NOTES

Heavy thread stitching and channeled back cushion for a tailored look  
Built to last with our DualFlex Spring System—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability  
A hand-held power control independently adjusts the headrest and recline for a personalized sit  
A separate home button returns the headrest and footrest to their original positions with one touch  
Extended footrest enhances comfort and circulation  
Lay-flat mechanism helps you seamlessly shift from sitting to reclining to sleeping position  
Attached seat and back cushions ensure a comfortable sit that will last  
High-density cushions consist of a high-resiliency, high-density polyurethane foam core  
Removable back makes the recliner easy to reposition and move  
Available in polyester fabric options that will hold up in the most demanding environments  
USB port built into power button for convenient charging  
Convenient side pocket for storing hand control  
Heavy-duty design accommodates up to 300 lbs  
Center console stores remotes, magazines, and other personal items  
Two beverage holders keep refreshments close at hand  
Power control independently adjusts the headrest, lumbar support, and recline for a personalized sit  
Separate home buttons return the headrest and footrest to their original positions with one touch  
Power allows you to smoothly recline to any position, adjust the headrests, and adjust the lumbar supports.  
A six-button wired power hand control on the right-hand side of the recliner allows you to control the reclining, headrest, and lumbar mechanisms independently. A single USB port is included on the top of the hand control.  
A home feature returns the headrest, footrest, and lumbar support to their original positions.  
A single USB port is included on each power button control on styles with arms.

Home Button

The home button returns the headrest, footrest, and lumbar support to their original positions. To activate the home button, press and hold the button used to lower the footrest.
