Wi-Fi CONNECT GUIDE SMART DISHWASHER MODEL SDW6888JS

HOW TO CONNECT AND PAIR YOUR APPLIANCE TO THE SHARP KITCHEN APP

1. GETTING STARTED

• Download the **Amazon Alexa** App on the App Store[®].

- Launch the Amazon Alexa App and sign in or create an account.
 *If you already have an Amazon account, enter credentials and select (SIGN IN).
- For the best user experience, we recommend an Amazon Echo or other Alexa-Enabled Device to Allow Voice Control be set up on the same smart home network as the SDW6888JS. Amazon Echo and Other Alexa-Enabled Devices Sold Separately.

Please make sure your mobile device is connected to the same network that you will use to connect your dishwasher to the internet and please make sure your Echo device is placed near the dishwasher for the pairing process.

THREE WAYS TO PAIR YOUR DEVICE -

In order to begin the process of connecting your **Sharp Smart Dishwasher** to the internet please make sure you've downloaded the Alexa App onto your mobile device, have created an account, and that the Alexa App is connected to your Echo device.

BARCODE SETUP Page 3

SETUP WITHOUT BARCODE Page 6

ZERO TOUCH SETUP Page 8

2. BEFORE YOU BEGIN

In order to pair, all prerequisites listed below must be met for each pairing method:

- The dishwasher will need to be within the Wi-Fi range of the user's Wi-Fi network.
- The dishwasher will need to be within the wireless range of the Amazon Alexa App, or an Echo family device, which was signed into the same Amazon account.

Zero Touch Setup - additional prerequisite

The dishwasher must have been ordered from the same Amazon account and while ordering you
must have opted to link the device upon purchase. If the dishwasher was received as a gift, or
the user de-selected this option upon purchase, the dishwasher will not be linked to the end user's
Amazon/Alexa account and Zero Touch Setup will not be enabled. Please pair with the first or
second pairing methods.

3. PAIRING YOUR APPLIANCE

• After signing up your account, follow the instructions below to connect your Smart Dishwasher to the internet, then pair your app to your appliance.

METHOD 1: BARCODE SETUP

- 1. First Download the Amazon Alexa App.
- 2. Plug in your Dishwasher, open the door, and press and hold Power from 3 seconds, to power on the Dishwasher.
- On your Dishwasher press buttons "Rinse Only" + "Hi Temp Wash" simultaneously for 5 seconds until the display reads "FR".

- 4. Open the Amazon Alexa App. Select the "Devices" tab on the bottom right corner.
- 5. At the top right corner, Select the "+" button > "Add a Device".

- 6. You will be brought to the device set up page. Scroll or Search until you find "Dishwasher".
- 7. Select "Dishwasher" > "Sharp" > "Next" and allow access to your Camera.

12. Proceed to Page 10 to Start Using Application.

METHOD 3: ZERO TOUCH SETUP

Works ONLY if dishwasher was purchased through Amazon, and Zero Touch Setup was applied during checkout.

Please follow these steps to pair your appliance without a barcode:

- 1. First Download the Amazon Alexa App or use an active 2nd Gen or higher Echo Dot.
- Once dishwasher is installed Press "Rinse Only" + "Start/Cancel" simultaneously for 5 seconds to start the network control. The Wi-Fi indicator will stop flashing and remain lit, which means your device is paired successfully.

3. If pairing with the Alexa App you will receive this popup on your mobile phone once your device is paired.

4. If pairing with an Echo Dot:

-First your new dishwasher signal is read by your nearby Echo Dot.

-Second, the Echo Dot makes a connection with the cloud.

-Third, the cloud authorizes and authenticates your device, and connects your device to Amazon.

-Fourth, the Echo Dot communicates the authorization back to your dishwasher.

-Fifth, the dishwasher connects to your network and account.

-Lastly, your device is connected and ready to use.

5. Proceed to Page 10 to Start Using Application.

4. START USING APPLICATION

- With the Dishwasher connected to Wi-Fi and paired to the mobile app, authorize your appliance to accept control commands from your mobile app or voice commands.
- To start the network control, touch Wi-Fi until the Wi-Fi indicator stops flashing and remains lit.

- Select First Dishwasher. You can now access your device through the "Devices" Tab. Select "All Devices" to access your Dishwasher.
- You can change the name from "First Dishwasher" to "Dishwasher" in the Devices tab by selecting the Settings icon in the top right corner, and then selecting Edit Name.
- You can now control your dishwasher via the Alexa App or manually on the dishwasher control panel.
