

AFFINITY KING UPHOLSTERED BED - COMPLETE

The softer side of the Aspire bedroom includes the relaxing Affinity Upholstered Bed. It uses the familiar outside frame of the Lineage wood panel bed but with the padded comfort of a fabric upholstered center. It is upholstered using a performance fabric for worry free relaxing. To finish the look, the Affinity Bed is trimmed in nail heads that share the brushed gold/bronze finish of the Aspire hardware. The Affinity Upholstered Bed also features the beveled post design. This element gives a clean connection point to add the Aspire Wall Panels (optional) which can flank the headboard and create a finished backdrop for either of the Aspire bedside pieces.

- Cherry
