BETTER FUEL FOR BETTER FLAVOUR

Broil King's Premium Grilling Pellets are specifically designed to work with the Broil King® Pellet series grills. Our pellets are 100% natural and contain only premium wood with no fillers, oil additives, or binding agents. These premium pellets offer optimal cooking performance and great flavour. Our source woods are mixed before pelletizing, ensuring that each pellet contains the ideal blend.

INFRARED BURNER

Searing Heat, Legendary Flavour.

The infrared burner is designed to focus the gas flame onto the ceramic tile comprised of thousands of holes. This converts the heat of the flame into infrared energy. With temperatures up to 1,700°F, it's like having the power of the sun in your side burner. Broil King® has created a premium "Infrared Grilling System" including a professional-grade 8mm stainless steel cooking grid. Infrared Technology is more fuel efficient, achieves much higher grill surface temperatures, and is superior for direct grilling. It's a great addition to Broil King's legendary performance.

KEG HARDWOOD LUMP CHARCOAL

Broil King® Keg's 100% Natural Hardwood Lump Charcoal delivers the ultimate outdoor cooking experience with authentic flavour, unmatched performance, and incredible convenience. Unlike charcoal briquettes, our Lump Charcoal contains no chemicals, additives, or fillers. No chemicals in the charcoal means no chemical flavours in your food. You just get that delicious natural flavour of cooking over a real hardwood fire. Also, 100% Natural Hardwood Lump Charcoal lights quicker, burns hotter, and lasts longer than briquettes. This means your grill will heat up faster and you'll use less fuel each time you cook. Clean up is easier too. It's the fillers in most manufacturers' briquettes that create all that messy ash. With no fillers, our Lump Charcoal produces about 5X less ash. Make the natural choice for your next barbecue, because better fuel makes better food!
