registration mode, you need to press an appropriate button (**STB**, **DVD•VCR** or **AUDIO**) and **DISPLAY** at the same time.

3 **External equipment operational buttons:** Operate the external equipment.

4 **OPTION:** Display the Link Operation Menu screen. This button will function only when AQUOS LINK is used. (See pages 61 to 64 for details.)

5 **SLEEP:** Set the sleep timer. (See page 23.)

6 **0–9:** Set the channel. (See page 23.)

7 **• (DOT):** (See pages 23 and 59.)

8 **CC:** Display captions from a closed-caption source. (See page 25.)

9 **AV MODE:** Select an audio or video setting. (See page 24.)

10 **MUTE:** Mute the sound. (See page 23.)

11 **VOL +/−:** Set the volume. (See page 23.)

12 **MENU:** Display the menu screen. (See page 27.)

13 **3D:** Select between 3D and 2D image viewing. (See pages 47 to 48 for details.)

14 **▲/▼/◄/►**, **ENTER:** Select a desired item on the screen.

15 **EXIT:** Turn off the menu screen.

16 **FAVORITE CH:** Set the favorite channels. (See page 37.)

17 **A**, **B**, **C**, **D:** Select 4 preset favorite channels in 4 different categories. (See page 37.)

  While watching, you can toggle the selected channels by pressing **A**, **B**, **C** and **D**.

18 **DISPLAY:** Display the channel information.

19 **POWER (SOURCE):** Turns the power of the external equipment on and off.

20 **FREEZE:** Set the still image. Press again to return to normal screen. (See page 23.)

21 **AUDIO:** Selects the MTS/SAP or the audio mode during multichannel audio broadcasts. (See pages 24 to 25.)

22 **ENT:** Jumps to a channel after selecting with the **0–9** buttons.

23 **FLASHBACK:** Return to the previous channel or external input mode. (See page 24.)

24 **VIEW MODE:** Select the screen size. (See pages 26 and 66.)

25 **INPUT:** Select a TV input source. (TV, HDMI1, HDMI2, HDMI3, HDMI4, COMPONENT, VIDEO1, VIDEO2, PC IN, Home Network (DLNA), USB) (See pages 14 and 23.)

26 **CH∧/∨:** Select the channel. (See page 23.)

27 **SmartCentral:** Display the application window. (See page 24.)

28 **RETURN:** Return to the previous menu screen.

29 **NETFLIX:** Display the Netflix screen. (See page 24.)

30 **FAV APP 1, 2, 3:** You can assign your favorite applications to these buttons. (See page 76.)

NOTE

• When using the remote control unit, point it at the TV.

Introduction to Connections

Types of Connection

For connecting the TV to external equipment, use commercially available cables.
• The illustrations of the terminals are for explanation purposes and may vary slightly from the actual products.

■ Connecting to video equipment or PC

Image quality differs depending on the terminal used. To enjoy clearer images, check the output terminals of your external equipment and use its appropriate terminals for higher quality images.

Image Quality	Terminal on the TV	Cable	Terminal on external equipment	
HD Quality	ARC HDMI 1	HDMI-certified cable	HDMI	➡ Pages 15, 17, 18
	AUDIO IN / HDMI 2	Ø 3.5 mm stereo minijack cable	AUDIO	➡ Pages 15, 18
		DVI-HDMI conversion cable	DVI OUT	
	COMPONENT / R-AUDIO-L, PR(CR) PB(CB) Y	Component video cable	Y PB PR COMPONENT	➡ Page 16
		Audio cable	R L AUDIO	
Standard Quality	R-AUDIO-L VIDEO / VIDEO 1	AV cable	R L AUDIO / VIDEO	➡ Page 16

■ Connecting to audio equipment

HDMI3

1 Press **INPUT**.
• The INPUT list screen displays.

2 Press ▲/▼ to select the input source.
• You can also select the input source by pressing **INPUT**. Each time **INPUT** is pressed, the input source toggles.

HDMI1 ⟶ HDMI2 ⟶ HDMI3
↑ ↓
TV ←– – – – – – – – – – – HDMI4

• An image from the selected source automatically displays.
• If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

Connecting to External Equipment

You can connect many types of external equipment to your TV. To view external source images, select the input source from **INPUT** on the remote control unit or on the TV. (See pages 14 and 23.)
For connecting the TV to external equipment, use commercially available cables.

Connecting a Blu-ray Disc/DVD Player or HD Cable/Satellite Set-top Box

■ When using HDMI cable (HDMI 1, 2, 3 or 4):

The HDMI (High Definition Multimedia Interface) terminal is an audio-video interface that enables a connection for audio and video signals using a single cable. The HDMI terminal supports high-resolution video input.

• Blu-ray disc player   • DVD player
• HD cable/satellite set-top box
HDMI-certified cable

NOTE

• To enjoy 1080p display capability, connect your external equipment using an HDMI-certified cable or a component cable and set the equipment to 1080p output.
• Supported Audio format: Linear PCM/Dolby Digital, sampling rate 32/44.1/48kHz.
• When you connect ARC-compatible equipment, use HDMI 1.

■ When using DVI-HDMI conversion cable (HDMI 2):

• Blu-ray disc player   • DVD player
• HD cable/satellite set-top box
DVI-HDMI conversion cable

Ø 3.5 mm stereo minijack cable

NOTE

• When using a DVI-HDMI conversion cable, you should make an analog audio connection. In this case, in addition to connecting a DVI-HDMI conversion cable to the HDMI 2 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". (See page 67.)

Connecting to External Equipment

■ When using Component cable (COMPONENT):

• Blu-ray disc player • DVD player
• HD cable/satellite set-top box

Connecting a PC

Refer to page 67 for a list of PC signals compatible with the TV.

■ When using HDMI cable (HDMI 1, 2, 3 or 4):

HDMI-certified cable
NOTE

• Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the HDMI 2 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". (See page 67.)
• The HDMI terminals only support digital signal.

■ When using DVI-HDMI conversion cable (HDMI 2):
DVI-HDMI conversion cable

Ø 3.5 mm stereo minijack cable

NOTE

• When using a DVI-HDMI conversion cable, you should make an analog audio connection. In this case, in addition to connecting a DVI-HDMI conversion cable to the HDMI 2 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". (See page 67.)

■ When using analog RGB cable (PC IN):

Analog RGB cable
(D-sub 15-pin cable or VGA cable)

Ø 3.5 mm stereo minijack cable
NOTE

• When using an analog RGB cable, input the audio signal to the AUDIO IN terminal of PC IN.
• When connecting a PC to the PC IN, set "Audio Select" to "Video+Audio". (See page 67.)

Watching TV

Turning On/Off the Power
POWER

POWER (On/Standby)
Press **POWER** on the TV or on the remote control unit to turn the power on.

NOTE

- The Initial Installation starts when the TV powers on for the first time. If the TV has been turned on before, the Initial Installation will not be invoked. For changing the settings of the Initial Installation, perform "EZ setup" on the Initial Setup menu on page 36.

Press **POWER** on the TV or on the remote control unit again to turn the power off.
- The TV enters standby and the image on the screen disappears.

NOTE

- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.
- Weak electric power is still consumed even when the TV is turned off.

Initial Installation

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels available in the region where you live. Perform the following steps before you press **POWER** on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 11.)
2. Connect the antenna cable to the TV. (See page 11.)
3. Plug in the AC cord to the AC outlet. (See page 10.)
Language (Language setting)

Select from among 3 languages: English, French and Spanish.

1 Press ▲/▼ to select the desired language listed on the screen, and then press **ENTER**.

Language	
Location & Time	
TV Location	English
Antenna & Cable/STB	Français
Air/Cable	Español
CH Search	
Network	
Completed	

Location & Time

Make settings for the country, area and time zone where you use the TV.

2 Press ▲/▼ to select "United States", "Canada" or "Mexico", and then press **ENTER**.

United States
Canada
Mexico
3 Press ▲/▼ to select the time zone where you are using the TV, and then press **ENTER**.

Example

EST
CST
MST
PST
AKST
HAST
- The time zone differs depending on the selected country.
- The factory preset value is the time zone for the capital of the selected country.

4 Press ▲/▼ to select the Daylight Savings Time, and then press **ENTER**.
Auto
Manual
Off

- "Auto" is the default selection.

TV Location

Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR in Home mode default setting.

5 Press ◄/► to select "Home" or "Store". Press **ENTER** to enter the setting.

◄ Select ►	
Home	Store

Home: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".
Store: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.
   Picture Reset: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off".
     • If you select "On" and there is no operation for 30 minutes:
      - AV MODE will be reset to "DYNAMIC (Fixed)" and, when a 3D signal is detected, 3D images will switch to 2D images.
     • When "Off" is selected:
      - AV MODE will be set to "DYNAMIC (Fixed)".
   Feature Demo: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

NOTE

- ENERGY STAR qualification is based on AV MODE "STANDARD".

Antenna & Cable/STB

Select the type of connection you will use to watch TV.

6 Press ◄/► to select "Antenna & Cable" or "Set-top box", and then press **ENTER**.

Antenna & Cable	Set-top box
To watch TV via an antenna or cable connection (without using a set-top box):
Select "Antenna & Cable", and then go to step 4.

To watch TV via a set-top box:
① Select "Set-top box", and then press **ENTER**.
② To watch TV, select the input source corresponding to the terminal connected to the set-top box. When doing so, you must make the setting to skip "TV". Press ◄/► to select "On", and then press **ENTER**.

On	Off
- When this is set to "On", the channel on the TV cannot be changed using the remote control unit or menu. (e.g. CH ∧/∨, Favorite CH, etc.)
- See page 34 for details on the Input Skip function.

③ Press **INPUT** to select the input source corresponding to the terminal connected to the set-top box. Make the necessary settings on the connected external equipment.
- See the operation manual of the connected equipment for setting up the equipment.

Air/Cable (Antenna setting)

Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

7 Press ◄/► to select "Air" or "Cable". Press **ENTER** to enter the setting.

Air	Cable

CH Search (Channel search)

Channel auto search makes the TV look for all channels viewable in the set area.

8 When "Air" is selected in Antenna setting:
Press ◄/► to select "Start", and then press **ENTER**.

| Start | Cancel |
When "Cable" is selected in Antenna setting:
① Press ▲/▼ to select "Analog & Digital Search Start" to search both analog and digital broadcasts, or to select "Analog Search Start" to search only analog broadcasts, and then press **ENTER**.

| Analog & Digital Search Start |
| Analog Search Start |
| Cancel |
- The Channel search will start automatically.
- To exit the Channel search screen, select "Cancel", and then press **ENTER**.

② The Channel search results may include scrambled channels or channels that are not viewable in the set area. Press ◄/► to select "Yes", and then press **ENTER** to remove scrambled channels.

| Yes | No |

Network

When you connect to the Internet on the TV, select the desired connection method and follow the instructions shown on the display.

- Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Initial Setup > Internet Setup > Network Setup. (See page 71.)

9 Press ◄/► to select "Yes", and then press **ENTER**.

| Yes | No |

10 Press ▲/▼ to select "Wired" or "Wireless", and then press **ENTER**.
| Wired |
| Wireless |

Connection using an ETHERNET cable:
① Select "Wired" and press **ENTER**.
② Confirm that the TV is properly connected with the router, and then press "Next". Follow the instructions on the display to perform the connection test.

Wireless LAN connection by the WPS method:
① Select "Wireless" and press **ENTER**.
② Follow the instructions on the display, and finalize the connection after testing its viability.

NOTE

- When you change the network settings, refer to Initial Setup > Internet Setup > Network Setup. (See page 71.)

Completed

11 The settings confirmation screen is displayed. Confirm the information displayed on the screen, and then press **ENTER**.

Examples of the settings confirmation screen

When one or more channel is received after "Antenna & Cable" was selected in step 6 and a search was carried out.

    and channel selection need to be selected
            with your set-top box.

                  OK
```
NOTE

- If no channel is found, confirm the type of connection made with your TV and try "EZ Setup" again. (See page 36.)
- For changing the settings of the Initial Installation, perform "EZ setup" on the Initial Setup menu on page 36.
- To see the list of channels found during Channel search, press **INPUT**, and then press ▶.

Direct Button Operation
INPUT

To view external source images, select the input source by pressing **INPUT** on the remote control unit or on the TV.

1 Press **INPUT**.
- The INPUT list screen displays.

2 Press ▲/▼ or press **INPUT** again to select the input source.
- An image from the selected source automatically displays.
- Each time **INPUT** is pressed, the input source toggles.
- If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

NOTE
- See pages 14 to 18 and 61 for external equipment connection.

Changing Channels

You can change channels in several ways.
Method 1
Using **CH∧/∨** on the remote control unit or on the TV.
Method 2
Using remote control buttons **0**-**9**, • (DOT).

> **Examples:**
> **To select a 1 or 2-digit channel number (e. g., Channel 5):**
> Press **5** ⟶ **ENT**.
> **To select a 3-digit channel number (e. g., Channel 115):**
> Press **1** ⟶ **1** ⟶ **5** ⟶ **ENT**.
> **To select a 4-digit channel number (e. g., Channel 22.1):**
> Press **2** ⟶ **2** ⟶ **• (DOT)** ⟶ **1** ⟶**ENT**.

Method 3
Selecting the program from Channel list.

1 Press **INPUT** on the remote control unit.
- The INPUT list displays.

2 Press ◄/► to select "AIR" or "CABLE".
- The Channel list displays.

3 Press ▲/▼ to select the desired channel, and then press **ENTER**.

NOTE
- When selecting a 1-digit channel number, it is not necessary to press **0** before the number.
- When you enter **0**-**9** only, channel selection will be made if there is no operation within a few seconds.
- If you push "0" by itself, nothing will happen.
- Complete the above steps within a few seconds.
- When you enter **0**-**9** and • (DOT), channel selection will be made if there is no operation within a few seconds.

Changing Volume

You can change the volume by pressing **VOL** +/− on the TV or on the remote control unit.
- To increase the volume, press **VOL** +.
- To decrease the volume, press **VOL** −.

Audio status

Output device	Output Select	
	Fixed	**Variable**
Speaker	Variable sound	Mute

- When "Output Select" is set to "Variable", the indicator on the screen changes as shown below.
NOTE
- See page 34 for details on the Output Select function.

MUTE

Mutes the current sound output.
Press **MUTE**.
- "⊗" will be displayed on the screen for 30 minutes, and the sound is silenced.

NOTE
- Within 30 minutes of pressing **MUTE**, mute can be canceled by pressing **VOL** +/− or **MUTE**.
- Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

Sleep Timer

Allows you to set a time when the TV automatically switches to standby.
Press **SLEEP**.
- The remaining time displays when the sleep timer has been set.
- Each time you press **SLEEP**, the remaining time switches as shown below.

Off ➡ 30 ➡ 60 ➡ 90 ➡ 120

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press **SLEEP** twice then change the time setting.
- When it is 5 minutes before the time expires, the remaining time will start to keep appearing every minute.

NOTE
- Select "Off" by pressing **SLEEP** to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches 0.

FREEZE

Allows you to capture and freeze a moving image that you are watching.
Press **FREEZE**.
- A moving image is captured.
- Press **FREEZE** again to cancel the function.

NOTE
- When this function is not available, "No displaying still image available." will display.
- The still image automatically goes out after 30 minutes.
- If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.
- You can have the same settings by choosing "Freeze" on the menu items. (See page 33.)

FLASHBACK

Press **FLASHBACK** to switch to the previously tuned channel or previous input mode.
• Press **FLASHBACK** again to switch back to the currently tuned channel.

NOTE
• **FLASHBACK** will not work if no channel has been changed after the TV is turned on.

SmartCentral

Allows you to directly activate various types of applications.

1 Press **SmartCentral** to display the application window.
• Press **SmartCentral** again to display a list of applications by category.

2 Press ◄/► (or ▲/▼) to select the desired application, and then press **ENTER**.
• If you changed the display to the list of applications in step 1, select a category and then an application. See page 76 for details.
• If "◻✕" is displayed after you switch to USB mode, check the USB connection.
• If "◻✕⊕" or "◻✕⫴" is displayed after you switch to Home Network (DLNA) mode or after you connect to the Internet, check your TV's network settings and connection.

NOTE
• See pages 53, 72 and 76 for details of viewable applications.
• You can display the application window by choosing "APPS" on the menu items. (See page 33.)
• When this function is not available, "Can not operate this function now" will display.

NETFLIX

Displays the Netflix screen.

Press **NETFLIX**.

NOTE
• To enjoy Netflix, you need to make:
 —a broadband Internet connection (See page 70.)
 —settings of Internet Setup (See pages 71 and 72.)
 —adjustments for Netflix (See page 76.)

AV MODE

AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of image input from external equipment.

Press **AV MODE**. Current AV MODE displays.
• Press **AV MODE** again before the mode displayed on the screen disappears. The mode changes as shown below:

Example:
When the input source is TV, COMPONENT, VIDEO 1 or 2

AUTO ➡ STANDARD ➡ MOVIE ➡ GAME
↑   ↓
DYNAMIC (Fixed) ⬅ DYNAMIC ⬅ USER [TV]

Example:
When the input source is PC IN or HDMI 1 to 4

■ **LC-70C8470U/LC-60C8470U**

AUTO ➡ STANDARD ➡ MOVIE ➡ GAME ➡ PC
↑   ↓
DYNAMIC (Fixed) ⬅ DYNAMIC ⬅ x.v.Color* ⬅ USER[🔅]

* "x.v.Color" can only be selected when an x.v.Color signal is input using HDMI 1 to 4.

■ **LC-70C7450U/LC-60C7450U**

AUTO ➡ STANDARD ➡ MOVIE ➡ GAME ➡ PC
↑   ↓
DYNAMIC (Fixed) ⬅ DYNAMIC ⬅ USER[🔅]

AUTO: Optimizes the image quality automatically based on the room brightness and image signal.
STANDARD: For a highly defined image in a normal lighting.
MOVIE: For a movie.
GAME: Lowers image brightness for easier viewing.
PC: For PC.
USER: Allows the user to customize settings as desired. You can set the mode for each input source.
x.v.Color: Supports the x.v.Color international standard for wide color space. The x.v.Color signal allows you to experience colors that conventional color signals cannot reproduce.
DYNAMIC: For a clear-cut image emphasizing high contrast, useful for sports viewing.
DYNAMIC (Fixed): Changes the image and sound settings to the factory preset values. No adjustments are allowed.

NOTE
• You can select a different AV MODE item for each input mode. (For example, select STANDARD for TV input and DYNAMIC for COMPONENT.)
• When you play games, "GAME" is recommended for AV MODE.
• You cannot set "GAME" or "PC" when the TV is connected to the Internet or when the input source is "Home Network (DLNA)" or "USB".
• You can have the same settings by choosing "AV MODE" on the menu items. (See page 29.)

AUDIO

■ **MTS/SAP stereo mode**
The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.
• **Stereo broadcasts:** View programs like live sporting events, shows and concerts in dynamic stereo sound.
• **SAP broadcasts:** Receive TV broadcasts in either MAIN or SAP sound.
 MAIN sound: The normal program soundtrack (either in mono or stereo).
 SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

Direct Button Operation

If stereo sound is difficult to hear.
• Obtain a clearer sound by manually switching to fixed mono-sound mode.

You can change MTS as shown below to match the television broadcast signal.

Press **AUDIO** to toggle between audio modes.

Examples: when receiving MTS and SAP
STEREO mode: STEREO ⟷ MONO
STEREO + SAP mode: ST(SAP) ➡ SAP(ST) ➡ MONO

MAIN + SAP mode: MAIN ⟷ SAP
MONO mode: MONO

■ Digital broadcasting audio mode
The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press **ENTER** to toggle between audio modes.

Example: when receiving Digital broadcasting
STEREO (Audio1) ➡ STEREO (Audio2)
⤶ SURROUND (Audio3) ⟵

NOTE
• MTS only operates while in TV mode.
• You can have the same settings by choosing "Change Audio" on the menu items. (See page 33.)

Closed Captions and Digital Closed Captions

Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the "[CC]" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" and "CC2" services display subtitles of TV programs superimposed over the program's picture.

In the Closed Caption system, the "Text1" or "Text2" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

---

1 Press **CC**.
  • This will present the Closed Caption information display.
2 Press **CC** while the Closed Caption information is still on the screen.
  • Press repeatedly until you select the desired closed caption service.

Closed Caption information
• Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed.
  1/2 means "the first of two services".
  Example:
  If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:

1/3 ENG ➡ 2/3 CC1 ➡ 3/3 Text1 ➡ Off
• The **CC** button keeps a record of the last service selected in its memory.
  If the last closed caption mode (e.g. 1/3 ENG) you selected is not available for the next program, or on another channel, the closed caption service that is available is automatically selected, and this service appears in parentheses, e.g. "1/3(CC1)".
  Closed Caption services that appear in parentheses will not be stored in the **CC** button's memory as your last selected service. Only services that you have selected with the **CC** button are stored.

Examples:
In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses.
A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. "1/1(CC1)" is displayed instead of "1/2/ENG".

NOTE
• When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears on the channel information window. See page 32 for details of Power Saving settings.
• See page 34 for detailed closed caption settings.
• When the program contains no closed caption, "--" displays in the closed caption information.
• If the language code, e.g. "ENG", is not found on Digital TV programs, "--" will be shown.
• Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
• When a web page is displayed, Closed Captions are not available.
• You can have the same settings by choosing "Change CC" on the menu items. (See page 33.)

Direct Button Operation

VIEW MODE
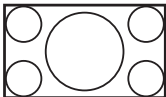

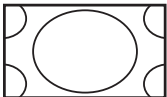

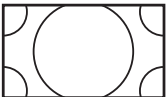

You can select the screen size.

1 Press **VIEW MODE**.
- The View Mode menu displays.
- The menu lists the View Mode options selectable for the type of video signal currently being received.

2 Press **VIEW MODE** or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.
- You can sequentially select a View Mode that has its own aspect ratio.

NOTE
- You can have the same settings by choosing "View Mode" on the menu items. (See page 33.)
- You may not be able to change the View Mode while in 3D mode.

■ For HD programs
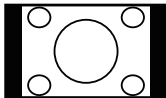

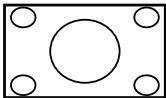

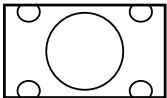

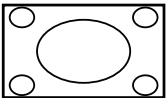

Stretch	Dot by Dot (Full Screen)	S.Stretch (Smart stretch)	Zoom
Suitable for viewing wide-screen 1.78:1 aspect ratio program, stretch mode will still show very thin black bands at the top and bottom of the screen.	**Dot by Dot (1080i/p only):** Detects the resolution of the signal and displays an image with the same number of pixels on the screen. **Full Screen (720p only):** You can select "Full Screen" only when receiving a 720p signal.	Suitable for stretching 4:3 programs to fill the screen.	Suitable for viewing wide-screen 2.35:1 aspect-ratio programs in full screen.

NOTE
- When using Dot by Dot or Full Screen, it is possible to see noise or bars around different outer portions of the screen. Please change view mode to correct this.
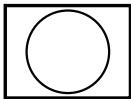

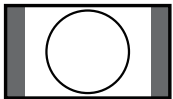

■ For 4:3 programs

Example: Screen size images

Side Bar	S.Stretch (Smart stretch)	Zoom	Stretch
Suitable for viewing conventional 4:3 programs in their normal format.	Suitable for stretching 4:3 programs to fill the screen.	Suitable for viewing wide-screen 2.35:1 anamorphic DVDs in full screen.	This mode is useful for 1.78:1 DVDs. When viewing 1.85:1 DVDs, stretch mode will still show very thin black bands at the top and bottom of the screen.

■ For USB-Video, DLNA-Video or Internet applications

Example: Screen size images

Input signal	Auto	Original
	Keeps the original aspect ratio in a full screen display.	Displays an image by an original size.

On-Screen Display Menu

On-Screen Display Menu Operation

ᶠᵒⁿᵗC LCFONT embedded

Example
1 Press **MENU** to display the MENU screen.

2 ① Press ◄/► to select the desired menu.

② Press ▲/▼ to select a specific adjustment item, and then press **ENTER**.

- Additional related adjustment items may be displayed. Press ▲/▼ to select the desired item.

③ Adjust the item while referring to the guide display.

- Operations vary depending on the function or item. Refer to the guide display corresponding to the menu setting screen for button operations.

3 Press **MENU** to exit.

Example

① Guide display
- This indicates the buttons that can be operated on the displayed screen. The guide display varies depending on the menu setting screen.
- The operations for some selected items may be displayed in the operational guide bar at the bottom of the screen.

② Item displayed in blue
- This indicates the item currently selected.
- Press **ENTER** to go to the adjustment screen for this item.

③ Item in brackets
- This indicates the current setting for the item.

④ Item displayed in white
- This indicates that the item can be selected.

⑤ Item displayed in gray
- This indicates that the item cannot be selected. There are various reasons why the items cannot be selected, but the main reasons are as follows:
— Nothing is connected to the selected input terminal.
— The function is not compatible with the current input signal.

> **NOTE**
> - Menu options differ in the selected input modes, but the operating procedures are the same.
> - The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.
> - The order of explanations for each menu item in the following pages is not necessarily in accordance with the alignment of the items on the screen.

ᶠᵒⁿᵗC LCFONT:

- This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens.

Menu Operation Buttons

Using the remote control

Use the following buttons on the remote control to operate the menu.

MENU: Press to open or close the menu screen.

▲/▼/◄/►: Press to select a desired item on the screen or adjust a selected item.

ENTER: Press to go to the next step or complete the setting.

RETURN: Press to return to the previous step.

Using the control panel of the main unit

You can also operate the menu with the control panel of the main unit.

Button operations on the control panel correspond to the ones on the remote control as shown below.
MENU: **MENU** on the remote control.

INPUT: **ENTER** on the remote control.

CH∧/∨: Cursor ▲/▼ on the remote control.

VOL+/−: Cursor ◄/► on the remote control.

Menu Items

NOTE

• When AV MODE is set to "AUTO", part of the menu may not be displayed correctly or the setting range of the menu may be changed.
• Some menu items may not be displayed depending on the selected input source.

Picture Settings

Adjusts the picture to your preference with the following picture settings.

Example
1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Picture Settings".

2 Press ▲/▼ to select a specific adjustment item.
- Select "Advanced" and then press **ENTER** to set "C.M.S.-Hue", "C.M.S.-Saturation", "C.M.S.-Value", "Color Gamut Range" (for LC-70C8470U/ LC-60C8470U), "Color Temp.", "Motion Enhancement", "Quad Pixel Plus 2" (for LC-70C8470U/LC-60C8470U), "Active Contrast", "Gamma Adjustment", "Black Level", "Film Mode", "Digital Noise Reduction", "Monochrome" or "Range of OPC".

3 Press ▲/▼(or ◄/►) to select the desired setting, and then press **ENTER**.

4 Press **MENU** to exit.

Selected item	◄button	►button
Backlight	The screen dims	The screen brightens
Contrast	For less contrast	For more contrast
Brightness	For less brightness	For more brightness
Color	For less color intensity	For more color intensity
Tint	Skin tones become reddish	Skin tones become greenish
Sharpness	For less sharpness	For more sharpness

- You can select "3D Brightness Boost" while in 3D mode. (See page 48.)
- For resetting all Picture adjustment items to the factory preset values, press ▲/▼ to select "Reset", press **ENTER**, press ▲/▼ to select "Yes", and then press **ENTER**.

AV MODE (Changing Pic.Quality)

The audio and video settings can be changed to suit the program or input content being watched. Select from the following AV modes.

■ **When the input source is TV, COMPONENT, VIDEO 1 or 2:**
AUTO/STANDARD/MOVIE/GAME/USER/DYNAMIC/ DYNAMIC(Fixed)

■ **When the input source is PC IN or HDMI 1 to 4:**
LC-70C8470U/LC-60C8470U
AUTO/STANDARD/MOVIE/GAME/PC/USER/x.v.Color/ DYNAMIC/DYNAMIC(Fixed)

LC-70C7450U/LC-60C7450U
AUTO/STANDARD/MOVIE/GAME/PC/USER/DYNAMIC/ DYNAMIC(Fixed)

NOTE
- The selectable items vary depending on the input source.
- For details of the selectable items in 3D mode, see page 48.
- You can select AV MODE by pressing **AV MODE** on the remote control unit. See page 24 for details of AV MODE settings.

OPC Setting

Automatically adjusts the brightness of the screen.
Off: The brightness is fixed at the value set in "Backlight".
On: Automatically adjusts.
On:Display: Displays the OPC effect on the screen while adjusting the brightness of the screen.

NOTE
- When set to "On", the Optical Picture Control (OPC) senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the OPC sensor, which could affect its ability to sense surrounding light.
- When set to "On:Display", OPC effect displays on the screen while the OPC adjusts the screen brightness.
Advanced Picture Settings

This TV provides various advanced functions for optimizing the picture quality.

C.M.S.
(Color Management System)

Color tone is managed using the six-color adjustment setting.
C.M.S.-Hue: This is a standard to adjust the color either more reddish or more bluish in tone.
C.M.S.-Saturation: Increases or decreases the saturation of a selected color.
C.M.S.-Value: A higher value makes the image brighter. A lower value makes the image darker.

NOTE
- For resetting all adjustment items to the factory preset values, press ▲/▼ to select "Reset", and then press **ENTER**.

On-Screen Display Menu

Color Gamut Range (for LC-70C8470U/LC-60C8470U)

You can set the color gamut range.
Standard: Standard color gamut.
Expanded: More vivid colors with expanded color gamut.

NOTE

• "Color Gamut Range" is only available when AV MODE is set to "MOVIE" or "MOVIE (3D)".

Color Temp. (Color Temperature)

For a better white balance, use color temperature correction.
High: White with bluish tone
Mid-High:
Middle:
Mid-Low:
Low: White with reddish tone

White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.
R Gain (LO/HI)/G Gain (LO/HI)/B Gain (LO/HI)

■ Fine tuning the color temperature

To fine tune the color temperature, set "10 Point Setting" to "On".
You can adjust the "Position" setting. Adjust the set color temperature from +1 to +10.
White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.

NOTE

• When "Position" is set to "10", you can adjust the white balance between –30 and 0.
• For resetting all adjustment items to the factory preset values, press ▲/▼ to select "Reset", and then press **ENTER**.

Motion Enhancement

Use Motion Enhancement to view fast-action video more clearly.

■ LC-70C8470U/LC-60C8470U

AquoMotion480: Turn the LED backlight on or off for 240Hz drive display.
AquoMotion240: Turn the LED backlight on or off for 120Hz drive display.
120Hz High/120Hz Low: For obtaining a clearer image.
Off: Normal image.

■ LC-70C7450U/LC-60C7450U

AquoMotion240: Turn the LED backlight on or off for 120Hz drive display.
120Hz High/120Hz Low: For obtaining a clearer image.
Off: Normal image.

NOTE

• "Motion Enhancement" may cause image noise. If this occurs, turn the function "Off".
• When AV MODE is set to "GAME" or "PC", or PC format is being input, "Motion Enhancement" is not available.

Quad Pixel Plus 2 (for LC-70C8470U/LC-60C8470U)

Smoothes diagonal lines by detailed dot control.
Advanced: Produces smoother diagonal lines by jaggy removal process.
Standard: Produces smooth diagonal lines.
Off: No adjustment.

Active Contrast

Automatically adjusts the image contrast according to the scene.
On: Automatically adjusts the image contrast.
Off: No adjustment.

Gamma Adjustment

Adjusts the differences of picture tones between bright parts and dark parts. The adjustment range of the gamma can be set to a maximum of +2 and a minimum of –2 by pressing ◄ or ►.

Black Level

Adjusts on-screen black level to your preferred level.
High: The black level gets brighter.
Low: The black level gets darker.

NOTE

• "Black Level" is available for input signal from Composite Video, Component 480i and analog broadcasts (air and cable).

Film Mode (3:2 pull-down)

Automatically detects a film-based source (originally encoded at 24 frames/second), analyzes it then recreates each still film frame for high-definition picture quality.
Advanced: Adjust effect to reduce judder from film contents. Select a desired level of judder reduction from 0 to +10.
Standard: Detects, analyzes, converts film source.
Off: Normal viewing mode.

NOTE

• "Film Mode" does not function depending on input signal type.
• "Film Mode" does not function when you set AV MODE to "GAME" or "PC".
• "Standard" does not function when channel display shows an input signal resolution of 480p, 720p, or 1080p.

Digital Noise Reduction

Produces a clearer video image.
Auto: Automatically adjusts the level of noise reduction.
High/Middle/Low: Select a desired level for viewing a clearer video image.
Off: No adjustment.

NOTE

• "Digital Noise Reduction" is not available when you set AV MODE to "PC" or PC format is being input.
• When AV MODE is set to "GAME", "Auto" is not available.

Monochrome

For viewing a video in monochrome.
On: For viewing in monochrome.
Off: Normal color.

Range of OPC

The brightness level range of the OPC sensor's automatic adjustments can be set according to your preferences.
The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.
Max.: –15 through +16
Min.: –16 through +15

NOTE

• The "Range of OPC" settings are active only when "OPC" is set to "On".
• The maximum setting cannot be set to a smaller number than the minimum setting.
• The minimum setting cannot be set to a bigger number than the maximum setting.
• Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

Audio Settings

You can adjust the sound quality to your preference with the following settings.

Example

Audio Settings	Menu
Audio Settings	
Auto Volume	[Off]
Treble [0] −15 ▮▮▮ +15	
Bass [0] −15 ▮▮▮ +15	
Balance [0] L ▮▮▮ R	
3D Surround	[Off]
Bass Enhancer	[On]
Clear Voice	[Off]
Reset	
1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Audio Settings".

2 Press ▲/▼ to select a specific adjustment item.
  • Select "Auto Volume", "3D Surround", "Bass Enhancer" or "Clear Voice", and then press **ENTER** to set each item.

3 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

4 Press **MENU** to exit.

Selected item	◄button	►button
Treble	For weaker treble	For stronger treble
Bass	For weaker bass	For stronger bass
Balance	Decrease audio from the right speaker	Decrease audio from the left speaker

NOTE
• Audio menu is grayed out when "Output Select" is set to "Variable". (See page 34.)
• For resetting Audio adjustment items to the factory preset values, press ▲/▼ to select "Reset", press **ENTER**, press ▲/▼ to select "Yes", and then press **ENTER**.

Auto Volume

Different sound sources sometimes do not have the same loudness level, such as a program and its commercial breaks. The Automatic Volume Control (Auto Volume) reduces this problem by equalizing levels.

  High: Reducing the loudness gaps among different sound sources strongly.

  Middle: ↕

  Low: Reducing the loudness gaps among different sound sources slightly.

NOTE
• Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 34.)

3D Surround

The surround function produces Surround effect from the speakers.
  3D Stadium: Reproducing lifelike experience of excitements such that live sports or concert performances in a stadium create.
  3D Hall: Reproducing concert hall experience with realistic live surround sound using measured reverberant sound in the concert hall.
  3D Movie: Reproducing movie theater experience with realistic live surround sound using measured reverberant sound in the movie theater.
  3D Standard: Creating 3 dimensional surround sound with detailed control of the signal phase.
  Normal: Providing mild surround sound.
  Off: Outputs the normal sound.

NOTE
• Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 34.)
• For some discs, setup may be required on your BD/DVD player. In this case, please refer to the operation manual of your BD/DVD player.

Bass Enhancer

This function allows you to enjoy bass-enhanced sound.
  On: Bass Enhancer function is on.
  Off: Normal sound.

NOTE
• Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 34.)

Clear Voice

This function emphasizes speech against background noise for greater clarity.

NOTE
• Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 34.)

Power Control

Power control setting allows you to save energy.

Example

Power Control	Menu
Power Control	
Audio Only	
Power Saving	[🍃Standard]
No Signal Off	[Enable]
No Operation Off	[Disable]
1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Power Control".

2 Press ▲/▼ to select a specific adjustment item, and then press **ENTER**.

3 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

4 Press **MENU** to exit.
• Skip this step for "Audio Only".

Audio Only

When listening to music from a music program, you can turn the screen off and enjoy audio only.
On: Audio is output without screen image.
Off: Both screen images and audio are output.

NOTE
• The screen image will return to normal when a button (except those for audio adjustment, such as **VOL**, **MUTE**) is pressed.

Power Saving

This function allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.
Standard: Optimizes power reduction based upon video content. When set to "Standard", "🍃" appears on the screen.
Advanced: Optimizes power reduction based upon video content and engages OPC. When set to "Advanced", "🍃🍃" appears on the screen.
Off: This function does not work.

NOTE
• "Power Saving" does not function when you set AV MODE to "AUTO" or "DYNAMIC (Fixed)".
• You cannot select a different Power Saving item for each AV MODE.
When "Power Saving" is set, the "OPC" settings for all AV Modes will automatically change.
—If you set "OPC" to "On" when "Power Saving" is set to "Standard", then the "Power Saving" setting will change to "Advanced".
—When you change the "Power Saving" setting from "Advanced" to "Off" or to "Standard", "OPC" will be set to "Off".
—"AUTO" and "DYNAMIC (Fixed)" will remain set to "Off".
• When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears to the left of "OPC" in the Picture Settings menu screen.
• "Power Saving" is not available when the TV is in 3D mode.

No Signal Off

This function allows the TV to automatically shut the power down when there is no signal received.
Enable: The power will automatically shut down if there is no signal for 15 minutes.
Disable: This function does not work.

A confirmation screen appears.
Yes: The setting will be changed.
No: The setting will not be changed.

NOTE
• When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
• When a TV program finishes, this function may not operate.

No Operation Off

This function allows the TV to automatically shut the power down when there is no operation.
Enable: The power will automatically shut down if there is no operation for 3 hours.
Disable: This function does not work.

A confirmation screen appears.
Yes: The setting will be changed.
No: The setting will not be changed.

NOTE
• When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.

System Options

Example

```
          System       Menu
          Options
System Options

    View Option

    3D Setup

    AQUOS LINK Setup

    Terminal Setting

    Menu Design

    Operation Lock Out
                        [Off]
    Icon Light Up Setting
                        [On]
    Demo Mode
```

1 Press **MENU** to display the MENU screen, and then press ◄/► to select "System Options".

2 Press ▲/▼ to select a specific adjustment item and then press **ENTER**.

3 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

4 Press **MENU** to exit.

View Option

These functions are useful for adjusting the audio and video settings. The View Option functions can be operated with the remote control unit.

APPS

The application window can be displayed by selecting "APPS" on the MENU screen.

NOTE

• You can display the application window by pressing **SmartCentral** on the remote control unit. (See page 24.)

View Mode

This function changes the screen size.
Select "View Option" on the menu to display the View Mode menu screen.
The View Mode menu varies depending on the input source.

NOTE

• You can select View Mode by pressing **VIEW MODE** on the remote control unit.
  — See page 26 for adjusting the video being input from a TV, other audiovisual equipment, USB-Video, DLNA-Video or Internet applications.
  — See page 66 for adjusting the video being input from a PC.

Freeze

Allows you to capture and freeze a moving image that you are watching.

NOTE

• You can select Freeze by pressing **FREEZE** on the remote control unit. See page 23 for details of Freeze function.

Change Audio

Allows you to change the audio when multiple audio is available for the program you are watching.

NOTE

• You can change Audio by pressing **AUDIO** on the remote control unit. See pages 24 to 25 for details of Audio function.

Change CC

Allows you to change the Closed Caption display.
Select "Change CC" on the menu to display the Closed Caption information.
• The information displayed varies depending on the program you are watching.

NOTE

• You can change Closed Caption by pressing **CC** on the remote control unit. See page 25 for details of Closed Caption function.

Terminal Setting

Audio Setup

You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUTPUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

PCM: Set to "PCM" when connecting to equipment that does not support Dolby Digital. The same audio (main, sub, or main/sub) as the audio of the program being viewed is output.
2-channel audio with a sampling rate of 48 kHz or less is output as linear PCM audio.

Bitstream: Set to "Bitstream" when connecting to an audio system that supports Dolby Digital. Audio is output through both the main and sub channels.

NOTE

• Analog channel audio and video input audio are output in PCM mode even when "Bitstream" is selected.
• PCM digital input signals are output in PCM mode even when "Bitstream" is selected.

Input Skip

This setting allows you to skip the TV, HDMI or PC IN Input ("TV", "PC IN", "HDMI 1", "HDMI 2", "HDMI 3" and "HDMI 4") on the Input Selection operation.

Yes: Skips the input.
No: Does not skip input.

Input Label

Lets you set the input terminal displayed when using the INPUT list or channel display. Press ▲/▼/◄/► to select the new name for the input mode.

• Using the software keyboard, you can enter up to 10 characters for text. (See page 73.)

NOTE
• You cannot change labels if the input source is TV, Home Network (DLNA) or USB.

HDMI Setup

To watch an HDMI or PC IN equipment image, select "HDMI 1", "HDMI 2", "HDMI 3" or "HDMI 4" from the INPUT list using **INPUT** on the remote control unit or on the TV.

Auto View:
  Enable: To use View Mode based on signal recognition, including an HDMI signal.
  Disable: No function.

NOTE
• Refer to your external equipment operation manual for the signal type.
• When connecting a DVI-HDMI conversion adapter/cable to the HDMI terminal, the image may not come in clearly.

Output Select

Allows you to select what controls the audio output.

Fixed: Sound via speaker is adjusted with **VOL +/−** on the remote control unit or on the TV.
Sound via the AUDIO OUT terminal is not adjustable and outputs at a consistent level.
Variable: Sound via the AUDIO OUT terminal is adjusted with **VOL +/−** on the remote control unit or on the TV. Sound via speaker is muted.

Color System

Select the video signal system compatible with your equipment from the list below:

Auto/NTSC/PAL-M/PAL-N

NOTE
• "Color System" can only be set for the VIDEO 1 or 2.
• If you have already set the Secret No., input the 4-digit secret number here. See page 37 for setting a secret number.

Menu Design

Channel Selecting Effect

You can select whether to use transition effects when changing channels.

Yes: A transition effect is used when the channel is changed.
No: No function.

NOTE
• In some cases, "Channel Selecting Effect" does not work.

Program Title Display

Select the CH display when changing channels for digital broadcasting.

Yes: "Program Info." displays.
No: "Program Info." does not display.

Position

For adjusting a picture's horizontal and vertical position.

H-Pos.: Centers the image by moving it to the left or right.
V-Pos.: Centers the image by moving it up or down.

NOTE
• For resetting adjustments to the factory preset values, press ▲/▼ to select "Reset", and then press **ENTER**.
• When connecting a PC to the HDMI terminal, the image position will be automatically adjusted. It cannot be manually adjusted.
• The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
• Adjustments are stored separately according to input source.
• "Position" does not work when USB mode, Home Network (DLNA) mode or an Internet application is used.
• You may not be able to adjust the position while in 3D mode.

Caption Setup

This function allows you to adjust the closed caption screen appearance to suit your preference. You can adjust 7 items: "Caption Size", "Font Style", "Foreground Color", "Foreground Opacity", "Background Color", "Background Opacity" and "Character Edge".

Example:
Selectable items available for "Font Style".
Default: The font specified by broadcasting station or default font.
Type 0: Proportional font used in the MENU screen.
Type 1: Monospaced with serifs.
Type 2: Proportionally spaced with serifs.
Type 3: Monospaced without serifs.
Type 4: Proportionally spaced without serifs.
Type 5: Casual font type.
Type 6: Cursive font type.
Type 7: Small capitals.

NOTE
• For resetting adjustments to the factory preset values, press ▲/▼ to select "Reset", and then press **ENTER**.
• The default value depends on the broadcasting station.

On-Screen Display Menu

Game Play Time

This function displays the elapsed game time so you do not lose track of the time. To display the elapsed time, select "GAME" for the AV MODE before starting the game.

> **On:** The elapsed time is displayed every 30 minutes when you switch to GAME mode in external input mode.
> **Off:** No adjustment.

Operation Lock Out

This function locks the operation buttons on the TV and the remote control.

> **Off:** No adjustment.
> **RC Control Lock:** All buttons on the remote control are locked.
> **Button Control Lock:** All buttons on the TV, except **POWER**, are locked.

> When "RC Control Lock" or "Button Control Lock" is selected, a confirmation screen appears.
> **On:** Locks the operation buttons.
> **Off:** No adjustment.

NOTE

- To unlock the buttons on the remote control by using the control panel of the main unit (see page 27):
  ① Press **MENU** to display the MENU screen, press **VOL +/−** to select "System Options", and then press **INPUT**.
  ② Press **CH∧/∨** to select "Operation Lock Out", and then press **INPUT**.
  ③ Press **CH∧/∨** to select "Off", and then press **INPUT**.
  ④ Press **MENU** to exit.
- To unlock the buttons on the TV, press **MENU** on the remote control, and then select "Off" in "Operation Lock Out".

Icon Light Up Setting

When this function is set to "On", the LED on the front of the TV turns on.
- The LED lights white in 2D mode.
- The LED lights blue in 3D mode.

NOTE

- "On" is the factory preset value. If you want to turn off the LED, set the function to "Off".

Demo Mode

You can select the image from several types of demo mode.

■ **LC-70C8470U/LC-60C8470U**
Quattron/Quad Pixel Plus 2/AquoMotion480/ SmartCentral/3D/Feature Demo/Auto Play

■ **LC-70C7450U/LC-60C7450U**
AquoMotion240/SmartCentral/Feature Demo/ Auto Play

> If you have selected "Auto Play", you need to select the desired playback type(s), and then set the playback time.
> **Continuous:** Play Demos continuously.
> **10 min.:** Play Demos every 10 minutes.
> **20 min.:** Play Demos every 20 minutes.

NOTE

- This function will be canceled when you press **EXIT** on the remote control unit.
- When "Demo Mode" is set to "Quattron" or "Feature Demo", pressing **FREEZE** pauses/restarts demo.
- "Demo Mode" may not be selected depending on input signal type or application status.
- "Demo Mode" may be automatically canceled depending on input signal type.

Initial Setup

Example
1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Initial Setup".

2 Press ▲/▼ to select a specific adjustment item, and then press **ENTER**.
 • When you select "EZ Setup", "CH Setup", "Parental CTRL" or "Reset", you can enter the 4-digit secret number here. See page 37 for setting a secret number.

3 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

4 Press **MENU** to exit.

EZ Setup

You can run EZ Setup again, even after setting up the preset channels.

Language: Select from among 3 languages (English, French and Spanish).

Location & Time: Make settings for the country, area and time zone where you use the TV.

 Select your country: Select either "United States", "Canada" or "Mexico".

 Select your time zone: Select your time zone. The available settings differ depending on the selected country.

 Select DST (Daylight Savings Time): Select "Auto", "Manual" or "Off".

TV Location: Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR in Home mode default setting.

 Home: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".

 Store: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.

  Picture Reset: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off". If you select "On", AV MODE will be reset to "DYNAMIC (Fixed)" if there is no operation for 30 minutes. When "Off" is selected, AV MODE will be set to "DYNAMIC (Fixed)".

  Feature Demo: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

 • ENERGY STAR qualification is based on AV MODE "STANDARD".

Antenna & Cable/STB: Select the type of connection you will use to watch TV.

Air/Cable: Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

CH Search: Channel auto search makes the TV look for all channels viewable in the set area.
 • If "Cable" is selected for Antenna setting, scrambled channels are removed after the Channel search has been completed.

Network: When you connect to the Internet on the TV, confirm the connection method and make adjustments.
 • Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Initial Setup > Internet Setup > Network Setup. (See page 71.)

Completed: The settings confirmation screen is displayed. Confirm the information displayed on the screen.

NOTE
• See Initial Installation on pages 19 to 22 for setting each item.
• If no channel is found, confirm the type of connection made with your TV and try "EZ Setup" again.
• If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.

Broadcasting Setup

CH Setup

If Initial Installation does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

Air/Cable: Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

CH Search: Channel auto search makes the TV look for all channels viewable in the set area.

CH Memory: You can select the channels to skip in each ANALOG (Air), ANALOG (Cable), DIGITAL (Air) and DIGITAL (Cable).
 On: Skips channels. (Channel selection disabled using **CH** ∧/∨.)
 Off: Does not skip channels. (Channel selection enabled using **CH**∧/∨.)

Remove Scrambled CH: This function makes the TV look for and then delete digital cable channels that are scrambled and so unavailable in the set area. The process may take more than 20 minutes.
 Yes: Starts to remove scrambled channels.
 No: This function does not work.

NOTE
• See Initial Installation on pages 19 to 22 for setting each item.
• If no channel is found, confirm the type of connection made with your TV and try channel search again.
• If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.

Favorite CH (Favorite Channel Setting)

This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

To register your favorite channel:

Select "Register" and then press **ENTER**. Press ▲/▼/◄/ ► to select the position in the category, and then press **ENTER** to register.

To delete your favorite channel:

Select "1 Data Clear" and then press **ENTER**. Press ▲/▼/◄/► to select the channel you want to delete, and then press **ENTER**. Select "Yes" and then press **ENTER**.

To delete all the favorite channels, select "All Data Clear".

NOTE
- Before setting the channel, select the channel you want to register as a favorite channel.
- You can display the "Favorite CH" screen by pressing **FAVORITE CH** on the remote control.

Antenna Setup-DIGITAL

In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the "Antenna Setup-DIGITAL" screen. If necessary, adjust the direction of the antenna to obtain the maximum signal strength.

Signal Strength: The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.

Channel Strength: Input the 2-digit channel number to check the signal strength of the selected channel. Make sure the signal is strong enough for each channel.
- This function is available for DIGITAL (Air) only.

Language

You can also select a language from the Initial Setup menu. Select from among 3 languages: English, French and Spanish.

Wall Mount Audio Setup

This selects the optimal audio for the program you are currently watching even when the TV is mounted to a wall.

Yes: Selects the optimal audio.
No: No adjustment.

Reset

If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.
- If you have already set the Secret No., input the 4-digit secret number here.

NOTE
- The Channel Setup settings will not be changed.
- The Language settings will not be changed.
- The Secret number settings will not be changed.
- The TV Location settings will not be changed.

Individual Setup

Secret No.

Allows you to use a secret number to protect certain settings from being accidentally changed.

IMPORTANT:

Three conditions must be met to enable the V-Chip (see pages 38 to 39):

1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
   - The "V-Chip (DTV Only)" will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
3. "Status" is set to "On".

■ **Setting the Secret No.**
You can set and change the secret number by using **0**-**9**.
Yes: Changes or sets the Secret No.
No: The confirmation screen to clear the Secret No. appears when the Secret No. has been set. When the Secret No. has not been set, the previous screen will be displayed.

■ **Secret No. Clear**
You can clear your secret number.
Yes: Your secret number is cleared.
No: Your secret number is not cleared.

NOTE
- As a precautionary measure, make a note of your secret number and keep it in a familiar place.
- If the secret number is cleared, the Status setting automatically sets to "Off". "V-Chip" and "Status" will not be selectable from the menu.

Parental CTRL (Parental Control Setting)

Status

Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your secret number.
On: Enables Parental CTRL.
Off: Disables Parental CTRL.

On-Screen Display Menu

V-Chip

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. "V-Chip" and "Status" will not be selectable from the menu if you do not first configure your secret number.

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

NOTE
- The setting automatically enters "Block" for any ratings below your selection.
- If Status is not set to "On", the configuration settings will not work.

■ MPAA (Voluntary movie rating system)
Example

Press ▲/▼ to adjust the item to your desired position. "🔒" indicates the item is blocked. Press **MENU** to exit.

G: General audiences. All ages admitted.
PG: Parental guidance suggested. Some material may not be suitable for children.
PG-13: Parents strongly cautioned. Some material may be inappropriate for children under 13.
R: Restricted. Under 17 requires accompanying parent or adult guardian (age varies in some jurisdictions).
NC-17: No one 17 and under admitted.
X: X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.

NOTE
- Voluntary movie rating system only uses an age-based rating.

■ TV Parental Guidelines

Example

Press ▲/▼ to adjust the item to your desired position. "🔒" indicates the item is blocked. Press **MENU** to exit.

Suggested age
TV-Y: All children.
TV-Y7: Directed to older children.
TV-G: General audience.
TV-PG: Parental Guidance suggested.
TV-14: Parents strongly cautioned.
TV-MA: Mature audience only.

Example
When setting an individual content-based rating item:
1. Press ▶ or **ENTER** to access blocked content items from the currently selected age-based rating item.
2. Press ▲/▼ to select an individual item, and then press **ENTER** to unblock it ("🔒" is removed). Repeat the same steps for the other items.
3. Press ◀ or **RETURN** to register after all individual content rating items are set.

Content
FV: Fantasy violence.
V: Violence.
S: Sexual situation.
L: Adult language.
D: Sexually suggestive dialog.

Rating		Content				
		FV	V	S	L	D
Suggested age	TV-Y	⊠	⊠	⊠	⊠	⊠
	TV-Y7	⤫	⊠	⊠	⊠	⊠
	TV-G		⊠	⊠	⊠	⊠
	TV-PG		⤫	⤫	⤫	⤫
	TV-14		⤫	⤫	⤫	⤫
	TV-MA		⤫	⤫	⤫	

⊠ : The content rating can be set, but this rating is not normally broadcast by TV stations.

⤫ : Content rating can be set.

Canadian Rating Systems (Canadian English ratings and Canadian French ratings)
- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

■ Canadian English Ratings

Example
Press ▲/▼ to adjust the item to your desired position. "🔒" indicates the item is blocked. Press **MENU** to exit.

E: Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.
C: Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.
C8+: Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.
G: General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.
PG: Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.
14+: Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.
18+: Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.
■ Canadian French Ratings

Example
Press ▲/▼ to adjust the item to your desired position. "🔒" indicates the item is blocked. Press **MENU** to exit.

E: Exempt programming.
G: General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.
8ans+: General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.
13ans+: Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.
16ans+: Over 16 years: Could contain frequent violent scenes and intense violence.
18ans+: Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.

■ How to temporarily release the V-CHIP BLOCK

When the V-CHIP BLOCK is working and censors a broadcast, "V-CHIP HAS BEEN ACTIVATED." displays.

1 Press **ENTER** while the V-CHIP is working, and then the secret number setting menu displays.

2 Input the 4-digit secret number by using **0–9**. At this time V-CHIP BLOCK temporarily releases.

■ Reactivating the temporarily released V-CHIP BLOCK

You can reactivate the temporarily released V-CHIP BLOCK as shown below.

- Select "Status" setting from the Parental CTRL menu to reactivate BLOCK. (See page 37.)
- Select "V-Chip" setting ("MPAA", "TV Guidelines", "Can. English Ratings" or "Can. French Ratings") from the Parental CTRL to reactivate BLOCK. (See pages 38 to 39.)
- Switch off the TV power.

NOTE
- Performing any of the three above will activate the V-CHIP BLOCK.

Software Update

Netflix Help

VUDU Help

1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Information".

2 Press ▲/▼ to select a specific adjustment item, and then press **ENTER**.

3 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

4 Press **MENU** to exit.

Identification

The current version of the TV software is displayed.

Digital Caption Info. (Digital Caption Information)

This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

NOTE
• This list is not displayed for analog broadcasts or external input audio/video.
• This information is not included in CC1, CC2, Text1, or Text2, and is not displayed in a list.

Software Update

This is used to upgrade the system software to enhance the TV functions.
1 Press **MENU** to display MENU screen, and then press ◄/► to select "Information".

2 Press ▲/▼ to select "Software Update", and then press **ENTER**.
• If you have already set the Secret No., go to step 3.

Example

Information   Menu

Information

Identification

Digital Caption Info.

Software Update

3 Input the 4-digit secret number by using **0**-**9**.

Software Update
Enter your Secret No.
– – – –
4 Press ▲/▼ to select "Manual Update" or "Auto Update Setting", and then press **ENTER**.

• The operations thereafter vary depending on the setting.

Manual Update

Select the method for manually updating the software.
USB Update: Updates the software using a USB memory device containing the update file. (See pages 41 to 42.)
Network Update: Downloads the update file via the network and then updates the software. (See page 41.)

NOTE
• A broadband connection and Internet Setup are required to update the software using the network. (See pages 70 to 72.)
• It may take time to access and download the update depending on the Internet connection and other factors.

Auto Update Setting

When the TV is on, or when an Internet application is being accessed, this function enables the TV to connect to the network and check for updates automatically.
Yes: Enables Auto Update Setting.
No: Disables Auto Update Setting.

When an update is available, a message is displayed. Press ◄/► to select "Yes", and then press **ENTER** to display the download screen. (See page 41.)

Yes   No
NOTE
• This function does not work when a broadband connection or Internet Setup is not available.
• A message may also be displayed when an application is running.
The message varies depending on the application.

■ Updating the Software via the Network

1 Press ▲/▼ on the Manual Update screen to select "Network Update", and then press **ENTER**.
- The TV connects to the network and checks for updates.
- To cancel, press **ENTER**.

> Connecting to Internet..
> Checking for the latest software version..
>
> Accessing..
>
> Abort
2 The current version of the TV and the latest version of software are displayed. To update the TV software, select "Yes", and then press **ENTER**.

> Latest software version has been found.
> A software update is available.
> Proceed with update?
> Current Version
> XXXXXXXX
> Latest Version
> XXXXXXXX
> Estimated Update Time
> XX
> Update time may change depending on the network environment
>
> Yes   No
- When a server connection cannot be established or an update is not available, a message is displayed.
  If a server connection cannot be established, check the broadband connection and Internet Setup.

> Cannot reach the server.
> Check the network settings and try again.
>
> OK

> The TV does not need to be updated.
>
> OK
3 After the update file is downloaded, the software update process begins.

> Downloading the latest software..
> Update Version
> XXXXXXXX
>
> 30%
> Abort

↓

> Updating to the latest software..
> Update Version
> XXXXXXXX
>
> 50%
> Remote control operation is disabled during update process.
> ⚠ Do not unplug AC cord.
CAUTION

- **Do not unplug the AC cord while the software is being updated.**

4 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
A screen indicating that the update is completed is displayed. 4 seconds later, the TV restarts automatically.

> Software update is complete.
>
> Update Version
> XXXXXXXX
- If the software was not updated successfully, check the broadband connection and Internet Setup, and then try updating the software again.

> Failed to complete update.
> Please retry from Software Update menu.
>
> OK
■ Updating the Software with a USB Memory Device

To check for the availability of a software update, visit http://www.sharpusa.com/products/support/. If you have any questions, please
call 1-800-BE-SHARP (800-237-4277).

CAUTION

- **Do not remove the USB memory device or unplug the AC cord while the software is being updated.**
- **Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.**

1 Insert the USB memory device with the update file into the USB 1 or USB 2 terminal on the TV.

- When you update the software, use only one USB terminal. Either USB 1 or USB 2 is usable.
2 Press ▲/▼ on the Manual Update screen to select "USB Update", and then press **ENTER**.

3 Press **ENTER** to start checking the data in the USB memory device.

> Insert the USB memory device
> containing the software update file.
>
> OK
4 During the data checking, "Checking" blinks.

> Now checking the data
> in the USB memory device.
>
> Checking
- The current version of the TV software and the version of the update file on the USB memory device are displayed.

Example

> Software update file is detected
> in the USB memory device.
> Start update?
>
> Current Version　　　　: UXXXXXX1
> Update Version　　　　　: UXXXXXX2
>
> Yes　　　　　　　No

- If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed. Check the file on the USB memory device, and then reinsert the USB memory device correctly.

> Software update file is not detected in the USB memory device.
> Confirm that you have transferred the file
> to the USB memory device and retry software update.
>
> OK

> There is more than one software file in the USB memory device.
> Confirm that only the software update file is
> in the USB memory device.
>
> OK
5 To update the TV software with the update file, select "Yes", and then press **ENTER**.
> Software update file is detected
> in the USB memory device.
> Start update?
>
> Current Version　　　　: UXXXXXX1
> Update Version　　　　　: UXXXXXX2
>
> Yes　　　　　　　No

Example

> Now updating
> Update Version　　　　　: UXXXXXX2
>
> ▯▯▯▯▯▯　　　　　　30%
>
> Remote Control operation is disabled during Update process.
>
> ⚠ Do not unplug AC cord.

CAUTION

- **Do not remove the USB memory device or unplug the AC cord while the software is being updated.**

6 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
 After this screen is displayed, the TV automatically turns off and then turns on again.

Example

> Software update is complete.
>
> Update Version　　　　　: UXXXXXX2
>
> OK
- If the update has failed, check the file in the USB memory device and try Software Update again.

> Failed to complete update.
> Retry Software Update.
> If system Update fails again,
> contact the customer service center.
>
> Update Version　　　　　: UXXXXXX2
>
> OK
7 After the screen shown below is displayed, press **ENTER**.

> System software was
> successfully updated.
> Remove the USB memory device.
>
> OK

8 Remove the USB memory device.

Enjoying 3D Image Viewing
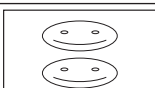

You can use special 3D Glasses to watch 3D-supported images on this TV.
- You can enjoy 3D movies on this TV by viewing the movie through SHARP 3D Glasses supplied with the TV or through optional 3D Glasses sold separately.
- To produce 3D images, liquid crystal shutters in the 3D Glasses alternately open and close imperceptibly fast to exactly match alternating left and right video images displayed by the TV.
- Not all consumers can experience and enjoy 3DTV. Some people suffer from stereo blindness which prevents them from perceiving the intended depth of 3D entertainment. Also, some people who watch 3D programming may experience initial feelings of motion sickness as they adjust to the picture. Others may experience headaches, eye fatigue or motion sickness. Some viewers might also experience epileptic seizures. Like a roller coaster, the experience is not for everyone.

CAUTION

- **The 3D Glasses are precision equipment. Handle them with care.**
- **Improper use of the 3D Glasses or failure to follow these instructions can result in eye strain.**
- **If you experience dizziness, nausea, or other discomfort while viewing 3D images, immediately discontinue use of the 3D Glasses. Using the 3DTV with incompatible 3D broadcasts or software can make images appear blurry or create overlapping images.**
- **When viewing 3D images continuously, be sure to take a break periodically to prevent eye strain.**
- **If you are nearsighted or farsighted or have astigmatism or a different level of eyesight between the left and right eyes, you should take the necessary steps, such as wearing eyeglasses, to correct your eyesight before viewing 3D images. The 3D Glasses can be worn over eyeglasses.**
- **When viewing 3D images, keep the 3D Glasses horizontally level with the TV screen. If you tilt the 3D Glasses with respect to the TV screen, the images viewed by the left and right eyes may appear significantly different or images may appear overlapping.**
- **View 3D images at the appropriate distance from the TV screen. The recommended distance is three times the effective height of the TV screen.**
  Examples of recommended distances
  70-inch screen: Approx. 8.5 ft (2.6 m)
  60-inch screen: Approx. 7.2 ft (2.2 m)
  Viewing should not be done closer than the recommended distance.
- **Be careful of your surroundings when viewing 3D images. When you view 3D images, objects may appear closer or farther than they are. This may cause you to misjudge the distance and possibly result in injury if you accidentally hit the screen or surrounding objects.**
- **The 3D Glasses are not recommended for people aged less than 6.**
- **When children are viewing 3D images, be sure a parent or guardian is present. Monitor children viewing 3D images, and if they show signs of discomfort, immediately discontinue use of the 3D Glasses.**
- **People with a known history of photosensitivity and people with heart problems or poor health should not use the 3D Glasses. This can worsen existing health conditions.**
- **Do not use the 3D Glasses for other purposes (such as general eyeglasses, sunglasses, or protective goggles).**
- **Do not use the 3D function or 3D Glasses while walking or moving around. This may result in injuries due to running into objects, tripping, and/or falling.**
- **When using the 3D Glasses, take care not to accidentally strike the TV screen or other people. Viewing 3D images may cause you to misjudge the distance to the TV screen and accidentally strike the screen, resulting in possible injury.**
- **It is recommended that you do not view 3D images if you are sleep deprived or if you have been drinking alcohol.**

Display Methods for 3D and 2D Images

|	Display method	Example display	Description
3D mode (using the 3D Glasses)	2D → 3D		• Converts normal 2D images into 3D images.
	Side by Side		• Creates 3D images from 3D images displayed side by side. The image is split into a left and right image, and then the images are stretched and displayed sequentially to create a 3D image.
	Top and Bottom		• Creates 3D images from 3D images displayed on the top and bottom. The image is split into a top and bottom image, and then the images are stretched and displayed sequentially to create a 3D image.
2D mode (without using the 3D Glasses)	Side by Side → 2D		• Creates 2D images from 3D images displayed side by side. Only the left image is stretched and displayed. The image does not appear in 3D.
	Top and Bottom → 2D		• Creates 2D images from 3D images displayed on the top and bottom. Only the top image is stretched and displayed. The image does not appear in 3D.

3D Glasses (for LC-70C8470U/LC-60C8470U)

Supplied Accessories for 3D Glasses

Make sure the following accessories are provided with the 3D Glasses. Two sets of 3D Glasses are provided.

| 3D Glasses (×2) Pages 44 to 48 | Nose pad *1 (small ×2, large ×2) Page 45 | USB cable*2 (×2) Page 45 | Glasses case (×2) | Cleaning cloth (×2) |

*1 Use the 3D Glasses nose pad as needed. The small nose pad is already attached.
*2 The supplied USB cable is a dedicated cable for the 3D Glasses. It does not operate when connecting with other USB devices.
  Use the supplied USB cable for recharging. When power is supplied to the glasses, use a commercially available USB cable.

NOTE

• The illustrations above are for explanation purposes and may vary slightly from the actual accessories.

Part Names
1 Infrared receiver

Receives an infrared signal sent from the TV. The 3D Glasses turn off automatically after 10 minutes if no signal is received from the TV.

2 USB terminal

This terminal is for recharging and supplying power.

3 3D/2D/OFF switch

This button switches between 2D, 3D and OFF modes.

4 LED light

Blinks once every second when the battery power is low.

5 Nose pad mount

The dedicated nose pad can be mounted here.

NOTE

• Do not soil or apply stickers or block the infrared receiver. Doing so may block signals from the TV and prevent the 3D Glasses from working correctly.
• Interference from other infrared communications equipment may prevent you from viewing 3D images correctly.

Attaching the Nose Pad

Attach either of the supplied nose pads as needed (such as when the glasses do not fit properly). The glasses come with a large and small nose pad.
Attaching the nose pad   Removing the nose pad

Using the 3D Glasses
Turning the Power On/Off

Slide the switch to **2D** or **3D** to turn on the power. Slide the switch to **OFF** to turn off the power.

NOTE

• When the battery power is low, the LED light blinks once every second after the power is turned on.

Switching to 3D and 2D Mode

When viewing 3D images, you can slide the switch between 2D and 3D modes. This is useful when several people are viewing 3D images on the same TV with some people wanting to watch in 3D and some people wanting to watch in 2D.

■ **Viewing 2D images**

When you slide the switch to **2D** while viewing 3D images, the 3D images switch to 2D images.

■ **Viewing 3D images**

When you slide the switch to **3D** while viewing 2D images, the 2D images switch to 3D images.

Usage Range of the 3D Glasses

The 3D Glasses can be used by receiving an infrared signal sent from the TV.
The 3D Glasses turn off automatically after 10 minutes if no signal is received from the TV.

■ **Operating range**

From directly in front of the 3D infrared emitter on the TV: approx.17 ft (5 m)
(within approx. 30° horizontally and 20° vertically)

Recharging the 3D Glasses

When the battery power is low, the LED light blinks one time per second. If the 3D Glasses battery is low, you can recharge the 3D Glasses by connecting the supplied USB cable to the TV and the USB terminal on the 3D Glasses.

1 Turn off the TV, and then slide the switch on the 3D Glasses to **OFF**.

2 Connect the cable shown at step 3 of this procedure and then turn on the TV. Make sure the cable is connected before turning on the TV.

  • The LED light blinks approximately every two seconds, and then starts recharging.
  • When the LED light goes off, the recharge is complete. It takes approximately 90 minutes to complete the recharge.
  • Insert the USB cable again if the LED light blinks on and off once every 0.5 seconds. If it still does not respond, inquire with a retail dealer or Sharp Authorized Service Center.

3 After the recharge has completed, turn off the TV, and then remove the USB cable from the 3D Glasses.

① USB cable (supplied accessory)
② USB terminal
CAUTION

• **Do not recharge while wearing the 3D Glasses.**

NOTE

• Be sure to turn on the TV when you recharge the 3D Glasses. If the TV is turned off, the 3D Glasses may not recharge.
• When you recharge the 3D Glasses, only connect the supplied USB cable to a USB terminal on the TV.
• The battery will not recharge during usage with the USB cable connected. The 3D Glasses battery will not be recharged if the switch is set to **2D** or **3D**. To recharge the battery, set the switch to **OFF**.
• Recharge the battery within the operating temperature (50°F–104°F/10°C–40°C). The battery may not be able to recharge outside of the operating temperature.

Using the 3D Glasses with Power Supply

If you slide the switch to **3D** or **2D** after taking steps 1 and 2 in **Recharging the 3D Glasses** (see page 45), you will be able to supply power to the 3D Glasses while using the glasses (battery will not be recharged).

NOTE

- Do not move around while wearing the 3D Glasses. Doing so may result in getting your feet caught in the USB cable, the TV falling or other accidents that may cause injury.
- When you supply power to the 3D Glasses, only connect a USB cable (commercially available) to a USB terminal on the TV.
- When you use the USB cable connecting the 3D Glasses, be careful not to get your feet caught in the USB cable. It may result in falling or other accidents that may cause injury.

Removing the Battery for Recycling

The following instruction and procedure is provided solely as a guide for the safe removal of the Li-ion battery for proper disposal. **This product is not repairable. Do not attempt to replace the battery; once the 3D Glasses are taken apart, they cannot be reassembled or used again.**

- Please take special care in handling small parts such as screws specially around children that can accidentally swallow them.
- Be very careful in handling the battery to prevent it from leaking.
- Do not attempt to dismantle or puncture the battery.
- Do not use this battery for any other purpose. Recycle properly after removing it from the 3D Glasses.

If you have any question regarding proper recycling please call 1-800-822-8837 (see page 51 for more details).

1 Pull out the nose pad with your fingers.
2 Remove the five screws with a Phillips screwdriver (commercially available).
3 Pull the front casing outward with your fingers while pulling the base of the right temple arm inward with your fingers ((A)→(B)).
① Front casing
② Base
③ Right temple arm

4 Cut off the three cables of the rechargeable battery unit one by one with a pair of scissors.

- There is the rechargeable battery unit inside ② on the right temple arm shown below.
- Insulate the tip of the removed rechargeable battery cables, with material such as electrical tape, be sure to insulate all three battery cable tips to prevent the conductor wires from touching each other.
① Right temple arm
② Rechargeable battery unit
③ Rear casing
5 Pull out the entire rechargeable battery unit and remove it from the rear casing.
NOTE

- Used batteries should be handled in accordance with local laws and regulations.

Viewing 3D Images
NOTE

• The TV screen may temporarily become black when the TV is trying to detect a 3D image signal and when switching from 3D to 2D mode.

Receiving a 3D Image Signal That Can Be Detected Automatically

The image signal may contain a 3D identification signal. You can enable the TV to automatically detect the 3D image type by selecting "System Options" > "3D Setup" > "3D Auto Change" on the TV. (See page 49.)

1 When "3D Auto Change" is set to "Mode 1" or "Mode 2"

• The 3D image type is detected automatically and the appropriate 3D image is displayed.
When "3D Auto Change" is set to "Off"

• The following message is displayed. Press **3D**.
• Press ◄/► to select the "Yes", and then press **ENTER**.

2 Turn on the 3D Glasses and place them on your head.

3 You can now view 3D images.

Switching from 3D to 2D Mode

4 Press **3D** during the 3D mode.
Select "Yes" and press **ENTER** to switch to 2D mode.

• Take off the 3D Glasses and turn off the power.

Ending 3D Image Viewing

5 Take off the 3D Glasses and turn off the power.

NOTE

• If the input signal switches to 2D, 2D images are displayed automatically.
• 3D mode is canceled automatically when the setting is changed, input selection is changed, or the power is turned off.

Receiving a 3D Image Signal That Cannot Be Detected Automatically

1 Press **3D**.

• A screen appears prompting you to select between 3D and 2D image viewing.

2 Press ◄/► to select "3D" or "2D", and then press **ENTER**.

• **To view in 3D mode:** Select "3D", and then go to step 3.
• **To view in 2D mode:** Select "2D", and then go to step 6.

3 Press ◄/► to select the 3D signal type ("2D→3D", "Side by Side" or "Top and Bottom") and then press **ENTER**.
• If you select the same system as that of the input signal, 3D images are displayed.

4 Turn on the 3D Glasses and place them on your head.

5 You can now view 3D images.

Switching from 3D to 2D Mode

6 Press ◄/► to select the 2D signal type ("Side by Side" or "Top and Bottom") and then press **ENTER**.

Side by Side | Top and Bottom

Select when two images are displayed next to each other.
- If you select the same system as that of the input signal, 2D images are displayed.
- Take off the 3D Glasses and turn off the power.

Ending 3D Image Viewing

7 Take off the 3D Glasses and turn off the power.

Watching 2D Images in 3D

You can convert normal 2D images into 3D images.
1 Press **3D**.
2 Press ◄/► to select "2D→3D convert", and then press **ENTER**.
3 Turn on the 3D Glasses and place them on your head.

NOTE
- The TV returns to 2D mode after 1 hour has passed.

Switching to the Previous Mode

You can switch back to the previous mode by pressing **3D**.
1 Press **3D**.
- A confirmation screen is displayed.

| Yes | No |

2 Select "Yes" and then press **ENTER**.
- The TV returns to the previous mode.

3D Menu
Pressing **3D** in 3D mode displays the 3D menu. Press the colored buttons to make the necessary settings.
A: 3D Brightness Boost (for LC-70C8470U/LC-60C8470U)
B: 3D Surround (See page 31.)
   The surround mode changes each time you press **B**.
C: 2D→3D Convert Effect (See page 49.)
D: 3D Setup (See page 49.)

Configuring the TV Settings to Enhance 3D Image Viewing
Example

1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Picture Settings".

2 Press ▲/▼ to select a specific adjustment item, and then press **ENTER**.

3 Press ▲/▼ (or ◄/►) to select the desired item, and then press **ENTER**.

4 Press **MENU** to exit.

NOTE
- Which items can be selected/adjusted differs depending on whether the TV is in 2D mode or in 3D mode.

AV MODE

The audio and video settings can be changed to suit the program or input content being watched.
   STANDARD(3D): For a highly defined image in a normal lighting.
   MOVIE(3D): For a movie.
   GAME(3D): Lowers image brightness for easier viewing.

NOTE
- You can select AV MODE by pressing **AV MODE** on the remote control unit.

3D Brightness Boost (for LC-70C8470U/LC-60C8470U)

You can adjust the backlight of the TV for 3D image viewing.
   High/Middle/Low: Select a desired level of 3D Brightness Boost.

NOTE
- When "High" or "Low" is selected, "OPC", "Backlight" and "Range of OPC" are not available.

3D Setup

You can make various settings to enhance 3D image viewing.
Example

1 Press **MENU** to display the MENU screen, and then press ◄/► to select "System Options".

2 Press ▲/▼ to select "3D Setup", and then press **ENTER**.

3 Press ▲/▼ to select a specific item, and then press **ENTER**.

4 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

5 Press **MENU** to exit.

3D Auto Change

This setting can be used to switch to 3D mode automatically when a 3D identification signal is detected.

Set the desired mode according to the type of media you are viewing, such as video from a connected device or video from an internet application.

Mode 1: 3D mode is selected automatically when a 3D signal is detected while viewing video from a VOD service or HDMI-connected equipment.

Mode 2: 3D mode is selected automatically when, in addition to detecting a 3D signal while viewing video from a VOD service or HDMI-connected equipment, a video pattern with "Side by Side" or "Top and Bottom" format is also detected.

Off: Auto change is not performed.

> NOTE
> • This function does not work when the input source is Composite, Component, RGB or Analog/Digital tuner.

3D Depth Control

Select the method for adjusting the 3D depth.

Auto: Adjusts the depth automatically.

Manual: Manually adjusts the depth using the function "Depth Change".

> NOTE
> • This function is only available when the input signal is 3D.
> • This function is not displayed depending on the type of 3D signal. (For LC-70C7450U/LC-60C7450U)

Depth Change

Adjusts the depth manually. "0" is the level where no adjustment is made.

> NOTE
> • This function is only available when "3D Depth Control" is "Manual".

2D→3D Convert Effect

You can adjust the 3D effect when converting images from 2D mode to 3D mode.

Select a desired level of convert effect from +1 to +16.

> NOTE
> • This function is only available when converting 2D images to 3D images.
> • When you use this function, image conversion on the TV will result in some differences in the original images and how they appear.
> • 2D images that have been converted to 3D images may be viewed only for personal use.

Viewing Time Info

This displays the elapsed time of 3D image viewing.

Yes: Displays the elapsed viewing time on the screen every hour.

No: Does not display the elapsed viewing time.

3D Test

This displays 3D images for testing the 3D operation.

Clicking "Start" on the screen plays back 3D test images.

• If you press **RETURN** during playback, the previous screen will be displayed.

3D Glasses Control

To enable this function, set "TV Location" to "Store".

Selecting "Yes" prevents the 3D Glasses from receiving 3D signals from other TVs.

Enjoying 3D Image Viewing

NOTE

• Appropriate 3D Glasses are required to view 3D images. Purchase 3D Glasses for use with Sharp brand 3D LCD TVs.

■ 3D Glasses lenses
• Do not apply pressure to the lenses of the 3D Glasses. Also, do not drop or bend the 3D Glasses.
• Do not scratch the surface of the lenses of the 3D Glasses with a pointed instrument or other object. Doing so may damage the 3D Glasses and reduce the quality of the 3D image.
• Use only the cloth provided with the optional 3D Glasses to clean the lenses.

■ 3D Glasses infrared receiver
• Do not allow the infrared receiver to become dirty, and do not attach stickers to or otherwise cover the infrared receiver. Doing so may prevent the receiver from operating normally.
• If the 3D Glasses are affected by other infrared data communication equipment, the 3D images may not be displayed correctly.

■ Caution during viewing
• Do not use devices that emit strong electromagnetic waves (such as cellular phones or wireless transceivers) near the 3D Glasses. Doing so may cause the 3D Glasses to malfunction.
• The 3D Glasses cannot operate fully at extreme high or low temperatures. Please use them within the specified usage temperature range.
• If the 3D Glasses are used in a room with fluorescent lighting (60 Hz), the light within the room may appear to flicker. In this case, either darken or turn off the fluorescent lights when using the 3D Glasses.
• Wear the 3D Glasses correctly. 3D images will not be correctly visible if the 3D Glasses are worn upside down or back-to-front.
• Other displays (such as computer screens, digital clocks, and calculators) may appear dark and difficult to view while wearing the 3D Glasses. Do not wear the 3D Glasses when watching anything other than 3D images.
• If you lie on your side while watching the TV with 3D Glasses, the picture may look dark or may not be visible.
• Be sure to stay within the viewing angle and optimum TV viewing distance when watching 3D images. Otherwise, you may not be able to enjoy the full 3D effect.
• The 3D Glasses may not work properly if there is any other 3D product or electronic devices turned on near the glasses or TV. If this occurs, turn off the other 3D product or electronic devices or keep the devices as far away as possible from the 3D Glasses.
• Stop using the 3D Glasses in any of the following situations:
  – When images consistently appear doubled while you are wearing the 3D Glasses
  – When you have difficulty perceiving the 3D effect
• If the 3D Glasses are faulty or damaged, stop using them immediately. Continued use of the 3D Glasses may cause eye fatigue, headaches and illness.
• If you have any abnormal skin reaction, stop using the 3D Glasses. In very rare instances, such reactions may be due to an allergic reaction to the coating or materials used.
• If your nose or temples become red or you experience any pain or itchiness, stop using the 3D Glasses. Pressure caused by long periods of use may lead to such reactions and may result in skin irritation.

Specifications – 3D Glasses

Product	3D Glasses
Model number	AN-3DG20
Lens type	Liquid crystal shutter
Power supply	DC5V (supplied by a USB terminal of a Sharp LCD TV)
Battery	Lithium ion polymer rechargeable battery (DC3.7V 70mAh)
Battery life*	Approx. 30 hours of continuous use
Charging time	90 minutes
Dimensions (W x H x D)	6 $^{15}/_{16}$ × 1 $^{23}/_{32}$ × 6 $^{13}/_{16}$ inch (175.5 × 43.0 × 173.0 mm)
Weight	Approx. 0.1 lbs./40.0 g (including the lithium ion polymer rechargeable battery)
Operating temperature	50°F to 104°F (10°C to 40°C) (The 3D Glasses cannot operate fully at extreme high or low temperatures. Please use them within the specified usage temperature range.)

* Battery life: A rechargeable battery becomes depleted from repetitive usage, and the battery life gradually becomes shorter (the battery life varies with your usage environment). The above is the value at the factory default state and quality is not guaranteed by the value.
The product serial number is displayed on the 3D Glasses as indicated in the illustration on the left. The first four digits represent the product color and the date of manufacture.

Example: Black colored glasses manufactured on April 10, 2011

This symbol attached on the product and its individual pack refers to recycling in the U.S. and Canada.

The RBRC™ Battery Recycling Seal on the Lithium-ion (Li-ion) batteries/battery packs indicates SHARP is voluntarily participating in an industry program to collect and recycle these batteries/battery packs at the end of their useful life, when taken out of service in the United States or Canada. The RBRC™ program provides a convenient alternative to placing Li-ion batteries into the trash or municipal waste stream, which is illegal in some areas. Please call 1-800-822-8837 for information on Li-ion battery recycling in your area. SHARP's involvement in this program is part our commitment to preserving our environment and conserving our natural resources. (RBRC™ is a trademark of the Rechargeable Battery Recycling Corporation.)

NOTE

• Please contact your local authority for the correct method of disposal of this product and/or packing.

Enjoying Photo/Music/Video Playback

You can connect the TV to a USB memory device, USB hard drive or home network (DLNA) server to enjoy viewing pictures, listening to music, and watching videos.

NOTE

- Depending on the USB memory device/USB hard drive/home network (DLNA) server, the TV may not be able to recognize the recorded data.
- It may take time to read the recorded data if the USB memory device/USB hard drive/home network (DLNA) server contains many files or folders.
- Use only alphanumeric characters for naming files.
- File names over 80 characters (may vary depending on character set) may not be displayed.

Connecting a USB Memory Device/USB Hard Drive

Insert the USB memory device with recorded photos, music or videos into the USB 1 or USB 2 terminal on the TV.
- If USB memory devices are inserted into both terminals, the USB 1 terminal has priority.
- When connecting a USB hard drive, be sure to use a hard drive with an AC adapter.
- Do not remove a USB memory device or memory card from the TV while transferring files, using the slide show function, or switching screens, or before you exit "USB" from the INPUT list.
- Do not insert and remove a USB memory device/USB hard drive to and from the TV repeatedly.
- When using a card reader, be sure to insert Memory first before using the card reader.
- USB input cannot be selected when displaying the browser. Close the browser first.

CAUTION

- **Do not use a USB extension cable when connecting a USB memory device to the USB terminal on the TV.**
- **Using a USB extension cable with the USB memory device may prevent the TV from performing correctly.**

Connecting a Home Network (DLNA) Server

Connect the TV to the home network (DLNA) server using an ETHERNET cable.
- You can also connect a Home Network (DLNA) server by using a wireless LAN.

Home network (DLNA) server   ETHERNET cable   Router
NOTE

- Do not disconnect a home network (DLNA) server from the TV while transferring files, when a screen is switching to another or before you exit "Home Network (DLNA)" from the INPUT list.
- Do not connect and disconnect a home network (DLNA) server from the TV repeatedly.

Selecting the Folders to Play Back
- To play back data on a USB memory device, insert the USB memory device on the TV. USB mode is selected automatically. (Go to step 2)
- Use the following procedure to switch back to USB mode after switching from USB mode to another mode.

1 Select "USB" or "Home Network (DLNA)" from INPUT list screen.

2 Press **D**.

3 Press ▲/▼ (or ◄/►) to select the drive/server where you want to find your files, and then press **ENTER**.
   - For USB mode, select the drive.
   - When in DLNA mode, select the server.

4 Press ◄/► to select "Photo", "Music" or "Video", and then press **ENTER**.

Example
5 Press ◄/► to select the desired folder, and then press **ENTER**.

NOTE
- The Media screen can be displayed even by using the application window. To display the application window, press **SmartCentral**. (See page 24.)
- You cannot switch the input mode if a USB memory device is not connected.
- You do not need to select the drive/server in step 2 when there is only one drive in the connected USB memory device or there is only one home network (DLNA) server connected to the TV.
- 16 is the maximum number of USB drives and 10 is the maximum number of home network (DLNA) servers that can be displayed.
- If the TV is turned off and then on again, the number assigned to the USB drive may change.
- "VIEW MODE" is fixed during the Photo or Music mode. During "Video mode", you can select "Auto" or "Original".
- The key guide display disappears automatically after a particular time has elapsed. To display the key guide display again, press **DISPLAY**.

USB Device Compatibility

USB device	USB Memory, USB card reader (Mass Storage class), USB hard drive
File system	FAT/FAT32/NTFS (USB hard drive only)
Photo file format	JPEG (.jpg) (DCF2.0 compliant) Multi-Picture Format (.mpo) (CIPA DC-007 Compliant) MP Type : Multi view individually image (stereoscopic view)
Music file format	MP3 (.mp3) Bitrate: 32k, 40k, 48k, 56k, 64k, 80k, 96k, 112k, 128k, 160k, 192k, 224k, 256k, 320kbps Sampling frequency: 32k, 44.1k, 48kHz

Video file format			
File extension	Container	Video	Audio
.avi	AVI	DivX 3.11/4.x/5.1/6.0 XviD H.264 MPEG4 Motion Jpeg	MP3 Dolby Digital LPCM ADPCM
.mkv	MKV	DivX 3.11/4.x/5.1/6.0 XviD H.264 MPEG4	MP3 Dolby Digital LPCM ADPCM
.asf .wmv	ASF	DivX 3.11/4.x/5.1/6.0 XviD MPEG4 VC-1 Windows Media Video v9	MP3 Dolby Digital LPCM WMA
.mp4 .mov .3gp	MP4 (SMP4)	H.264 MPEG4 Motion Jpeg	MP3 AAC
.vro .mpg .mpeg	PS	MPEG2 MPEG1	Dolby Digital MPEG LPCM

NOTE
- Progressive format jpeg files are not supported.
- USB 1.1 devices may not be played properly.
- Operation using USB hubs is not guaranteed.
- Some video file formats may not be played depending on the file.
- Some images may not be displayed in the appropriate aspect ratio depending on the file format.

Home Network (DLNA) Server Compatibility

Photo file format	JPEG
Music file format	LPCM, MP3
Video file format	MPEG2-PS, MPEG2-TS, WMV, ASF, MP4, MOV, AVI

NOTE
- Progressive format jpeg files are not supported.
- Some video file formats may not be played depending on the file or the server.
- WMV, ASF, MP4, MOV and AVI are non-DLNA contents.

Playing Back Files on a USB Memory Device/Home Network (DLNA) Server

Photo Mode

Viewing Thumbnails

Example
This screen image is for the USB mode. It may be slightly different in the Home network (DLNA) mode.

Buttons for thumbnail operations

Buttons	Description
▲/▼/◀/▶	Select a desired item.
ENTER	When selecting a folder icon: Enter this directory. When selecting a photo thumbnail: Enlarge the photo.
RETURN	Return to the previous process.
A (red)	USB mode: Select the images to be displayed. Press this button to add or remove a checkmark. ---- Home Network (DLNA) mode: Display the Media screen.
B (green)	Display the music list screen. You can select the background music to be played for the slide show.
C (blue)*	Start the slide show.
D (yellow)	Display the USB MENU/Home Network (DLNA) Menu screen.

* This function is available only for the USB mode.

NOTE

- When there are invalid photo files, the **X** mark will be displayed for the file. (USB mode only.)
- The icon **3D** appears on the thumbnails of 3D images. If you do not switch to 3D mode for the 3D images, they will be displayed in 2D. (USB mode only.)
- You can see the file name, shooting date, file size and pixel size of the selected photo in the lower-left corner of the screen (shooting date is only available in the EXIF file format).

Viewing Individual Photos

The photo selected on the thumbnail selection screen is displayed.

Buttons for individual display operation

Buttons	Description
◀/▶	Go to the previous/next photo in the same directory.
RETURN	Return to the thumbnail selection screen.
3D	Switches between 2D and 3D modes.
A (red)	Rotate the photo by 90 degrees to the left.
B (green)	Rotate the photo by 90 degrees to the right.

NOTE

- Rotating photos only applies to the temporarily selected item and this setting is not saved.
- In 3D mode, you cannot rotate the photos.
- The key guide display disappears automatically after a particular time has elapsed. To display the key guide display again, press **DISPLAY**.

Slide Show

The photos displayed on the thumbnail selection screen are displayed as a slide show.

Buttons for slide show operation

Buttons	Description
RETURN	Return to the thumbnail selection screen.
3D	Switches between 2D and 3D modes.
D (yellow)	Display the USB MENU/Home Network (DLNA) Menu screen.

NOTE

- The selected BGM is played repeatedly.
- The slide show continues until you press **RETURN**.
- For setting the slide show speed, select "Select Slide Show Interval" on the USB MENU/Home Network (DLNA) Menu screen.
- The key guide display disappears automatically after a particular time has elapsed. To display the key guide display again, press **DISPLAY**.

USB Menu

On the menu to be displayed in USB mode, use ▲/▼ to select an item and make settings to your preferences.

Example

USB MENU	
3D Display	[On]
Select Slide Show Interval	[10sec]
Select Slide Show BGM	
Set All Slide Show Image	
Reset All Slide Show Image	
Remove USB Device	

■ 3D Display

You can view photos in 3D.
> **On:** Displays the photos in 3D.
> **Off:** Normal viewing mode.

NOTE

- You can select "3D display" from "USB MENU" only when the thumbnails screen for the photo mode in USB mode is displayed on the screen.
- Depending on the file, the photos may not be displayed in 3D.

■ Select Slide Show Interval

Specify the length of time before the next image appears.
Press ▲/▼ to select the desired length of the time, and then press **ENTER**.
> **5sec/10sec/30sec/60sec**

NOTE

- For DLNA mode, follow the same procedure.
- Depending on the photo files, the length of the slide show interval may differ from the selected interval time.

■ Select Slide Show BGM

The music list screen appears when you select "Select Slide Show BGM".
You can select the music to be played in the background while the slide show is being displayed.

1 Select the music you want to play from the music list.
- For operations on the music list screen, see "Music Mode".

2 Press **RETURN** to display the thumbnail selection screen, and then press **C** to start the slide show and the background music.

NOTE

- All of the music files are selected by default.

■ Set/Reset All Slide Show Image

Selecting "Set All Slide Show Image" or "Reset All Slide Show Image" will display the thumbnail selection screen. On the screen, set or reset the images to be displayed in the slide show.
> **Set All Slide Show Image:** Checkmarks are added to all the images.
> **Reset All Slide Show Image:** Remove all the checkmarks from all the images.

■ Remove USB Device

To remove the USB device properly, use ◄/► to select "Yes" and then press **ENTER**.
Music Mode

Example

This screen image is for the USB mode. It may be slightly different in the Home network (DLNA) mode.
Buttons for music mode

| Buttons	Description
▲/▼/◄/►	Select a desired item.
ENTER	When selecting a folder icon: Enter this directory. When selecting a music file: Play music.
RETURN	Return to the previous process.
A (red)	USB mode: Select the music to be played back. Press this button to add or remove a checkmark.
	Home Network (DLNA) mode: Display the Media screen.
B (green)	Stop music.
C (blue)	Play/Pause music.
D (yellow)*	Display the USB MENU screen.

* This function is available only for the USB mode.

NOTE

- When there are invalid music files, the **X** mark will be displayed for the file. (USB mode only.)
- The displayed play time may differ slightly from the actual play time depending on the files.

USB Menu

On the menu to be displayed in USB mode, use ▲/▼ to select an item and make settings to your preferences.

Example

USB MENU
Set All Auto Play
Reset All Auto Play
Remove USB Device *

* See page 55 for details on the Remove USB Device function.

■ Set/Reset All Auto Play

Selecting "Set All Auto Play" or "Reset All Auto Play" will display the music list screen. On the screen, set or reset the music to be played back in the slide show.

Set All Auto Play: Checkmarks are added to all the music files.
Reset All Auto Play: Remove all the checkmarks from all the music files.

Video Mode

Example

...	video 1	video 2	video 3	video 4	video 5	...

VIDEO_01.avi	3:42
VIDEO_02.divx	4:55
VIDEO_03.divx	4:35
VIDEO_04.divx	4:08
VIDEO_05.divx	4:20
VIDEO_06.divx	3:55
VIDEO_07.avi	4:26

This screen image is for the USB mode. It may be slightly different in the Home network (DLNA) mode.
Buttons for file selecting operations

Buttons	Description
▲/▼/◄►	Select a desired item.
ENTER	When selecting a folder icon: Enter this directory. When selecting a music file: Play the video.
RETURN	Return to the previous process.
A (red)	USB mode: Select/deselect items (checkmarks are added to the selected items). —————————————— Home Network (DLNA) mode: Display the Media screen.
D (yellow)*	Display the USB MENU screen.

* This function is available only for the USB mode.

Buttons for playing mode

Buttons	Description
▲	Go to the beginning of a file by pressing ▲ once and the previous file by pressing ▲ twice.
▼	Go to the next file.
►	USB mode: The fast forward speed changes every time you press ►. After playing to the end, the TV goes to the next file and starts to play. —————————————— Home Network (DLNA) mode: Jump forward in a video. *2
◄	USB mode: The reverse speed changes every time you press ◄. After going back to the beginning, the TV starts to play the same file. —————————————— Home Network (DLNA) mode: Jump back in a video. *2
ENTER	USB mode: Pause the video. —————————————— Home Network (DLNA) mode: Play/Pause the video. *2
RETURN	Go back to the file selection screen.
3D	Switches between 2D and 3D modes.
A (red)*1	Jump to the scene where playback was last stopped.
B (green)	Stop a video.
C (blue)	Display the USB/home network (DLNA) operation panel.
D (yellow)*1	Display the USB MENU screen.
0-9*1	Jump to a point in the video during playback of a file without chapters. You can jump to a later point by pressing a higher number.*3

*1 These functions are available only for the USB mode.
*2 Jump forward/back and play/pause may not be available depending on the files.
*3 During playback of a file without chapters, playback points are set automatically. Playback points are set at intervals of a one-tenth of playback time.
Example for a file with a playback time of 100 minutes:
Pressing **1** jumps 10 minutes forward, and pressing **2** jumps 20 minutes forward. Pressing **0** returns to the start of the file being played back.

Enjoying Photo/Music/Video Playback

■ Using the operation panel

You can use the operation panel for video playback operations.

You can call up this operation panel by pressing **MENU** after you press ▲/▼ to select "USB Operation Panel"/"Home Network (DLNA) Operation Panel" from "System Options" > "View Option".

Example

◄◄	►	►►
⏮	⏸	⏭
Audio	■	CC
Title	Resume jump	

Buttons for using the USB operation panel

◄◄	Hold down to go in reverse.
►	Starts playback.
►►	Hold down to fast forward.
⏮	Video without chapters: Press one time to return to the previous playback point.* Press two times to return to the previous file. Video with chapters: Press one time to return to the previous chapter. Press two times to return to the previous file.
⏸	Sets pauses and still pictures.
⏭	Video without chapters: Press one time to advance to the next playback point.* Press two times to display the next file. Video with chapters: Press one time to advance to the next chapter. Press two times to display the next file.
Audio	Change the audio when multiple audio is available for the video you are watching.
■	Playback stops.
CC	Change the Closed Caption display.
Title	Displays the title (edition).
Resume jump	Jump to the scene where playback was last stopped.

* During playback of a file without chapters, playback points are set automatically. Playback points are set at intervals of a one-tenth of playback time.
Example for a file with a playback time of 100 minutes: Playback points are set every 10 minutes. Pressing ►► one time after viewing the file for 15 minutes jumps to the 20-minute playback point.

> **NOTE**
> * Reverse/fast forward continues from one file to another during continuous playback.
> * Use "CC" on the operation panel to change the Closed Caption display. You can also switch the Closed Caption display by using "System Options" > "View Option" > "Change CC" or by pressing **CC** on the remote control unit.
> * Use "Audio" on the operation panel to change the audio. You can also switch the audio by using "System Options" > "View Option" > "Change Audio".

Buttons for using the Home Network (DLNA) operation panel

►	Starts playback.
⏮	Go to the beginning of a file by pressing once or to the previous file by pressing twice.
⏸	Sets pauses and still pictures.
⏭	Go to the next file.
■	Playback stops.
↺	Jump back in a video.
↻	Jump forward in a video.

DivX® Setup

DivX® Setup

This is the function to confirm your registration code. You need to register the code at http://www.divx.com.

1 Press **MENU** to display the menu screen.

2 Press ◄/► to select "Initial Setup", and then press **ENTER**.

3 Press ▲/▼ to select "DivX® Setup", and then press **ENTER**.

■ DivX® VOD registration
You can find your registration code on this menu. You need to register the TV at http://www.divx.com before playing the DivX content.

■ DivX® VOD deregistration
You can find your deregistration code on this menu. You need to deregister the TV at http://www.divx.com to release the registration.

NOTE

• This function is available only for the USB mode.
• This function may not work while an Internet application is being used.

Playing Back Files from a Portable Device or PC

With the remote playback function, you can use your portable device to play back pictures, video, and music on the home network server.
• This TV is a DLNA certified Digital Media Renderer. (DMR)
• To use the remote playback function, your portable device must be a DLNA Certified Digital Media Controller.
• A wireless access point is required to use a portable device.

Set Up Home Network

Make the settings for remote playback.

1 Press ◄/► to select "Initial Setup", and then press **ENTER**.

2 Press ▲/▼ to select "Internet Setup", and then press **ENTER**.

3 Press ▲/▼ to select "Set Up Home Network", and then press **ENTER**.

4 Press ▲/▼ to select the specific adjustment item, and then press **ENTER** to set each item.

■ Remote Control Play Settings
This setting allows the TV to perform remote playback.
Permitted: Allows remote playback.
Not allowed: Does not allow remote playback.

■ Timeout Setup
This sets the time until the TV returns automatically to TV mode after remote playback ends.
10 sec./60 sec.: When the set time has elapsed after remote playback ends, the TV returns automatically to TV mode.
No: Select this to manually switch the TV after remote playback ends.

NOTE

• This function may not work while an Internet application is being used.
• For information on the compatible formats, see "Home Network (DLNA) Server Compatibility" on page 53.

Other Viewing Options

Presetting Remote Control Function

You can operate the connected AV products (AV receiver, cable box, SAT tuner, DTV, VCR, BD, DVD, LD) using the presetting manufacturer function of your remote control unit.
Presetting manufacturer codes

1 Press an appropriate button (**STB**, **DVD•VCR** or **AUDIO**) to operate the connected equipment.

2 Press an appropriate button (**STB**, **DVD•VCR** or **AUDIO**) and **DISPLAY** at the same time to enter the code registration mode.

3 Press **0**–**9** to enter the manufacturer code. (See page 60.)
   • Preset mode is finished once the LED no longer lights up.

4 After registering the code, the LED will stop blinking then turn off after one second. (If you perform an incorrect operation, the LED will blink quickly then turn off.)

Operating the Connected Equipment

To operate the connected equipment, press **STB**, **DVD•VCR** or **AUDIO** to select your device. (STB (cable/satellite set-top box), BD, DVD, VCR or AUDIO.) The remote control unit button will function as follows.
• When you operate VCR, DVD or BD, press **INPUT** to select the terminal connected to your device.
• CABLE and SAT cannot be selected at the same time.

1 POWER (SOURCE)
   • Turns the connected equipment power on and off.

2 ▶
   • Starts playback. (VCR, BD, DVD)

3 ◀◀
   • Rewinds the tape and allows picture search. (VCR)
   • Hold down to go in reverse. (BD, DVD)

4 ■
   • Stops the tape transport. (VCR)
   • Playback stops when pressed. With some Blu-ray disc/DVD players, pressing the button twice may open the disc tray. (BD, DVD)

5 ◀◀◀
   • Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter. (BD, DVD)

6 0–**9**, • (DOT) (STB)
   • Press a button (or buttons) that corresponds to the channel that you wish to watch.

7 ▶▶
   • Rapidly advances the tape and allows picture search. (VCR)
   • Hold down to fast forward. (BD, DVD)

8 ❚❚
   • Sets pauses and still pictures. (VCR, BD, DVD)

9 ▶▶❙
   • Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter. (BD, DVD)

10 ●REC
   • Starts recording. (VCR)

11 FLASHBACK
   • Press to switch between the current channel and the channel you were watching immediately before. Some manufacturers do not preset FLASHBACK. (STB)

12 CH∧/∨
   • Press **CH∧** or **CH∨** to tune in to a higher or lower channel. (STB)
   • Press to select the channel of the TV tuner on the VCR. (VCR)

13 MENU
   • When this button is pressed, the BD/DVD menu will display. (BD, DVD)

14 ▲/▼/◀/▶, ENTER
   • **▲/▼/◀/▶:** Press the button to select items on the STB GUIDE screen or STB MENU screen. (STB)
   Press the button to select items on the BD/DVD menu screen. (BD, DVD)
   • **ENTER:** Press to activate the selected function. (STB, BD, DVD)

Using AQUOS LINK

Controlling HDMI Equipment Using AQUOS LINK

What's AQUOS LINK?
- Using the HDMI CEC (Consumer Electronics Control) protocol, with AQUOS LINK you can interactively operate compatible system equipment (Blu-ray disc equipment, AV amplifier, DVD).
- By connecting AQUOS LINK-compatible devices with HDMI-certified cables to the TV, you can control a recorder or AV amplifier using the remote control of the TV.
- AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

Example

Connecting AQUOS BD Player via AQUOS LINK-compatible Audio system

HDMI-certified cable *

* Use HDMI 1 to connect ARC-compatible equipment.

HDMI-certified cable

Optical fiber cable

AQUOS BD Player

AQUOS LINK-compatible Audio system

Back panel horizontal inputs

Back panel vertical inputs
NOTE

- For connecting the TV to AQUOS LINK-compatible equipment, use commercially available cables.
- Point the remote control toward the TV, not to connected HDMI equipment.
- Video noise may occur depending on the type of HDMI cable used. Make sure to use an HDMI-certified cable.
- Up to 3 pieces of HDMI recording equipment and one AV amplifier can be connected using this system.
- These operations affect the HDMI equipment selected as the current input source. If the equipment does not operate, turn on the equipment and select the appropriate input source using **INPUT**.
- The AQUOS LINK feature may not operate properly when an HDMI splitter or AV selector unit is used. These devices may cause interruptions to the image and/or sound.
Connected AQUOS LINK-compatible devices can be operated without changing the settings of the remote control unit.

OPTION button will function only when AQUOS LINK is used.

■ One Touch Play
While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

■ One Touch Recording
Press ●**REC** while you are viewing a broadcast received with the AQUOS LINK-compatible recorder. The AQUOS LINK automatically recognizes the connected HDMI device and starts recording.

■ Single remote control
The AQUOS LINK automatically recognizes the connected HDMI device and you can control the TV and the devices as if using a universal remote control.

■ Control the AQUOS LINK-compatible audio system
Set the volume of AQUOS LINK-compatible audio system.

NOTE

- The above description is an example of the AQUOS LINK function.
- The steps in "AQUOS LINK Setup" on page 62 need to be completed beforehand.
- Refer to this operation manual and the operation manual of the AQUOS LINK device to be used with this TV.

AQUOS LINK Setup

Example

```
System Options              Menu

System Options
AQUOS LINK Setup

AQUOS LINK Control
                    [On]
Auto Power On
                    [Yes]
Selecting Recorder

Channel Select Key

Audio Return Channel
                    [Auto]
```

1 Press **MENU** to display the MENU screen, and then press ◄/► to select "System Options".

2 Press ▲/▼ to select "AQUOS LINK Setup", and then press **ENTER**.

3 Press ▲/▼ to select a specific item, and then press **ENTER**.

4 Press ▲/▼ (or ◄/►) to select the desired setting, and then press **ENTER**.

5 Press **MENU** to exit.

AQUOS LINK Control

Select AQUOS LINK Control to disable AQUOS LINK function even when an AQUOS LINK-compatible HDMI device is connected to the TV. This function prevents the device from starting to operate unexpectedly.
On: You can operate AQUOS LINK-compatible equipment.

Off: AQUOS LINK function does not work.

Auto Power On

If this is activated, the One Touch Play function is enabled.

Yes: While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

No: This function does not work.

Selecting Recorder

When multiple AQUOS LINK-compatible devices are connected, this function allows you to set the recorder for recording when you press ●REC on the TV's remote control unit.

Press ▲/▼ to select the recorder for recording.

Channel Select Key

This function can be set for each input terminal.

On: The remote control unit of the TV can be used to select the channel, display program information, and perform other operations of the connected AQUOS LINK-compatible equipment.

Off: This function does not work.

Audio Return Channel

This function allows you to listen to the TV audio via audio equipment without using an optical fiber cable, which conventionally is required.

Requirements for using an ARC-compatible AV amplifier:

• ARC-compatible AV amplifier connected to the ARC-compatible HDMI terminal (HDMI 1).
(Refer to the operation manual of the ARC-compatible equipment for details.)

• Use of an ARC-compatible cable.

Auto: You can listen to the TV audio with ARC-compatible audio equipment.

Off: This function does not work.

NOTE

• If the TV audio cannot be output from the AV amplifier even after making the necessary settings, connect the TV to the AV amplifier with an optical fiber cable and select "Off".

One Touch Playback
AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

Press ► to start playing back a title.

• The last played program is played back. You can use the following buttons during broadcast viewing.

Buttons	Description
POWER (SOURCE)	Turns the power of the HDMI connected devices on and off.
◄◄	Hold down to go in reverse.
►	Starts playback.
►►	Hold down to fast forward.
■	Playback stops.
❚❚	Sets pauses and still pictures.
◄◄	Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter.
►►❙	Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter.

NOTE

• The buttons ◄◄/►► do not function with the following Blu-ray disc players currently available.
- BD-HP20U, BD-HP50U
One Touch Recording

This function allows easy one-touch recording of the program being viewed on the TV to AQUOS LINK-compatible equipment with a recording function by simply pressing ●**REC** on the remote control.

Prepare the connected AQUOS LINK-compatible recorder for recording. Check the following items.
• Make sure that the antenna cable is connected.
• Check that there is sufficient available space on the recording media (HDD, DVD, etc.).
• On the TV, use "AQUOS LINK Setup" and "Selecting Recorder" to select the equipment for recording.
• By default, the recorder connected to HDMI 1 is selected for recording.

1 Press ●**REC** to start recording.
  • When you are viewing a broadcast received with the AQUOS LINK-compatible recorder selected in "Selecting Recorder", recording to the AQUOS recorder of the broadcast being viewed starts.
  • When you are viewing a broadcast received with equipment other than the AQUOS LINK-compatible recorder selected in "Selecting Recorder" or other external input equipment, pressing ●**REC** on the remote control does not start recording.

2 Use the Link Operation Menu to stop recording.
  ① Press **OPTION** to display the Link Operation Menu screen.
  ② Press ▲/▼ to select "Stop Recording", and then press **ENTER**.

Start/Stop Recording

You can also use the Link Operation Menu for recording on the connected AQUOS LINK-compatible equipment.

1 Press **OPTION** to display the Link Operation Menu screen.

2 Select "Start Recording", and then press **ENTER** to start recording.
  • You can also start recording by pressing ●**REC** on the remote control unit.

3 Select "Stop Recording", and then press **ENTER** to stop recording.

Link Operation Menu
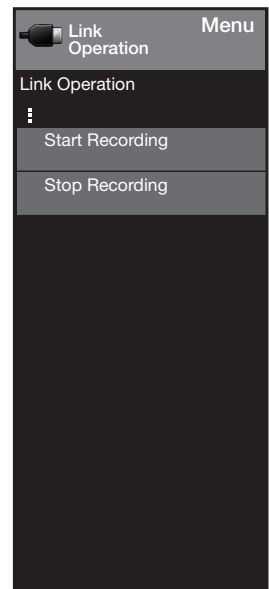

The Link Operation Menu allows you to make adjustments during operation of AQUOS LINK-compatible equipment.

1 Press **OPTION** to display the Link Operation Menu.

2 Press ▲/▼ to select the desired item, and then press **ENTER**.
  • Specific operations differ depending on the item you select. Following are the basic operations for each item.

Using AQUOS LINK

Recorder Power On/Off

You can manually turn on/off the power of the connected AQUOS LINK-compatible equipment. Each time you press **ENTER**, the connected equipment switches on or off.

Device Operation Panel

You can use the device operation panel to control playback operations.

Press ▲/▼/◄/► to select the desired operation.

NOTE
• This function works only when AQUOS LINK-compatible equipment with the Device Operation Panel function is connected.

Play from Rec. List

This function allows you to display the title list for the connected equipment and to play back the title you want to enjoy.

Before using this function.
Power on the AQUOS LINK-compatible equipment, and select the appropriate external input.

Select the title with ▲/▼/◄/►, and then press ► to start playback.

NOTE
• This function works only when AQUOS LINK-compatible equipment is connected.

Show Start Menu

You can call up a setup menu from the connected AQUOS LINK-compatible equipment.

NOTE
• Depending on the status of the equipment (recording or in standby mode, etc), the setup menu will not be displayed.
• The setup menu will not be displayed with the player BD-HP20U currently available.

Change Media of Device

You can switch the media (HDD or DVD) for playback or recording on the AQUOS LINK-compatible recorder.
• The Media type toggles each time you press **ENTER** in "Change Media of Device".

Link Booking (Rec. Book)

You can call up the AQUOS LINK-compatible recorder's EPG and preset timer recordings using the TV's remote control.

Select the program on the recorder's EPG.
• You can use ▲/▼/◄/►, **ENTER**, **RETURN**, **EXIT** and the colored buttons.

NOTE
• This function works only when an AQUOS LINK-compatible recorder is connected.
• Refer to the operation manual of the recorder for details.

Change Audio Output Device

You can select to listen to the TV sound only from the AQUOS LINK-compatible audio system.

By AQUOS audio SP: The sound from the TV speaker is muted and only the sound from the AQUOS LINK-compatible audio system is audible.
• You can use **VOL+/-** and **MUTE**.

By AQUOS SP: The sound is output from the TV speaker.

Change Surround Mode

You can manually change the AQUOS AUDIO speaker system's sound mode.
The sound mode changes each time you press **ENTER**.
• Refer to the operation manual of the AQUOS LINK-compatible audio system for details.

HDMI Device Selection

If multiple HDMI devices are connected in a daisy chain, you can specify which device to control here.
Press ▲/▼ to select the desired device from a list of connected HDMI devices, and then press **ENTER**.

AQUOS Link Setup

You can also display the AQUOS LINK Setup screen from the Link Operation Menu.

Using a Smartphone with the TV

This function enables you to connect the TV to a smartphone that supports Mobile High-Definition Link (MHL) using an MHL-compatible cable.
To connect the TV to your MHL-compatible smartphone, be sure to use an MHL-compatible cable (commercially available).
• You can view pictures and video on a large screen.
• You can play back music files.

Back panel vertical inputs
NOTE

• An MHL-compatible portable device is required to use this function. Connect the device to the HDMI 4 terminal.
■ Auto Power On

When an MHL-compatible device is connected to the TV, the TV turns on automatically.
• This function operates when "AQUOS LINK Control" is set to "On". (See page 62.)

■ Auto Input Selection

When an MHL-compatible device is connected while the TV is on, the input mode is selected automatically.
• This function operates when "AQUOS LINK Control" is set to "On". (See page 62.)

■ Operation Using the Remote Control

The remote control of the TV can be used to operate a portable device.
• ▲/▼/◄/►, **ENTER**, **EXIT**, **0**-**9**, •(DOT), **ENT**, etc.
• The operations vary depending on the connected equipment and content being viewed.

Using a PC

Displaying a PC Image on the Screen

VIEW MODE
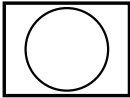

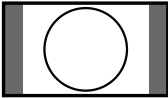

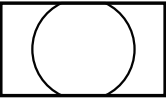

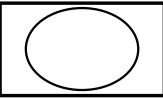

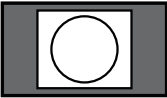

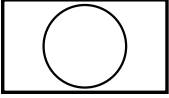

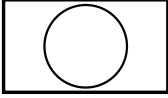

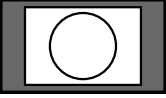

You can select the screen size.

1 Press **VIEW MODE**.
- The View Mode menu displays.
- The menu lists the View Mode options selectable for the type of video signal currently being received.

2 Press **VIEW MODE** or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.
- You can sequentially select a View Mode that has its own aspect ratio.

NOTE
- Connect the PC before making adjustments. (See page 18.)
- Selectable screen size may vary with input signal type.
- You can have the same settings by choosing "View Mode" on the menu items. (See page 33.)
- You may not be able to change the View Mode while in 3D mode.

Example: Screen size images

Input signal	Normal	Zoom	Stretch	Dot by Dot
4:3	Keeps the original aspect ratio in a full screen display.	For viewing widescreen programs. The top and bottom of the image is cropped.	An image fully fills the screen.	Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

Input signal	Stretch	Dot by Dot
16:9	An image fully fills the screen.	Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

Adjusting the PC Image

Auto Sync. (for Analog PC Input Mode Only)

For automatically adjusting the PC image.
   Yes: Auto Sync. starts and "Now adjusting the image." displays.
   No: This function does not work.

NOTE
• When "Auto Sync." is successful, "Completed" displays. If not, "Auto Sync." failed.
• "Auto Sync." may fail even if "Completed" displays.
• "Auto Sync." may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing "Auto Sync.".
• Be sure to connect the PC to the TV and switch it on before starting "Auto Sync.".

Fine Sync.

Ordinarily you can easily adjust the picture as necessary to change image position using "Auto Sync.". In some cases, however, manual adjustment is needed to optimize the image.
   H-Pos.: Centers the image by moving it to the left or right.
   V-Pos.: Centers the image by moving it up or down.
   Clock: Adjust when the image flickers with vertical stripes.
   Phase: Adjust when characters have low contrast or when the image flickers.

NOTE
• For resetting all "Fine Sync." adjustment items to the factory preset values, press ▲/▼ to select "Reset", and then press **ENTER**.
• It is not necessary to adjust the "Clock" or "Phase" when a digital signal is being input, so it cannot be selected.
• The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
• The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

Setting Audio Input

Audio Select

This function sets the terminal to output the computer audio.
The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item.

■ **PC IN**
   Video: Select this when the TV and PC are connected using an analog RGB cable and the audio is not input.
   Video+Audio: Select this when the TV and PC are connected using an analog RGB cable and the audio is input via a Ø 3.5 mm stereo minijack.

■ **HDMI 2**
   HDMI(Digital): Select this when the TV and PC are connected using an HDMI-certified cable and audio is input via the same cable.
   HDMI+Analog: Select this when the TV and PC are connected using a DVI-HDMI conversion cable and the audio is input via a Ø 3.5 mm stereo minijack.

NOTE
• When "Audio Select" is set to "HDMI(Digital)", sound will not be produced if you use only an HDMI-certified cable to connect HDMI-compatible equipment. To produce sound, you should make an analog audio connection.
• If you want to connect HDMI-compatible equipment using only an HDMI-certified cable, set "Audio Select" to "HDMI(Digital)".

PC Compatibility Chart

It is necessary to set the PC correctly to display XGA and WXGA signal.

Resolution		Horizontal Frequency	Vertical Frequency	VESA Standard
VGA	720 x 400	31.5 kHz	70 Hz	———
	640 x 480	31.5 kHz	60 Hz	O
		37.9 kHz	72 Hz	O
		37.5 kHz	75 Hz	O
SVGA	800 x 600	35.1 kHz	56 Hz	O
		37.9 kHz	60 Hz	O
		48.1 kHz	72 Hz	O
		46.9 kHz	75 Hz	O
XGA	1024 x 768	48.4 kHz	60 Hz	O
		56.5 kHz	70 Hz	O
		60.0 kHz	75 Hz	O
WXGA	1360 x 768	47.7 kHz	60 Hz	O
SXGA	1280 x 1024	64.0 kHz	60 Hz	O
SXGA+	1400 x 1050	65.3 kHz	60 Hz	O
UXGA	1600 x 1200	75.0 kHz	60 Hz	O
1080p	1920 x 1080	67.5 kHz	60 Hz	———

VGA and XGA are registered trademarks of International Business Machines Corp.

Control of the TV

- The TV can be controlled from a PC, control panels and other devices using the RS-232C or IP.
- Use a cross-type RS-232C cable, ETHERNET cable (commercially available) or wireless LAN for the connections.

NOTE
- This operation system should be used by a person who is accustomed to using computers.

AQUOS Remote Control

Example
Initial Setup   Menu

Initial Setup

EZ Setup

Broadcasting Setup

Internet Setup

Language   [English]

1 Press **MENU** to display the MENU screen, and then press ◄/► to select "Initial Setup".

2 Press ▲/▼ to select "Internet Setup", and then press **ENTER**.

3 Press ▲/▼ to select "AQUOS Remote Control", and then press **ENTER**.

■ AQUOS Remote Control
Set this when operating the TV from equipment connected by LAN or wireless LAN.
- When "AQUOS Remote Control" is selected, "Change" will be highlighted. Press **ENTER**.
  Enable: Allows operation from the connected equipment.
  Disable: This function does not work.

■ Select Device Names
Set the name of the TV displayed on the portable device.
- Use the software keyboard to set the name. See page 73 for details on the software keyboard.

■ Detailed Settings
Make the detailed settings (Login ID, password, etc.). Follow the on-screen instructions to configure the settings.

Communication conditions for IP

Connect to the TV with the following settings made for IP on the PC.

IP protocol:	TCP/IP
Host IP address:	Set the IP address on the TV menu
Service:	None (Do not select Telnet or SSH)
TCP port#:	Set a port number on the TV menu (Control port)

When you set your ID and password on the TV menu, you need to enter them as soon as you connect to the TV.

NOTE
- When you use this function, make settings for "AQUOS Remote Control".
- The connection will be cut off when there has been no communication for 3 minutes.

Communication conditions for RS-232C

Set the RS-232C communication settings on the PC to match the TV's communication conditions.
The TV's communication settings are as follows:

Baud rate:	9,600 bps
Data length:	8 bits
Parity bit:	None
Stop bit:	1 bit
Flow control:	None

■ Communication procedure
Send the control commands from the PC via the RS-232C or IP.
The TV operates according to the received command and sends a response message to the PC.
Do not send multiple commands at the same time.
Wait until the PC receives the OK response before sending the next command.

■ Command format
Eight ASCII codes + CR

C1	C2	C3	C4	P1	P2	P3	P4	↵

Command 4-digits   Parameter 4-digits   Return code

Command 4-digits: Command. The text of four characters.
Parameter 4-digits: Parameter 0–9, x, blank, ?

■ Parameter
Input the parameter values, aligning left, and fill with blank(s) for the remainder. (Be sure that 4 values are input for the parameter.)
When the input parameter is not within an adjustable range, "ERR" returns. (Refer to "Response code format".)
Any numerical value can replace the "x" on the table.

0			

0	0	0	9

–	3	0	

When "?" is input for some commands, the present setting value responds.

?			

?	?	?	?

■ Response code format

Normal response

O	K	↵

Return code (0DH)

Problem response (communication error or incorrect command)

E	R	R	↵

Return code (0DH)

■ Command table

• Commands not indicated here are not guaranteed to operate.

| CONTROL ITEM		COMMAND	PARAMETER	CONTROL CONTENTS	
POWER ON COMMAND SETTING		R S P W	0 _ _ _	Off	The Power On command rejected.
			1 _ _ _	On [RS-232C]	The Power On command accepted.
			2 _ _ _	On [IP]	The Power On command accepted. When the power is in standby mode, commands also go to waiting status and so power consumption is just about the same as usual. With the commands in waiting status, the Center Icon Illumination on the front of the TV lights up.
POWER SETTING		P O W R	0 _ _ _	Power Off	It shifts to standby.
			1 _ _ _	Power On	Power On
INPUT SELECTION	TOGGLE	I T G D	x _ _ _	(Toggle)	It input-switches by the toggle. (It is the same as an input change key)
	TV	I T V D	0 _ _ _		It input-switches to TV. (A channel remains as it is. (Last memory))
	1-8	I A V D	* _ _ _	1: HDMI 1, 2: HDMI 2, 3: HDMI 3, 4: HDMI 4, 5: COMPONENT, 6: VIDEO 1, 7: VIDEO 2, 8: PC

NOTE

• If an underbar (_) appears in the parameter column, enter a space.
• If an asterisk (*) appears, enter a value in the range indicated in brackets under CONTROL CONTENTS.
• Any numerical value can replace the "x" on the table.

Using the Internet

By connecting your TV to a broadband system, you can access the Internet from the TV.
• Use "AQUOS ADVANTAGE LIVE" to obtain the latest software and receive online user support. (See page 72.)
• You can enjoy a variety of streaming content and Internet applications. (See page 76)

NOTE
• You may not be able to view 3D images when accessing the Internet.

Connecting to the Internet

• To connect your TV to the Internet, you must have a broadband Internet connection.
• If you do not have a broadband Internet connection, consult the store where you purchased your TV or ask your Internet service provider or telephone company.
• When an Internet connection is made, an Ethernet and wireless connection cannot be used at the same time. Use only one of the connection types. (See page 71.)

■ Using an ETHERNET cable
Use an ETHERNET cable (commercially available) to connect the ETHERNET terminal on the TV to your broadband router (commercially available).

ETHERNET cable

LAN

ETHERNET (10/100)

Broadband router

PC

Modem

Internet
■ Using the wireless LAN
This TV is equipped with a wireless LAN function.
For a wireless LAN connection, you must use "Wireless Setup" to connect the access point and TV. (See page 71.)

**Wireless LAN router/
access point**

PC

Modem

Internet
NOTE
• This TV has a built-in wireless LAN function. Using a separate wireless USB LAN adapter may result in radio communications that do not comply with regulations on radio communications. Therefore, do not use a separate wireless LAN adapter.
• A wireless LAN connection and performance cannot be guaranteed for all residential environments. In the following cases, the wireless LAN signal may be poor or drop, or the connection speed may become slower.
  - When used in buildings made with concrete, reinforced steel, or metal
  - When placed near objects that obstruct the signal
  - When used with other wireless devices that emit the same frequency
  - When used in the vicinity of microwave ovens and other devices that emit a magnetic field, electrostatic charge, or electromagnetic interference
• When there is significant interference in the 2.4-GHz frequency (such as from other wireless LAN devices, Bluetooth® devices, 2.4-GHz cordless telephones, and microwave ovens), it is recommended that you use a wireless LAN router/access point that supports IEEE802.11a/n (5 GHz) and set the access point to transmit at 5 GHz. For setup details, see the operation manual of your access point.

Internet Setup

Example
Connection Type

1. Press **MENU** to display the MENU screen, and then press ◄/► to select "Initial Setup".

2. Press ▲/▼ to select "Internet Setup", and then press **ENTER**.

3. Press ▲/▼ to select "Network Setup", and then press **ENTER**.

4. Press ▲/▼ to select "Manual Setup", and then press **ENTER**.

5. Press ◄/► to select "Yes", and then press **ENTER**.

6. Press ▲/▼ to select "Connection Type", and then press **ENTER**.

7. Press ◄/► to select "Wired" or "Wireless", and then press **ENTER**.
   • If you select "Wired", the signal is detected and setup is performed automatically. Use "IP Setup" to check and change the settings as necessary. (See page 72.)
   • If you select "Wireless", use "Wireless Setup" to configure the access point settings.

Wireless Setup

If your access point supports Wi-Fi Protected Setup (WPS), it is recommended that you use this function for the wireless connection. You can press the WPS button on the access point to configure the settings automatically.

• The name of the WPS button function may differ depending on the access point. See the operation manual of the access point for details.

1. Confirm the current settings in "Connection Type".
   • If "Wired" is selected, press ◄/► to select "Wireless".

2. Press ▲/▼ to select "Wireless Setup", and then press **ENTER**.
   • Confirm the settings. If each setting item is correct, press **MENU** to exit.
   • If you are configuring the wireless setup for the first time or changing the settings, go to step 3.

3. Press ◄/► to select "Change", and then press **ENTER**.

4. Press ▲/▼ to select "WPS", and then press **ENTER**.
   • To select and register an access point manually, select "Search" or "Manual Setup" and make the necessary settings.

5. Press ▲/▼ to select "Push button", and then press **ENTER**.
   • To configure the setting via PC, select "PIN code". Follow the on-screen instructions and the operation manual of the access point to configure the settings.

6. Select "Next" to complete the settings.
   • The connection process starts and the WPS button on the access point can be pressed.

7. Press the WPS button on the access point.
   • Pressing the WPS button displays a confirmation screen. Please wait until a connection is established.

8. When a connection is established, the connection details are displayed. Press **ENTER**.

NOTE

• Operations cannot be guaranteed when used with access points that do not have Wi-Fi® certification.
• A wireless LAN router/access point is required to connect the TV to the Internet using a wireless LAN. See the operation manual of your access point for setup.
• If your access point is set to a stealth mode (that prevents detection by other devices), you may not be able to establish a connection. In this case, disable the stealth mode on the access point.
• A stable connection speed is required to play back streaming content. Use an Ethernet connection if the wireless LAN speed is unstable.
• Before transferring to a third party or disposal, be sure to initialize the wireless LAN settings.
• Please follow the legislation in your country when using the wireless LAN outdoors.

Interactive Service

If you do not want other people to connect to the Internet in your absence, you can make settings to keep the TV away from the Internet.

1. Press **MENU** to display the MENU screen, and then press ◄/► to select "Initial Setup".

2. Press ▲/▼ to select "Internet Setup", and then press **ENTER**.

3. Press ▲/▼ to select "Interactive Service", and then press **ENTER**.
   • Input the 4-digit secret number by using **0**-**9**.

4. Press ◄/► to select "No", and then press **ENTER**.
   • If you want to allow Internet connection, select "Yes", and then press **ENTER**.

5. Press **MENU** to exit.

Checking Your Internet Connection

1 Press **SmartCentral** to display the application window.

2 Press ◄/► to select "AQUOS ADVANTAGE LIVE", and then press **ENTER**.
- If "▯◫◁" or "▫◲◫" is displayed after you connect to the Internet, check your TV's network settings and connection.
- When the AQUOS ADVANTAGE LIVE screen appears, now you are connected to the Internet.
- You can also display the AQUOS ADVANTAGE LIVE screen by pressing **FAV APP** on the remote control unit. See page 76 for details.

NOTE
- If you have failed to connect to the Internet in the above operation, then an error message will appear. In this case, press **EXIT** to exit from the connected TV feature to make changes to the network settings.
- If you still cannot connect to the Internet, please consult your Internet service provider or telephone company.
- When an application is used, you cannot make settings for "Internet Setup".
  If you need to make the settings of "Internet Setup", press **EXIT** to exit from the connected TV feature.

■ If you cannot connect to the Internet
Perform the procedures below to check your TV's network settings.

IP Setup

1 Press **EXIT** to exit from the connected TV feature.
2 Press **MENU** to display the MENU screen, and then press ◄/► to select "Initial Setup".
3 Press ▲/▼ to select "Internet Setup", and then press **ENTER**.
4 Press ▲/▼ to select "Network Setup", and then press **ENTER**.
5 Press ▲/▼ to select "Manual Setup", and then press **ENTER**.
6 Press ◄/► to select "Yes", and then press **ENTER**.
7 Press ▲/▼ to select "IP Setup", and then press **ENTER**.
- Check that numbers are displayed for each setting.
- If there are any settings without numbers, specify the numbers by following the on-screen instructions.
- For information on how to enter text, see page 73.

Example

Setting IP information
[Current Setup]

IP Address : Auto Setup
Netmask : Auto Setup
Gateway : Auto Setup
DNS : Auto Setup
MAC Address : XX:XX:XX:XX:XX:XX

Change   Initialize
8 Press **MENU** to exit.

AQUOS Advantage Live

This function can be used to display up-to-date information and allow you to receive support service over the network.
1 Press **SmartCentral** to display the application window.

2 Press ◄/► to select "AQUOS ADVANTAGE LIVE", and then press **ENTER**.
- You can also display the AQUOS ADVANTAGE LIVE screen by pressing **FAV APP** on the remote control unit. See page 76 for details.
- When you are not connected to the Internet, a network function explanation screen is displayed. The services displayed vary depending on circumstances.

3 Press ▲/▼/◄/► to select the desired service.
4 Press **EXIT** to exit from the connected TV feature.

NOTE
- The display may change as a result of a software update.

Entering Text (Software Keyboard)

When you are editing an input screen or specifying the Ethernet settings used for accessing the Internet, enter text from the software keyboard.

NOTE

- You can enter up to 128 characters for text.
- Some special characters or diacritics may not be available depending on where you enter the text.

The text you enter is displayed as you type it in. To move the cursor (the current input position), use "◄" or "►" on the software keyboard.

Press ◄/► to select the type of characters entered: alphabet, number or sign. (The selectable types depend on the input source.)

Enters a space.

While you are entering text, likely input conversion candidates are displayed based on what you typed in.

- You can also enter text by pressing **A**, **B** or **C** on the remote control unit.
Caps Off/Caps On/Caps Lock
If "alphabet" is selected in "Character Set", this switches characters between uppercase and lowercase.
Each time you press **ENTER**, the character type switches as shown below:
Caps Off: all the characters are lowercased
Caps On: only the first character is uppercased
Caps Lock: all the characters are uppercased

Done
Applies the entered information and closes the software keyboard.

Quit
Closes the software keyboard without applying the entered information.
- You can also close the software keyboard by pressing **EXIT** on the remote control unit.

↵
Displays the icon " ↵ ", indicating that a new line has been inserted.

Clear
Erases the character string.
- When the cursor is somewhere in a line: the character string to the right of the cursor will be erased.
- When the cursor is at the right end of a line: the entire line will be erased.

Delete
If the cursor is at the right end of a line, this erases text one character at a time.
- You can also delete text by pressing **RETURN** on the remote control unit.

Buttons	Description
▲	Moves the focus up. When the focus is at the top edge, this moves the focus to the opposite edge (bottom edge).
▼	Moves the focus down. When the focus is at the bottom edge, this moves the focus to the opposite edge (top edge).
◄	Moves the focus left. When the focus is at the left edge, this moves the focus to the opposite edge (right edge). When the focus is on "Character Set", this selects the character type (moving backwards). When the focus is in an input box, this moves the cursor in the input box to the left.
►	Moves the focus right. When the focus is at the right edge, this moves the focus to the opposite edge (left edge). When the focus is on "Character Set", this selects the character type (moving forwards). When the focus is in an input box, this moves the cursor in the input box to the right.
ENTER	Performs the processing for the button currently in the focus.
EXIT	Closes the software keyboard without applying the original input elements for the entered text. Erases the text in the input box where the cursor is currently located.
RETURN	When the cursor is at the end of a sentence, this acts as a backspace.
0-9	Directly enters the single-byte number for that button.
A (red)	Directly enters prediction candidate 1.
B (green)	Directly enters prediction candidate 2.
C (blue)	Directly enters prediction candidate 3.
D (yellow)	Enters a space.

Using the Browser
ENTER, ▲/▼/◄/►
- Press ▲/▼/◄/► to select a link that you want to jump, and then press **ENTER**.

EXIT
- Press the button to return to the TV screen.

RETURN
- Press the button to return to the previous page.

D
- Display the toolbar.

Pages with security protection are clearly shown as such.
If content on a page is continued on another page, you can use ▲/▼/◄/► to go to the continuation of a page.
- Where there is link text or a link image in the direction pressed, the text or image is selected first. If this happens, press the same direction button several times.

Tool bar

Selected item	Description
◄	Go back to the previous page.
►	Go to the next page.
↻	Refresh the page. Interrupt a page while it is loading.
★	Display the bookmarks list.
🏠	Display the AQUOS ADVANTAGE LIVE.
🔧	Display the Browser menu.
☆	Add the current page to your bookmarks.

About links
- Web pages on the Internet often include "links" that allow you to jump to other web pages (or sites).
- "Links" can take various forms, including words or images, but they always work in the same way letting you jump to the link destination when you select them.
- Selected items (such as links of text input fields) are enclosed in a frame.
- You can jump from a "link" to the corresponding link destination.

DISCLAIMERS
SHARP corporation bears no responsibility regarding the content and quality of the content provided by the content serve provider.

CAUTION
- If the power is cut due to a power failure or the TV being unplugged while you are using the Internet, information such as bookmarks or cookies may not be saved correctly.

NOTE
When a security notification window is displayed:
- Press **ENTER** to close the window.
- This window appears when you visit a web page that has security protection, or when you move from a protected page to an unprotected page.
- In "Security" you can set whether or not this window is displayed. (See page 75.)

To users who access the Internet from a PC
- When you access the Internet from this TV, the procedures may not be the same as regular browser-based access on a PC.
- You cannot download files.
- You cannot view a history of the pages you have visited.
- You cannot change the startup page displayed when you start AQUOS ADVANTAGE LIVE.
- If a pop-up window has appeared as a new page, select "◄" on the toolbar and you can return to the previous page.
- On some pages, video and audio, text or images may not be displayed correctly.

http://www.espial.com

Using the Toolbar

You can use the toolbar to control the browser and to specify settings.

1 Press **D** to display the toolbar.

2 Press ◄/► to select a function, and then press **ENTER**.

Saving the URL of the Current Page

Adding a web page to your bookmarks allows you to return to that page later by simply selecting it from your list of bookmarks.

1 Display the page that you want to bookmark.

2 Press **D** to display the toolbar.

3 Press ◄/► to select " ☆ " in the toolbar, and then press **ENTER**.

4 Select "Yes", and then press **ENTER**.
• The page is added to your bookmarks.

Opening a Bookmarked Page

1 Press **D** to display the toolbar.

2 Press ◄/► to select " ⚝ " in the toolbar, and then press **ENTER**.
• Your bookmarks list is displayed.

3 Press ▲/▼/◄/► to select the page you want to access, and then press **ENTER**.
• The selected page is displayed.

NOTE
• You can edit and delete bookmarks.

Browsing Web Contents

You can display the web content you want to enjoy.

1 Press **D** to display the toolbar.

2 Press ◄/► to move to the address area in the toolbar, and then press **ENTER**.
• The Enter Address menu is displayed.

3 Enter an address and select " ➡ ", and then press **ENTER**.
• The web content you want to view is displayed.

Browser Settings

You can check or modify your browser settings from the Browser menu.

1 Press **D** to display the toolbar.

2 Press ◄/► to select " 🔧 " in the toolbar, and then press **ENTER**.

3 Press ▲/▼ to select and confirm the item you want to set.

4 Press ▲/▼/◄/► to specify the required setting, and then press **ENTER**.

5 Press **D** to exit.

　Resets the browser settings.

NOTE
• "Reset" does not reset the certification enable/disable and Encoding settings.

Using Applications via the Internet

By connecting the TV to the Internet, you can enjoy a variety of broadband content, including videos, music and photos.

Please check that the most current software is loaded on TV by selecting "Auto Update Setting" on "Software Update" (see page 40) or by visiting http://www.sharpusa.com/products/support/ to check for a download of the newest software version.
Use the application window to access your favorite Internet applications. Press **SmartCentral** to display the application window.

Follow the on-screen instructions for each application.

• When using this TV to access an Internet application for the first time, the Disclaimer appears on the screen.
  Press ▲/▼ to select "Agree", and then press **ENTER**. (You must select "Agree" to use the application.)

• Check the web site of the provider for details on setup and use of the functions.

NOTE

• If "📶" or "📶" is displayed after you connect to the Internet, check your TV's network settings and connection.
• Additional applications will be available in the future.
• These applications are provided by content providers. The available applications vary depending on your country or region.
• The delivery speed of applications varies depending on the network speed. Check the web site of the provider for details on application setup and other information.

Using the Application Window

During Dock Display

You can move the application icons and delete any unused icons.

Example

1 Select an application, and then press ▲.
2 Press ▲/▼ to select "Move App" or "Delete App", and then press **ENTER**.

■ **Move the Icons**
You can move the icons of the more commonly used applications closer to the left.
Press ◄/► to move the icon to the desired location.

■ **Delete an Application**
Select "Delete App" to delete the icon.

■ **Saving Favorite Applications**
You can set your favorite applications to the **FAV APP1**, **2**, and **3** buttons on the remote control for easier startup.
The applications whose icons are moved onto ①, ② and ③ during Dock Display will be assigned to the **FAV APP 1**, **2** and **3** buttons respectively.

NOTE

• The SmartCentral icon cannot be moved or deleted.

During Gallery Display

During Dock display, press **SmartCentral** again to display a list of applications by category.
1 Press ◄/► to select a category, and then press **ENTER** or ▼.

2 Press ▲/▼/◄/► to select an application, and then press **ENTER**.

   ① Displays a list of applications for the selected category that can be displayed on the TV.
      Press **ENTER** to add or delete applications to or from the application window and favorites.
   ② Displays the image now playing.
   ③ Provides a description of the selected application.
   ④ Displayed when there are multiple pages. Press ◄/► to change pages.
   ⑤ Guide display of required operation buttons.

Example

ℹ Information	Menu
Information	
Identification	
Digital Caption Info.	
Software Update	
Netflix Help	
VUDU Help	
Deactivating Netflix Function

1 Press **MENU** to display the menu screen.

2 Press ◄/► to select "Information", and then press **ENTER**.

3 Press ▲/▼ to select "Netflix Help", and then press **ENTER**.

4 Press ◄/► to select "Deactivate", and then press **ENTER**.
  • To confirm the Netflix status, check the information displayed on the screen and click "OK".

Deactivating the VUDU Function

1 Press **MENU** to display the menu screen.

2 Press ◄/► to select "Information", and then press **ENTER**.

3 Press ▲/▼ to select "VUDU Help", and then press **ENTER**.

4 Press ◄/► to select "Yes", and then press **ENTER**.

When you access the Internet application for the first time, the following appears.
• This message is available only in English.

DISCLAIMERS
• This SHARP device facilitates the access to content and services provided by third parties. The content and services accessible via this device belong to and may be proprietary to third parties. Therefore, any use of such third party content and services must be in accordance with any authorization or terms of use provided by such content or service provider. SHARP shall not be liable to you or any third party for your failure to abide by such authorization or terms of use. Unless otherwise specifically authorized by the applicable content or service provider, all third party content and services provided are for personal and non-commercial use; you may not modify, copy, distribute, transmit, display, perform, reproduce, upload, publish, license, create derivative works from, transfer or sell in any manner or medium any content or services available via this device.
• SHARP is not responsible, nor liable, for customer service-related issues related to the third party content or services. Any questions, comments or service-related inquiries relating to the third party content or service should be made directly to the applicable content or service provider.
You may not be able to access content or services from the device for a variety of reasons which may be unrelated to the device itself, including, but not limited to, power failure, other Internet connection, or failure to configure your device properly. SHARP, its directors, officers, employees, agents, contractors and affiliates shall not be liable to you or any third party with respect to such failures or maintenance outages, regardless of cause or whether or not it could have been avoided.
• ALL THIRD PARTY CONTENT OR SERVICES ACCESSIBLE VIA THIS DEVICE IS PROVIDED TO YOU ON AN "AS-IS" AND "AS AVAILABLE" BASIS AND SHARP AND ITS AFFILIATES MAKE NO WARRANTY OR REPRESENTATION OF ANY KIND TO YOU, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES OF SUITABILITY, AVAILABILITY, ACCURACY, COMPLETENESS, SECURITY, TITLE, USEFULNESS, LACK OF NEGLIGENCE OR ERROR-FREE OR UNINTERRUPTED OPERATION OR USE OF THE CONTENT OR SERVICES PROVIDED TO YOU OR THAT THE CONTENT OR SERVICES WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS.
• SHARP IS NOT AN AGENT OF AND ASSUMES NO RESPONSIBILITY FOR THE ACTS OR OMISSIONS OF THIRD PARTY CONTENT OR SERVICE PROVIDERS, NOR ANY ASPECT OF THE CONTENT OR SERVICE RELATED TO SUCH THIRD PARTY PROVIDERS.
• IN NO EVENT WILL SHARP AND/OR ITS AFFILIATES BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, CONSEQUENTIAL OR OTHER DAMAGES, WHETHER THE THEORY OF LIABILITY IS BASED ON CONTRACT, TORT, NEGLIGENCE, BREACH OF WARRANTY, STRICT LIABILITY OR OTHERWISE AND WHETHER OR NOT SHARP AND/OR ITS AFFILIATES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Examples of Application Logos

Appendix

Removing the Stand

• Before detaching (or attaching) the stand, make sure to turn off the TV and unplug the AC cord.

CAUTION

• **Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.**

■ LC-70C8470U/LC-70C7450U

1 Loosen the screws used to secure the stand cover.
2 ① Pull the bottom of the stand cover slightly toward you to allow it to move upward.
   ② Move the stand cover upward, and pull it toward you to remove.
3 Unfasten the four screws used to secure the stand in place.
4 Detach the stand from the TV.
■ LC-60C8470U/LC-60C7450U

1 ① Loosen the screws used to secure the stand cover.
   ② Remove the cover.
2 Unfasten the four screws used to secure the stand in place.
3 Detach the stand from the TV.
• In the installation procedure, be careful not to catch your fingers between the TV set and the floor.
Setting the TV on the Wall

CAUTION

• **This TV should be mounted on the wall only with the wall mount bracket AN-52AG4 (SHARP). The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.**
• **Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.**

Using an optional bracket to mount the TV

• You can ask a qualified service professional about using an optional AN-52AG4 bracket to mount the TV on the wall.
• Carefully read the instructions that come with the bracket before beginning work.

Hanging on the wall

AN-52AG4 wall mount bracket.
(See the bracket instructions for details.)
About setting the TV angle

AN-52AG4

0°/5°/10°

• The "c" position is at the center of the display.

• Refer to the operation manual of AN-52AG4 for details.

Vertical mounting   Angular mounting

NOTE

• Due to the terminal configuration on this TV, when you wall-mount this model, make sure there is enough space between the wall and the TV for the cables.
• To use this TV mounted on a wall, remove the AC cord holder and the covers at the 4 locations on the rear of the TV, and then use the screws supplied with the wall mount bracket to secure the bracket to the rear of the TV.
Troubleshooting

Problem	Possible Solution
• No power	• Check if you pressed **POWER** on the remote control unit. ➡ **Page 19** • Is the AC cord disconnected? ➡ **Page 10** • Has the power been turned on? ➡ **Page 19**
• Unit cannot be operated.	• External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning off the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes.
• Remote control unit does not operate.	• Is the equipment to be operated by the remote control unit set correctly? Press **TV** to set the remote control unit to the setting for operating the TV. • Are batteries inserted with polarity (+ , −) aligned? ➡ **Page 11** • Are batteries worn out? (Replace with new batteries.) • Are you using it under strong or fluorescent lighting? • Is a fluorescent light illuminated near the remote control sensor? • Is "RC Control Lock" selected in "Operation Lock Out"? ➡ **Page 35**
• Picture is cut off/with sidebar screen.	• Is the image position correct? ➡ **Pages 34 and 67** • Are screen mode adjustments such as picture size made correctly? ➡ **Pages 26 and 66**
• Strange color, light color, or color misalignment	• Adjust the picture tone. ➡ **Pages 29 and 30** • Is the room too bright? The picture may look dark in a room that is too bright.
• Power is suddenly turned off.	• Is the sleep timer set? ➡ **Page 23** • Check the power control settings. ➡ **Page 32** • The unit's internal temperature has increased. Remove any objects blocking vent or clean.

• No sound	• Is connection to other components correct? ➡ **Pages 14 to 18 and 61**
	• Is the volume too low? ➡ **Page 23**
	• Is "Variable" selected in "Output Select"? ➡ **Page 34**
	• Have you pressed **MUTE** on the remote control unit? ➡ **Page 23**
	• Check the audio output of the connected external equipment. Is the volume too low or muted?
	• When external equipment is connected via an HDMI cable, you may need to configure the audio to be output through the HDMI cable.
	• When audio is not output from external equipment connected to the PC IN or HDMI 2 terminal, check the "Audio Select" setting. ➡ **Page 67**
	• Even when external equipment is connected using an HDMI-certified cable, an audio cable connection may be required depending on the type of equipment and the media being played back. In this case, in addition to connecting an HDMI-certified cable to the HDMI 2 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". ➡ **Page 67**
	• When connecting a PC via an HDMI-certified cable, check the following:
	  - Is the audio output of the PC configured correctly? Check the audio output settings and output audio format in Sound Properties on the PC.
	    The audio formats compatible with this TV are PCM, Dolby Digital. With other formats, audio cannot be output.
	  - Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the HDMI 2 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". ➡ **Page 67**
	• If you are using a DVI-HDMI conversion cable to connect external equipment to the TV, check the following:
	  - Is an audio cable connected? The DVI-HDMI conversion cable is for video only. Connect a Ø 3.5 mm stereo minijack cable to listen to the audio.
	  - Is HDMI 2 being used? When the TV is connected to another HDMI terminal, the audio and video are not output together even if a Ø 3.5 mm stereo minijack cable is connected to the shared AUDIO IN terminal for PC IN and HDMI 2.
	  - Check the "Audio Select" setting. Set "Audio Select" to "HDMI+Analog". ➡ **Page 67**

Problem	Possible Solution

• No picture	• Is connection to other components correct? ➡ **Pages 14 to 18 and 61**
	• Is the correct input selected? ➡ **Pages 14 and 23**
	• Is "On" selected in "Audio Only"? ➡ **Page 32**
	• If the PC image is not displayed, check the following:
	  - When connecting a laptop PC to the TV, check that display output mode of the PC is set to external monitor.
	  - Check the resolution setting on the PC. Is a non-compatible signal being input?
	    ➡ **Page 67**

• Picture quality of HD programs is poor.	• To enjoy HD images from external equipment, you are required to set up HDMI connection or component connection. • If the program content is not of HD quality, HD images cannot be displayed. Check that the program you are viewing provides HD images. • The HD cable/satellite set-top box may need to be configured to output HD images via cable/satellite. • The cable/satellite broadcast may not support a signal resolution of 1080p.
• The TV sometimes makes a cracking sound.	• This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV's performance.
• The AQUOS ADVANTAGE LIVE cannot be displayed.	• Is the ETHERNET cable connected correctly? ➡ **Page 70** • Check the settings of "Internet Setup". ➡ **Pages 71 to 72**
• Some Internet functions used on a PC are not available from the TV.	• The TV has only limited functions compared with regular PC browsers. ➡ **Page 74**

Troubleshooting - 3D Images

Problem	Possible Solution
• 3D images are not displayed.	• Is "3D Auto Change" set to "Off"? Press **3D** to switch to 3D mode. ➡ **Page 49** • If "3D Auto Change" is set to "Mode 1" or "Mode 2" but no 3D images are displayed, check the display format of the content being viewed. Some 3D image signals may not be recognized as 3D images automatically. Press **3D** to select the appropriate display format for the 3D image. ➡ **Pages 47 to 48** • Is the power of the 3D Glasses turned on? • Are the 3D Glasses set to 2D mode? • Is there an obstacle between the 3D Glasses and the TV, or is something covering the infrared receiver on the 3D Glasses? The 3D Glasses operate by receiving a signal from the TV. Do not place anything between the 3D infrared emitter on the TV and the infrared receiver on the 3D Glasses. ➡ **Page 12**

For further details, refer to the operation manual of your 3D Glasses.

Troubleshooting - Error Message

The example of an error message displayed on a screen	Error code	Possible Solution
• Failed to receive broadcast.	**E202**	• Check the antenna cable. Check that the antenna is correctly setup.
• No broadcast now.	**E203**	• Check the broadcast time in the program guide.

• An incompatible audio signal has been received. Check the output device settings.	—	• This message is displayed when an audio format other than PCM or Dolby Digital is input. (The DTS audio format is not supported.)
		  - Set the audio output format of connected external HDMI equipment to PCM or Dolby Digital.
		  - Refer to the operation manual of the external equipment for setting details.

Trademarks

- SmartCentral is a registered trademark of Sharp Corporation

- Products that have earned the ENERGY STAR® are designed to protect the environment through superior energy efficiency.

Operating temperature			+32°F to +104°F (0°C to +40°C)	

[*1] Emergency alert messages via Cable are unreceivable.
[*2] **Skype will be available for the USB terminals. For details, refer to the following:**
  • http://www.sharpusa.com (for the operation manual)
  • http://freetalk.me/product/sharp/ (for information on the communication camera)
  • http://www.skype.com (for details on Skype)
[*3] The dimensional drawings are shown on the inside back cover.
• As part of policy of continuous improvement, SHARP reserves the right to make design and specification changes for product improvement without prior notice. The performance specification figures indicated are nominal values of production units. There may be some deviations from these values in individual units.

Cautions regarding use in high and low temperature environments
• When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
• Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the front panel to malfunction.
  Storage temperature: −4°F to +140°F (−20°C to +60°C)

Wireless LAN

This TV has received the following certifications.
- Wi-Fi CERTIFIED™ (certification program from the Wi-Fi Alliance®)
- Wi-Fi Protected Setup™ (certification program from the Wi-Fi Alliance®)

FCC
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. To comply with the FCC RF exposure compliance requirements, this device and its antenna must not be co-located or operated in conjunction with any other antenna or transmitter.
The device for the band 5150-5250 MHz is only for indoor usage to reduce potential for harmful interference to co-channel mobile satellite systems;
The maximum antenna gain permitted (for devices in the bands 5250-5350 MHz and 5470-5725 MHz) to comply with the e.i.r.p. limit; and High-power radars are allocated as primary users (meaning they have priority) of the bands 5250-5350 MHz and 5650-5850 MHz and these radars could cause interference and/or damage to LE-LAN devices.

COFETEL
This equipment operates on a secondary basis and, consequently, must accept harmful interference, including from station of the same kind, and may not cause harmful interference to systems operating on a primary basis.
CONTAINS TRANSMITTER MODULE COFETEL ID: RCPSHTW11-1252
Brand: SHARP
Model: TWFM-B005D

CLEARING THE SECRET NUMBER

If you forget the secret number, clear the secret number using the following procedure.

1 Select an item from the list below to display the secret number input screen. (For operating the on-screen display menu, see page 27.)
   - "Color system" (← "Terminal Setting" ← System Options menu).
   - "EZ Setup" or "Reset" (← Initial Setup menu).
   - "CH Setup" (← "Broadcasting Setup" ← Initial Setup menu).
   - "Parental CTRL" (← "Individual Setup" ← Initial Setup menu).
   - "Interactive Service" (← "Internet Setup" ← Initial Setup menu).
   - "Software Update" (← Information menu).

2 Press and hold both **CH∧** and **VOL +** on the TV simultaneously until the message appears on the screen.

The secret number is ☐☐☐☐ .

NOTE

- As a precautionary measure, make a note of your secret number above, and keep it in a safe place.

Information on the Software License for This Product

■ **Software composition**
The software included in this product is comprised of various software components whose individual copyrights are held by SHARP or by third parties.

■ **Software developed by SHARP and open source software**
The copyrights for the software components and various relevant documents included with this product that were developed or written by SHARP are owned by SHARP and are protected by the Copyright Act, international treaties, and other relevant laws. This product also makes use of freely distributed software and software components whose copyrights are held by third parties. These include software components covered by a GNU General Public License (hereafter GPL), a GNU Lesser General Public License (hereafter LGPL) or other license agreement.

■ **Obtaining source code**
Some of the open source software licensors require the distributor to provide the source code with the executable software components. GPL and LGPL include similar requirements. For information on obtaining the source code for the open source software and for obtaining the GPL, LGPL, and other license agreement information, visit the following website:

Information on the Software License for This Product

OpenSSL

LICENSE ISSUES

The OpenSSL toolkit stays under a dual license, i.e. both the conditions of the OpenSSL License and the original SSLeay license apply to the toolkit.

See below for the actual license texts. Actually both licenses are BSD-style Open Source licenses. In case of any license issues related to OpenSSL please contact openssl-core@openssl.org.

OpenSSL License

Copyright © 1998-2008 The OpenSSL Project. All rights reserved.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.

2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.

3. All advertising materials mentioning features or use of this software must display the following acknowledgment: "This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit. (http://www.openssl.org/)"

4. The names "OpenSSL Toolkit" and "OpenSSL Project" must not be used to endorse or promote products derived from this software without prior written permission. For written permission, please contact openssl-core@openssl.org.

5. Products derived from this software may not be called "OpenSSL" nor may "OpenSSL" appear in their names without prior written permission of the OpenSSL Project.

6. Redistributions of any form whatsoever must retain the following acknowledgment: "This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit (http://www.openssl.org/)"

THIS SOFTWARE IS PROVIDED BY THE OpenSSL PROJECT "AS IS" AND ANY EXPRESSED OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE OpenSSL PROJECT OR ITS CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

This product includes cryptographic software written by Eric Young (eay@cryptsoft.com). This product includes software written by Tim Hudson (tjh@cryptsoft.com).

Original SSLeay License

Copyright © 1995-1998 Eric Young (eay@cryptsoft.com) All rights reserved.

This package is an SSL implementation written by Eric Young (eay@cryptsoft.com).

The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are aheared to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed. If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.

2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.

3. All advertising materials mentioning features or use of this software must display the following acknowledgement: "This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)"

The word 'cryptographic' can be left out if the rouines from the library being used are not cryptographic related :-).

4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement: "This product includes software written by Tim Hudson (tjh@cryptsoft.com)"

THIS SOFTWARE IS PROVIDED BY ERIC YOUNG "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE AUTHOR OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

The licence and distribution terms for any publically available version or derivative of this code cannot be changed. i.e. this code cannot simply be copied and put under another distribution licence [including the GNU Public Licence.]

For location of the nearest Sharp Authorized Service, or to obtain product literature, accessories, supplies, or customer assistance, please call 1-800-BE-SHARP.

LIMITED WARRANTY

CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand Liquid Crystal Display product (the "Product"), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product or if the serial number or model number affixed to the Product has been removed, defaced, changed, altered or tampered with. This warranty does not cover installation or signal reception problems. This limited warranty will not apply if the Product has been or is being used in a commercial setting or application; this warranty is meant solely for the non-commercial, household use of the Product by consumers in their home or residence. If you intend to or already use this Product for commercial purposes or in a commercial setting, there are warranties available to cover your use of this Product, the terms of which may vary. Please contact **1-888-GO-SHARP** for further information.

In order to enforce your rights under this limited warranty, you should follow the steps set forth below. You must be able to provide proof of purchase to the servicer, which proof must include the date of purchase.

To the extent permitted by applicable state law, the warranties set forth are in lieu of, and exclusive of, all other warranties, express or implied. Specifically ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED, ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE SPECIFICALLY EXCLUDED. IF, UNDER APPLICABLE STATE LAW, IMPLIED WARRANTIES MAY NOT VALIDLY BE DISCLAIMED OR EXCLUDED, THE DURATION OF SUCH IMPLIED WARRANTIES IS LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

The warranties given herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser and only for the time periods set forth herein. No other representations or promises made by anyone are permitted. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. Sharp does not warrant nor shall Sharp be liable, or in any way responsible, for Products which have been subject to abuse (including, but not limited to, improper voltage), accident, misuse, negligence, lack of reasonable care, alteration, modification, tampering, misuse, improper operation or maintenance or any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than a Sharp authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow limits on warranties or on remedies for breach in certain transactions; in such states, the limits herein may not apply.

THIS LIMITED WARRANTY IS VALID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND PUERTO RICO.

Model Specific Section

Your Product Model Number & Description:	LC-70C8470U/LC-60C8470U/LC-70C7450U/LC-60C7450U LCD Color Television (Be sure to have this information available when you need service for your Product.)
Warranty Period for this Product:	One (1) year parts and labor from the date of purchase.
Additional Exclusions from Warranty Coverage (if any):	In order for the Product to be serviced, the Product must be readily available to the servicer, free and clear of any complex or non-standard installation, mounting or other encumbrance which would unreasonably interfere with servicing the Product. The Servicer will remount the Product after service, provided that such remounting is not into a complex or non-standard installation. Any additional labor and materials required to remove and/or reinstall a Product above and beyond the foregoing are not covered by this warranty, may result in additional charges and are the responsibility of the consumer. Image Retention resulting from a fixed image being displayed for long periods of time is not covered by this Limited Warranty (see Operation Manual on how to prevent this).
Where to Obtain Service:	From a Sharp Authorized Servicer located in the United States. To find the location of the nearest Sharp Authorized Servicer, please call Sharp toll free at 1-800-BE-SHARP.
What to do to Obtain Service:	Contact your Sharp Authorized Servicer to obtain in home service for this product. The Servicer will come to your location and if necessary remove the unit for repair at the Servicer's facility and return the set to you once completed. Be sure to have **Proof of Purchase** available.

SHARP®

LIMITED WARRANTY
Consumer Electronics Products
Congratulations on your purchase!

Sharp Electronics of Canada Ltd. ("Sharp") warrants to the first purchaser for this Sharp brand product ("Product"), when shipped in its original container and sold or distributed in Canada by Sharp or by an authorized Sharp dealer, that the Product will during the applicable warranty period, be free from defects in material and workmanship, and will within the applicable warranty period, either repair the defective Product or provide the first purchaser a replacement of the defective Product.

Conditions: This limited warranty shall not apply to:
(a) Any defects caused or repairs required as a result of abusive operation, negligence, accident, improper installation or inappropriate use as outlined in the owner's manual or other applicable Product documentation.
(b) Any defects caused or repairs required as a result of any Product that has been tampered with, modified, adjusted or repaired by any person other than Sharp, a Sharp authorized service centre or an authorized Sharp servicing dealer.
(c) Any defects caused or repairs required as a result of the use of the Product with items not specified or approved by Sharp, including but not limited to, head cleaning tapes and chemical cleaning agents.
(d) Any replacement of accessories, glassware, consumable or peripheral items required through normal use of the Product, including but not limited to, earphones, remote controls, AC adapters, batteries, temperature probe, trays, filters, belts, ribbons, cables and paper.
(e) Any cosmetic damage to the Product surface or exterior that has been defaced or caused by normal wear and tear.
(f) Any defects caused or repairs required as a result of damage caused by any external or environmental conditions, including but not limited to, transmission line/power line voltage or liquid spillage or acts of God.
(g) Warranty claims for Products returned with illegible or without appropriate model, serial number and CSA/cUL markings.
(h) Any Products used for rental or commercial purposes.
(i) Any installation, setup and/or programming charges.

How to get service: Warranty service may be obtained upon delivery of the Product, together with proof of purchase (including date of purchase) and a copy of this limited warranty statement, to an authorized Sharp service centre or an authorized Sharp servicing dealer. In home warranty service may be provided, at Sharp's discretion, on any Sharp Television with the screen size of 40" or larger and on any Sharp Over-The-Range Microwave Oven or Home Use Microwave Drawer. No other person (including any Sharp dealer or service centre) is authorized to extend, enlarge or transfer this warranty on behalf of Sharp. The purchaser will be responsible for any and all removal, reinstallation, transportation and insurance costs incurred.

The express warranties in this limited warranty are, except for consumer purchasers domiciled in Quebec, in lieu of and, except to the extent prohibited by applicable law, Sharp disclaims all other warranties and conditions, express or implied, whether arising by law, statute, by course of dealing or usage of trade, including, without limitation, implied warranties or conditions of merchantability and/or quality, fitness for a particular use or purpose, and/or non-infringement. **Limitations** (not applicable to consumer purchasers domiciled in Quebec to the extent prohibited under Quebec law): (a) Sharp shall not be liable for any incidental, special, consequential, economic, exemplary or indirect damages of any kind or nature (including lost profits or damages for loss of time or loss of use or loss of data) arising from or in any connection with the use or performance of a Product or a failure of a Product, even if Sharp is aware of or has been advised of the possibility of such damages; (b) the remedies described in this limited warranty constitute complete fulfillment of all obligations and responsibilities of Sharp to the purchaser with respect to the Product and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. Some provinces may not allow the exclusion or limitation of certain damages, or limits on the duration or voiding of implied warranties or conditions; in such provinces, the exclusions and limits herein may not apply. This limited warranty is, except for consumer purchasers domiciled in Quebec, governed by the laws of the Province in Canada in which the purchaser has purchased the Product. For consumer purchasers domiciled in Quebec this limited warranty is governed by the laws of Quebec.

WARRANTY PERIODS (calculated from the date of original purchase): Parts & Labour (exceptions noted)

Audio Product	1 year
Blu-Ray Product	1 year
Projector	1 year (lamp 90 days)
LCD TV	1 year
Microwave Oven	1 year (magnetron component-4 additional years)
Air Purifier	1 year
