NOTES

Heavy thread stitching and channeled back cushion for a tailored look
Built to last with our DualFlex Spring System—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability
Power control independently adjusts the headrest, lumbar support, and recline for a personalized sit
Separate home buttons return the headrest and footrest to their original positions with one touch
USB port built into power button for convenient charging
Extended footrest enhances comfort and circulation
Lay-flat mechanism helps you seamlessly shift from sitting to reclining to sleeping position
High-density cushions consist of a high-resiliency, high-density polyurethane foam core
Available in polyester fabric options that will hold up in the most demanding environments
Center console stores remotes, magazines, and other personal items
Two beverage holders keep refreshments close at hand
A hand-held power control independently adjusts the headrest and recline for a personalized sit
A separate home button returns the headrest and footrest to their original positions with one touch
Removable back makes the recliner easy to reposition and move
Convenient side pocket for storing hand control
Heavy-duty design accommodates up to 300 lbs
Power allows you to smoothly recline to any position, adjust the headrests, and adjust the lumbar supports.
A single USB port is included on each power button control on styles with arms.
A home feature returns the headrest, footrest, and lumbar support to their original positions.
A six-button wired power hand control on the right-hand side of the recliner allows you to control the reclining, headrest, and lumbar mechanisms independently. A single USB port is included on the top of the hand control.

Home Button

The home button returns the headrest, footrest, and lumbar support to their original positions. To activate the home button, press and hold the button used to lower the footrest.
